CITY COUNCIL AGENDA ITEM SUMMARY

ITEM TITLE:

Resolution No. 20-R-0009 - Authorizing the City Administrator to Enter into a Contract for the Supply of Electricity for the City's Water Treatment Plant, all Well Stations, and all Sanitary Lift Stations

AGENDA ITEM NUMBER: 8.A.

COMMITTEE AGENDA DATE:
COUNCIL AGENDA DATE: March 2, 2020

ITEM SUMMARY:

Since January 2007, as a result of the electric utility deregulation law passed by the State of Illinois in 1997, the City of West Chicago has contracted for the supply of electricity from a third party supplier for electric to be supplied to the City's Water Treatment Plant, all Well Stations, and all Sanitary Lift Stations. The distribution of electric continues to be provided by ComEd.

Working with David Hoover, who formed a collaborative known as NIMEC that represents multiple municipalities; alternative pricing is obtained via competitive bid from three third party electric suppliers. In the past, the competitive bids were then compared with ComEd's rates to determine which pricing yields the most significant savings for the City. Now, however, ComEd no longer offers fixed rates for medium and large accounts like ours. Therefore, the City is forced to seek competitive bids or pay ComEd's floating rate, which is not recommended, as the floating rates are inflated and change hourly.

As a result of NIMEC's services:

- In October 2006 the City executed a 17 month contract (January 2007 thru May 2008) with Constellation NewEnergy.
- In 2008 the City executed a three year contract (June 2008 thru May 2012) with Exelon Energy Company for a rate that varied between 0.0679 and 0.0864 \$/kWh.
- In 2012 the City executed a three year contract (June 2012 thru May 2015) with Exelon Energy Company for 0.04374 \$/kWh.
- In 2015 the City executed a two year contract (June 2015 thru May 2017) with Dynegy Energy Services, LLC for 0.05244 \$/kWh.
- In 2017 the City executed a three year contract (June 2017 thru May 2020) with Dynegy Energy Services, LLC 0.04834 \$/kWh. The existing contract will expired on May 31, 2020.

Again, NIMEC is representing the interest of several municipalities and seeking alternative pricing from three third party electric suppliers. As electricity is now a commodity that is market driven, it can change from day to day and hour to hour. Therefore, once the competitive bid prices are received, the City will need to make an immediate decision and enter into an agreement with the lowest cost supplier on the day of the bid. What this means is that the City Council, like it did on the previous occasions, would need to authorize the City Administrator to sign a contract with the lowest cost supplier. The Infrastructure Committee would then subsequently review and the City Council would then have to formally approve the low bid award afterwards (similar to an emergency purchase). In addition, this pricing would just be for

CITY OF WEST CHICAGO

electricity for the Water Treatment Plant, all Well Stations, and all Sanitary Lift Stations. JACOBS is now responsible for electric service at the West Chicago/Winfield Regional Wastewater Treatment Plant; however, it has also participated in the NIMEC bidding process.

NIMEC has indicated that they will seek bids on Tuesday, March 3, 2020, as current market condition are trending favorably. NIMEC will seek and receive bids from pre-qualified suppliers (i.e., Dynegy, Constellation and MC Squared); typically one for twelve months, one for 24 months, and one for 36 months. The City will then be able to choose the best deal.

ACTIONS PROPOSED:

Approve Resolution No. 20-R-0009

COMMITTEE RECOMMENDATION:

Given timing and notice received from NIMEC of the pending bid, this item was not presented to the Infrastructure Committee, but is being presented directly to City Council with approval of the Infrastructure Committee Chairman.

RESOLUTION NO. 20-R-0009

A RESOLUTION AUTHORIZING THE PARTICIPATION IN THE NORTHERN ILLINOIS MUNICIPAL ELECTRIC COLLABORATIVE (NIMEC) AND AUTHORIZING THE CITY ADMINISTRATOR TO APPROVE A CONTRACT WITH THE LOWEST COST ELECTRICITY PROVIDER FOR THE SUPPLY OF ELECTRICITY FOR THE CITY'S WATER TREATMENT PLANT, ALL WELL STATIONS, AND ALL SANITARY LIFT STATIONS

WHEREAS, on January 2, 2007, the State of Illinois implemented a plan to deregulate the electricity supply business in Illinois; and,

WHEREAS, under the aforementioned deregulation plan, Commonwealth Edison will no longer generate fixed rate electricity for its medium and large customers, but will continue to provide electric power through its distribution system; and,

WHEREAS, as a result of this deregulation, electricity will be purchased based on market price and Exelon, the parent company of Commonwealth Edison, will no longer be the sole supplier of electricity in Northern Illinois, resulting in new electricity suppliers being able to compete with Exelon, and competitive market forces dictating the price of electricity; and,

WHEREAS, during fiscal year 2019, the City of West Chicago (hereafter "City") spent over \$610,000 on electricity for water production, distribution and treatment and sanitary lift stations; and,

WHEREAS, municipalities across the State of Illinois are looking at ways to enter the market to purchase electric power in order to mitigate some of the economic impact of these rising rates, which on a practical basis, can best be accomplished by using a third party who will serve as a broker for the municipalities and has the knowledge and experience to seek bids from the various electricity providers; and,

WHEREAS, since our existing contract with Dynegy Energy Services, LLC is due to expire on May 31, 2020; and,

WHEREAS, if the City does not select a third party provider, Commonwealth Edison will become the default provider of electricity under a floating rate that changes hourly; and,

WHEREAS, the City had been working with the Northern Illinois Municipal Electric Collaborative (NIMEC) and for a one time previously paid fee of \$100, the City has no further obligations to this broker, which company's fees are built into the prices bid by the electricity supplier and equal approximately \$0.00125 per kilowatt hour (as would be the case with any broker); and,

WHEREAS, due to the bidding procedures required for commodities such as electricity, the City Administrator will need to have the authority to sign a contract with the electricity provider which is deemed most favorable for the City within hours of being received by NIMEC.

NOW, THEREFORE, BE IT RESOLVED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF WEST CHICAGO, DUPAGE COUNTY, ILLINOIS, as follows:

Section 1. That NIMEC is hereby appointed as the City's broker for purposes of obtaining a supply of electricity for the City's needs, and the City Administrator is hereby directed to take all actions necessary to establish said broker relationship.

Section 2. That NIMEC, as broker for the City, is authorized to discuss and negotiate energy rates directly with suppliers in an effort to secure the lowest energy cost for the City of West Chicago.

Section 3. That in light of the time constraints applicable to the acceptance of a competitive bid for a supply of electricity, once the bids are received by NIMEC, the City Administrator is hereby authorized to sign the contract with the lowest bidder.

Section 4. That, if the criterion in Section 3 is met, the City Administrator shall place said contract on the Consent Agenda at the first available Infrastructure Committee and subsequent City Council meeting following his execution of the documents, so that the City Council can then officially approve the contract.

APPROVED this 2nd day of March 2020.
