

# FOREST AVENUE ROADWAY AND STORM SEWER REHABILITATION PROJECT

## Construction Newsletter

August 14, 2014

---

The purpose of this newsletter is to inform you that the City of West Chicago has awarded the 2014 Forest Avenue Roadway and Storm Sewer Rehabilitation Project (Project) to Chicagoland Paving Contractors, Inc. Based upon an updated schedule provided by the contractor, construction is scheduled to begin during the week of Monday, August 18, 2014, and is anticipated to be completed by October 31, 2014, weather depending.

The Project includes roadway and storm sewer rehabilitation along Forest Avenue, between Town Road and Pearl Road, and storm sewer rehabilitation along the northern section of Pearl Road just south of its intersection with Forest Avenue. The Project's work generally consists of pavement milling and resurfacing, pavement patching, storm sewer replacement, concrete curb and gutter and sidewalk replacement.

The Project's local road improvement is funded by both the City and the DuPage County Community Development Commission & the US Department of Housing and Urban Development through a Community Development Block Grant.

Daytime on-street parking on Forest Avenue will not be allowed during construction. Daytime public parking will be available on adjacent streets. Please obey all other local parking restrictions and signage.

Driveway access may be periodically restricted during construction. Please note all construction activities are scheduled between 7:00 AM to 6:00 PM, Monday through Friday, and 8:00 AM to 4:30 PM on Saturday. Traffic will be restricted during construction hours, but all streets will be open to traffic at the end of each business day.

Traffic control signs will be posted prior to and during construction notifying residents of the proposed construction and/or detour routes.

As the work progresses, the City will update you on the project's status. Please visit [www.westchicago.org](http://www.westchicago.org) periodically for the latest construction news update. If you should have any questions regarding the 2014 Forest Avenue Roadway and Storm Sewer Rehabilitation Project, please contact:
