

Requirements for a Minor Variance

As set forth in the City of West Chicago Zoning Ordinance Sections 5.1-3 and 5.4-4:

The zoning administrator shall have the authority to approve a minor variance of ten percent (10%) or less as to setbacks or bulk regulations of the West Chicago Zoning Code.

Standards for a minor variance. The zoning administrator shall not grant a minor variance unless, based upon the evidence presented to him, he determines that:

- (1) The particular physical surroundings, shape or topographical condition of the specific property involved would result in a particular hardship upon the owner, as distinguished from a mere inconvenience or loss of revenue, if the strict letter of the regulations were carried out.
- (2) The condition upon which the requested minor variance is based would not be applicable, generally, to other property within the same zoning classification.
- (3) The alleged difficulty or hardship has not been created by any person presently having an interest in the property.
- (4) The granting of the minor variance will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.
- (5) The proposed minor variance will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion in the public streets, increase the danger of fire, endanger the public safety or substantially diminish or impair property values within the neighborhood.
- (6) The proposed minor variance complies with the spirit and intent of the restrictions imposed by this code.

The purpose of a minor variance is to provide an expedited relief to a property owner when the strict enforcement of the zoning regulations pertaining to variances, that are deemed to be minor in nature, such as a surveying error or change in zoning regulations, would not impose an undue hardship on the reasonable use of the land or create a negative impact on the surrounding community.

Hardship of the applicant is the crucial test. A minor variance will be granted only to provide relief in unusual situations that were not intended or foreseen when the Zoning Ordinance was adopted or amended. Economic loss or gain is not considered a unique situation and is generally not considered a valid hardship.

It is strongly suggested that the petitioner schedule an appointment with the Zoning Administrator at the time of submittal so that the application submittal documents can be reviewed for accuracy and completeness.
