WHAT IS CERT?

The Community Emergency Response Team (CERT) Program educates people about disaster preparedness for hazards that may impact their area and trains them in basic disaster response skills, such as fire safety, light search and rescue, team organization, and disaster medical operations. Using the training learned in the classroom and during exercises, CERT members can assist others in their neighborhood or workplace

Members of a previous CERT class learn valuable lessons to apply in the event of a community emergency.

following an event when professional responders are not immediately available to help. CERT members also are encouraged to support

emergency response agencies by taking a more active role in emergency preparedness projects in their community.

The course will be conducted at the Fire Protection District Headquarters, located at 200 Fremont Street. To enroll residents should call Sergeant Woodill at (630)293-2222 or email at CWoodill@westchicago.org
