

CITY OF
WEST CHICAGO

WHERE HISTORY & PROGRESS MEET

2012
Budget

Michael L. Guttman
CITY ADMINISTRATOR

DECEMBER 2011

CITY OF WEST CHICAGO

WHERE HISTORY & PROGRESS MEET

December 9, 2011

Dear Mayor Kwasman, Aldermen and Treasurer Earley:

I hereby present to you the 2012 Fiscal Year Budget for the City of West Chicago, in accordance with Section 2-146 of the West Chicago City Code. The Annual Budget serves as a comprehensive financial plan and strategic guide for our organization. It includes a forecast of anticipated revenues for the coming fiscal year, as well as adopted expenditures that will guide the services provided to our customers, the 27,086 residents and 800+ businesses that call West Chicago their home.

The 2012 Annual Budget totals \$51,203,000 which is a decrease of 12.05% as compared to the 2011 Budget, as amended and excluding the debt service funds; specifically, the General Fund reflects a slight increase of 1.10% as compared to the 2011 Budget, as amended.

Background

The City has a proud history of providing exceptional services to a diverse group of stakeholders. Over the past decade, the diversity of the City has grown and with it, the challenges of meeting the needs and demands of our customers have grown as well. The departments and staff are continuously challenged to address the growth in West Chicago and develop new and innovative ways of delivering the services that the community expects. Through flexibility, adaptability, the use of technology, innovative staffing methods, and furthering intergovernmental and public/private partnerships, the organization continues to rise to the challenge to become one of the most efficient municipal corporations in the Chicagoland area. In fact, through challenging our senior management team and front line employees, the annual budget provides an increased service level while living within our means. With few exceptions, the City has been able to provide excellent service with fewer employees and tightening budgets.

Budget Strategy

This budget marks the ninth year of implementing a strategy that addresses the structural and cyclical budgetary challenges that were and continue to face the City of West Chicago. This strategy includes five major components:

Reduction in Operating Expenditures

To address the structural problem of rising operating costs coupled with decreasing revenues, the City annually undergoes a target budgeting process to manage the organization's expenditure and revenue patterns. Target Budgeting was initiated to discipline departments to establish priorities, control costs and stabilize finances. Target Budgeting is a modification of zero based budgeting in that it accepts the premise that the City provides certain basic services and attempts to "target funds" for these basic service levels. Beyond these basic levels, services are discretionary and can be evaluated, prioritized and matched against available revenues. Patterns of services can therefore be modified to meet changing needs without disrupting basic services. Target Budgeting assigns a target goal to each fund based upon its expenditure history and projected revenues as identified in September each year. This year's target for the General Fund was 1.5%

Donald F. Earley
CITY TREASURER
Michael L. Guttman
CITY ADMINISTRATOR

of the initial revenue forecast, which translated into a reduction of expenditures totaling approximately \$225,000. The target goal for the enterprise funds was two percent. The proposed 2012 budget accomplishes these target goals.

Meet Reserve Requirements

The City has again met its reserve requirement of 35% for the operating funds as detailed in Resolution No. 02-R-0073.

Identification and Implementation of New Revenues

Many of our traditional revenue sources have either been eliminated by other levels of government or are reduced during this economic downturn. The City Council has directed staff to do what it can to relieve the financial burden on our customers, and following such, there are no new tax, fee or rate increases included in the proposed Budget.

Increased Economic Development Focus

The City's Economic Development Program is designed to increase and diversify the City's sales tax and real estate tax bases, thereby allowing the City to become more self-sufficient, generating revenues from within the City and reducing dependency on outside revenue sources. The importance of our economic development efforts can continue to be realized when looking at our sales tax receipts. Increasing this revenue source has been a primary focus of the organization over the past several years. Mayor Kwasman, City Council and staff have devoted a great deal of energy into attracting new sales tax producing businesses, while at the same time, maintaining our existing businesses and helping with their expansion.

Maintain and Improve City Services

The City has a proud history of providing exceptional services. During the implementation of this five-part budgeting strategy, it is imperative that the residents and businesses not experience a reduction in service levels unless absolutely necessary. In fact, through challenging our senior management team and front line employees, the City has been able to improve upon some services during this transition period, including bringing our private development engineering review in house and contracting out the operation of our wastewater treatment plant. With few exceptions, the City has been able to provide excellent service with fewer employees and leaner budgets.

We are successful in achieving all of the parameters in the proposed 2012 Budget. The proposed Budget includes a planned spend down of reserves to make it a balanced budget.

Significant Highlights – All Funds

Personnel Changes – The proposed Budget does not reflect any personnel increases. However, the FY12 budget does not recommend restoring 12 unfilled (but not eliminated) positions from previous years, primarily because the long-term financial plan does not provide sufficient assurance that the General Fund will be able to support them over the long-term.

Fleet Purchases – The City will no longer delay purchasing any rolling stock and the Capital Equipment Replacement Fund will charge back the operational funds as indicated in last year's proposed budget; approximately \$750,000 has been added across all funds, with \$516,500 in the General Fund alone.

Customer Impact – There are no tax, fee or rate increases and also no service reductions proposed in the 2012 Budget.

Significant Highlights – General Fund

The General Fund is the all-purpose governmental fund that includes the operations of the municipality not accounted for in a separate fund. Most of the expenditures for City services are budgeted and accounted for in this fund, except for water and sewer expenses. There are four key revenue sources, which account for 66% of the total General Fund revenues:

Property Tax	22%
Sales and Use Taxes	22%
Income Tax	15%
Telecommunications Tax	7%

The revenues listed above represent the General Fund's primary growth revenues, which traditionally have paid for annual cost increases. Sales, use, motor fuel and income tax revenue are budgeted to remain at or slightly higher in 2012 due to the continued state of the economy. The property tax levy is proposed to remain the same in 2012 as it was in 2011.

On the expenditure side, in addition to the increased costs of maintenance contracts, dues, insurance, DuComm, and electricity, among others, the following are some additional changes and highlights within the General Fund Departments:

City Council

There are no major changes in this Department.

City Administrator's Office

No major changes are reflected in this Department but for including funds for development of a mobile application for the City's website (\$10,000 to develop and \$5,000 annual maintenance thereafter). The funds for the City's lobbyist have also been separated so the City Council can more easily distinguish this expense (\$36,000).

Administrative Services

There are no major changes in this Department, but for two one-time capital expenses to improve the City's information technology infrastructure. First, upgrading the San storage unit (\$40,000) will increase the City's capacity for data growth for expansion during the next five years, thereby increasing the rate of access to files and applications. Second, upgrading the wireless connection to the Water Treatment Plant (\$20,000) will allow users to access data more quickly while increasing productivity.

Police

There are no major changes in this Department and the approved staffing level for sworn positions remains at 49.

Public Works

There are no major changes in this Department.

Community Development

The only major change in this Department involves retaining the temporary employee who has been assisting since late-2011 for additional time.

Significant Highlights – Water and Sewer Funds

Water Fund

In 2012, there are no major changes to the operational components of the Water Fund. The primary capital projects that will be undertaken include the completion of Well #12 (\$690,000), the relocation of watermain along North Avenue (\$2,016,400), installing water lines in the W. Brown and W. Pomeroy neighborhood, which will be reimbursed by Tronox (\$413,400), continuing the water meter replacement program (\$3,375,300) and engineering and construction of the first of two 1.5 million gallon elevated tanks (\$4,662,000).

Sewer Fund

In 2012, there are no major changes to the operational components of the Sewer Fund. The primary capital projects that will be undertaken include the sewer main relocation along North Avenue (\$1,153,400), SCADA upgrades to the lift stations (\$300,000), installing sanitary sewer lines in the W. Brown and W. Pomeroy neighborhood since the roadways will already be open to install the water lines (\$207,900), and approximately \$2,300,000 in planned equipment replacement at the Wastewater Treatment Plant.

Significant Highlights – Capital Projects Fund

With the ¼ cent home rule sales tax in place to supplement the utility tax monies earmarked for this fund, the Capital Improvement Plan (CIP) includes the reconstruction of one block of Galena Street (\$323,100), local match for the Great Western Bike Trail Project (\$810,000), pedestrian tunnel improvements (\$557,300), replacing the Wilson Street culvert (\$94,100), reconstructing Clayton Street (\$601,100), replacing the roof at the Police Station (\$220,000), and extra money has been included to remove and replace the City's ash trees that cannot be treated (\$265,000). The Infrastructure Committee approved the 2011-2015 CIP at its December meeting.

Significant Highlights – Other Funds

The remainder of the appropriations is contained within five other funds: Commuter Parking Fund, Downtown TIF Fund, Oliver Square TIF Fund, MIS Replacement Fund, and the Public Benefit Fund.

Commuter Parking Fund

There are no major changes to this Fund.

Downtown and Oliver Square TIF Funds

The only major expenditures contemplated in the Downtown TIF Fund is the payment to the owner of the southwest corner of Route 59 and Main Street once he completes the improvements required in the Redevelopment Agreement (\$161,000), the demolition of 308-310 Main Street, 122-124 Fremont Street, 114 Chicago Avenue and 145-147 W. Washington Street (\$135,000), the continued background work on and environmental remediation for the government campus site (\$400,000), and replacing the landscaping and repairing the stairwells between Turner Court and Main Street (\$100,000).

Before terminating the Oliver Square TIF District, the City needs to spend the money it has been saving for new shopping center identification signs (\$140,000).

MIS Replacement Fund

As conveyed last year, the MIS Replacement Fund was never structured properly by former staff, and hence does not function as an internal service fund should (much like the Capital Equipment Replacement Fund was two years ago before it was addressed). Staff is spending down the reserves in this Fund over the next few years to cover the scheduled purchases per the IT Replacement Schedule. Thereafter the information technology equipment purchases will be budgeted in the user departments' budget in the year the acquisition is scheduled.

Public Benefit Fund

The Downtown TIF Fund continues to repay its loan to this Fund. There is also \$150,000 to finish the Wayfinding Signage Project and \$200,000 to construct a gazebo in Reed-Keppler Park.

Closing Remarks

The 2012 Annual Budget and Capital Improvement Program will serve as a strategic guide for our organization in the coming year. The Annual Budget reflects the service levels expected by our residents, provides dedicated revenues to support our long-term infrastructure and equipment needs, and lives within our financial means. The budget prioritizes core services and administrative functions and reflects one of the leanest and most efficient municipal corporations within the suburban Chicago area. West Chicago is diligently striving towards providing the highest quality services at one of the lowest costs. To continue in this tradition, all departments will be challenged to continually evaluate their work teams and performance as well as benchmark their productivity with comparable communities and outside contractors, where applicable. Our employees continue to be the key to operational and financial success.

The Annual Budget is the outcome of a great deal of hard work, dedication and effort of many people. All of the department directors and their staff are to be commended for their continued stewardship of the public dollar and assistance in the development of this document.

The support of the Mayor and City Council during this past year as the City continued with our budget strategy was terrific. You remained supportive of staff, yet continually challenged us to live up to the old adage of "doing more with less". I personally believe this was achieved throughout the organization. Finally, I would like to thank the senior management team for their tremendous assistance with the budgeting process from preparation through implementation.

Sincerely,

Michael L. Guttman
City Administrator

BUDGET PHILOSOPHY AND POLICY

Serving the public trust requires that the annual budget provide the best possible balance of allocation to meet the varied needs of all citizens. The budget is a principal management tool for the City administration and, in allocating the City's resources, it both reflects and defines the annual work plan. In this context, the budget provides a framework for us to accomplish our mission, which is:

"To assure a safe, cohesive and dynamic community that is responsive to the needs of both citizens and businesses as it strives for continuous improvement."

The budget should also reflect important organization values such as integrity, teamwork, service excellence, personal growth, and innovation.

In addition to balancing allocations to meet community needs and incorporating our mission and values, a successful annual budget preparation process requires excellent communications, citizen outreach, and a commitment to excellence. To this end, the process must be a cooperative effort of the entire City organization.

West Chicago prides itself on being an increasingly progressive community, willing to challenge the status quo and moving toward the "cutting edge." City staff has accepted this challenge by developing the budget within the context of a search for creative solutions for the delivery of City services. The budget will emphasize policy and procedure reviews to improve the productivity and effectiveness of service delivery to citizens and employees. Teamwork and efficiency enhancements will limit the amount of bureaucratic "red tape" required, both between functional areas within the City, and between City staff and citizens. The overriding goals must be to support the high standards set by the community and to provide long-term value at reasonable cost.

The budget will be based upon timely, consistent and clearly articulated policies. It will be realistic and will include adequate resources to meet assigned work programs. Once adopted, within the parameters of policy guidelines, departments will be given full spending authority for their budget(s).

The budget policies of the City are rooted in a history of conservative budgeting practices. They're based on a commitment to provide quality services while maximizing the return for each dollar spent. Revenue sources are diversified as much as possible to avoid the impacts of fluctuations in a particular revenue source. The following is the budget policy Council has used as a continuing foundation for fiscal discipline:

- Revenues are conservatively projected using historical trends, reasonably expected changes in the coming year, and an analysis of anticipated economic conditions in the region, the state and the nation.
- Fund balances shall be at least 25% of revenues in the General, Water and Sewer Funds; over the next several years the City should strive to increase this amount to 35%.

- The budget is flexible within each department. Over expenditures in one line item must be compensated within the departmental budget. Each department may not overspend its total departmental budget. Department heads may not exceed the staffing levels approved in the budget. The City Administrator may authorize transfers between departments within a fund.
- Major capital expenditures for the next five years will be identified in the capital projects budget. This budget will be updated on an annual basis. Smaller capital purchases may be included in each department's operating budget.
- User fees, such as water and sewer charges, will be reviewed annually. This is done to ensure that fees cover costs, if intended to do so, meet debt service requirements, and are affordable.
- Implementation of the budget will be monitored continuously. Purchase orders will be issued only when adequate funding is available.
- All utility taxes from the consumption of gas and electric services shall be deposited in the Capital Projects Fund. Maintenance activities shall be limited within this Fund.

City of West Chicago

City of West Chicago

CITY COUNCIL

Performance Report on FYE 2011 Major Program Objectives

The 2010-2012 City Council Priorities were approved as part of last year's budget process, and significant progress made over the course of 2011, as detailed in the various narratives in this Budget.

The City Council amended the Liquor Code to add two new liquor license categories for businesses wishing to have live entertainment and another to allow for a cold beer and wine license for grocery stores. An Ordinance was also adopted in 2011 to restrict the ability of nightclubs to have events geared towards persons under the age of 21.

The City filed litigation against Peacock Relocation Systems for violation of its Special Use Permit and because the business had debt due and owing the City. Peacock ceased storing vehicles on an unpaid service and without the proper zoning approval and paid a portion of its debt, however, the business closed in September 2011.

The City also filed litigation against Earth Care Inc. in an attempt to collect monies owed; the City and Earth Care Inc. entered into a Settlement Agreement whereby the City recovered all of its attorney's fees, its outstanding engineering fees as well as a \$10,000 fine.

In May, the City filed complaints against Ms. Connee Heinz, who lives at 224 E. National Street and also owns 727 Wendall Avenue (it has been vacant for over two years. While Ms. Heinz owes the City a decent sum of money in adjudication judgments (and the unpaid water bill at 727 Wendall Avenue), the primary purposes of the litigation are to take ownership of the vacant (and dilapidated) 727 Wendall Avenue house and property, and then use the proceeds from sale to pay us back for the unpaid water bill and various unpaid judgments from adjudication and to get the owner's permission to allow the EPA to test for radium on both properties and, if there is contamination, allow for the clean-up (there are only three remaining "no access" properties, and here are two of them).

City of West Chicago

CITY COUNCIL

Description of Major Activities

The City Council is comprised of the elected Mayor and fourteen Aldermen, two from each Ward. The Council makes policy decisions necessary to maintain and enhance the health, safety and welfare of citizens and visitors to West Chicago. These decisions include, but are not limited to the following: matters of annexation; tax impact; budgets; letting of contracts; citizens' and others' concerns; acceptance of subdivision improvements; establishment of and variations in housing, subdivision, building, drainage, zoning and traffic codes; and establishment of license fees and other charges. The City Clerk is also included here, and that position is responsible for taking meeting minutes.

CITY ADMINISTRATOR'S OFFICE

Performance Report on FYE 2011 Major Program Objectives

Staff met its goal of establishing a Twitter account and tweeted over 300 messages to reinforce City news. Due to changing priorities which arose over the course of the year, additional goals were not fully met. Those changing priorities included the marketing of Remembering 9/11: A West Chicago Observance and the DuPage County Honor Flight initiative, plus the creation of a retail promotion and marketing campaign for businesses impacted by ongoing road construction, the promotion of a national shop local campaign (The 3/50 Project), and coordination of a West Chicago segment for ABC-TV's magazine-style show, 190 North.

Preparing a preliminary financing plan for a new municipal complex was delayed until a draft site plan was accepted by the City Council, and the consultant is able to develop a cost estimate. This analysis will likely be done in 2012.

The City Council approved its 2011-2013 Priority List as part of the 2012 Budget, and staff began working on accomplishing those tasks, the results of which are contained throughout this document, by Department and Fund.

All but Chapter 18 of the City Code was reviewed to make sure all references were appropriate and updated as well as to eliminate antiquated language and move improperly placed provisions. Chapter 18 will be amended in conjunction with the meter replacement project.

Much work and time were spent drafting two referenda questions: the elimination of the elected City Treasurer position passed while voters did not allow the City to enact a flat rate real estate transfer tax to ensure all debts due and owing the City were paid prior to a resident moving out of town.

The City completed negotiations with Groot Industries on a new solid waste, recycling and yard collection contract that keeps the City very well positioned in terms of rates. Also, Groot will be providing new 65-gallon recycling carts to all customers, and several issues raised by the Environmental Commission were also addressed.

City of West Chicago

CITY ADMINISTRATOR'S OFFICE *Administration*

Description of Major Activities

The City Administrator and staff direct the administration and execution of policies and goals formulated by the City Council and propose alternative solutions to community problems for City Council consideration. These responsibilities include advising the Council on present and future financial, personnel and program needs, implementing immediate and long-range City priorities, establishing administrative procedures which will assist the City in serving its citizens, preparation of the annual budget, and supervision of City department heads. The office also maintains all records of the City and coordinates the completion of the Freedom of Information Act (FOIA) requests.

FYE 2012 Program Objectives

- (1) Oversee the environmental radiation of the West Washington Street Redevelopment Project site through December 2012.
- (2) Work with the EPA to gain access to the remaining three Tronox-related properties and have the environmental testing completed by June 2012.
- (3) Continue to coordinate and monitor staff's working towards accomplishing the goals, strategies and tactics in the City Council's 2011-2013 Priority List through December 2012.

City of West Chicago

CITY ADMINISTRATOR'S OFFICE Marketing and Communications

Description of Major Activities

All efforts of this program element are directed toward promoting the City by providing strategic and creative guidance to developing and executing marketing/business/communication plans, devising media strategies and maintaining media relations, creating and overseeing graphic designs, producing news releases and other written materials (including City newsletter), editing various publications, assisting in planning and promoting schedules and helping coordinate/marketing special events. It also oversees the content and design elements of the City website and collects and prepares information for uploading. Public relations and community outreach are also within the domain of Marketing and Communications. Overall emphasis is placed on monitoring and maintaining the City's image and brand as a city "where history and progress meet."

FYE 2012 Program Objectives

- (1) Design and develop a refreshed format for Window to West Chicago by December 2012.
- (2) Develop a series of website podcasts related to public services, special events, and government updates by March 2012.
- (3) Launch a mobile website for the City of West Chicago by April 2012.

ADMINISTRATIVE SERVICES DEPARTMENT

Performance Report on FYE 2011 Major Program Objectives

Relative to the slight economic climate and opportunities for return on investments during 2011, the Department revisited the financial planning and strategies of the City by placing emphasis on debt reduction and long-term savings. That analysis resulted in the development of a plan to pay off the entire bond issue that had financed the construction of the water treatment plant. By retiring the debt approximately 10.5 years ahead of the scheduled maturity, the taxpayers of the City of West Chicago realized a substantial savings of over \$4.3 million, and significant savings that far exceeded the alternative option of refinancing the debt. By reducing the overall debt of the City with the retirement, its position for an upgrade in bond ratings is a direct benefit as well.

At an operational level, procedural and policy changes were made in the areas of revenue collection and utility billing, which produced immediate benefits in improved timing of revenue collection, the reduction of aged accounts receivable and a decrease in staff time needed to pursue accounts with outstanding balances. Changes, in part, to the administration of utility billing include converting customer name information, and the responsibility for billings, for rental properties from the tenants' name to the property owners' (landlord) name. Additionally, final water bills that have been in arrears were incorporated with the annual billing and inspections for the issuance of rental property licenses, which resulted in the resolution of those accounts and amounts due.

Within the IT Division, a sophisticated Administrative Adjudication System was refined and implemented that incorporates all details of P-tickets, the online status of P-tickets, scheduling of Hearings and the migration of tickets to the Administrative Hearing Docket Screen which allows for online access during each Hearing. The System also provides automated dispositions and calculation of fine amounts at each hearing, calculation of due dates and printing of letters for past due tickets, final notices, Memorandum of Judgments and Liens to be filed.

Upgrades were made to all client based and server GIS software that provided for user access to the most advanced functionality and toolbars available. The GIS databases were also moved to an improved management system that offers users faster access to data, a more stable database environment and the ability for other applications to access GIS data.

City of West Chicago

ADMINISTRATIVE SERVICES DEPARTMENT Human Resources

Description of Major Activities

All human resources activities are administered and coordinated in compliance with applicable Civil Service ordinance and rules, State and Federal requirements, and Equal Employment Opportunity guidelines. Actions regarding employees of the City are reviewed and approved by the Administrative Services Department/Human Resources Division to ensure compliance with requirements and the provision of equitable treatment. The Division provides ongoing assistance to the operating departments and employees in all areas of employment, including recruitment, selection, position classification, salary administration, promotion, performance evaluation, training, benefit administration, discipline, on-the-job injuries, employee concerns and labor relations.

FYE 2012 Program Objectives

- (1) Establish employee benefits intranet link to allow employee access to benefit booklets, policies and provider contact numbers, and provide forms such as change of address, medical, dental and life insurance claim and change of status forms and flex spending. Incorporate a link for forms to be returned for processing by November 2012.
- (2) Prepare and post an online employment application to the City's website that can be electronically submitted, and generate a receipt to the applicant by June 2012.
- (3) Implement strategies to encourage employees to take advantage of wellness programs and related provider savings to establish good health practices to improve employee productivity and reduce workers compensation claims by October 2012.

City of West Chicago

ADMINISTRATIVE SERVICES DEPARTMENT *Accounting*

Description of Major Activities

Activities performed within the Accounting Division include directing, recording and reporting all financial transactions and operations of the City. Technical support is provided to all departments as well as participation in the formulation and execution of the City's financial policies. The Accounting Division includes payroll processing, utility billing, accounting, collections, financial services, accounts payable and coordination of the annual audit of the City's financial records and internal controls. Internal services include the issuance of invoices on behalf of other City departments for items such as health insurance premiums for retirees and COBRA, legal fees, lot cuttings, damage to City property, police security services, fuel purchases, and deeds to cemetery plots.

FYE 2012 Program Objectives

- (1) Complete implementation of Neptune ARB software in conjunction with the water meter replacement program by March 2012.
- (2) Employ a hierarchy of fund balance classifications as outlined within Governmental Accounting Standards Board Statement No. 54 by July 2012.
- (3) Facilitate a transition from bi-monthly to monthly issuance of utility bills for all residents who receive utility services from the City by December 2012.

City of West Chicago

ADMINISTRATIVE SERVICES DEPARTMENT Information Technology

Description of Major Activities

The main purpose of the Information Technology (IT) Division is to provide services that satisfy the City's information needs effectively. As part of the service, it has the authority and responsibility for review, control and improvement in such technology areas as office automation, communications, microcomputers, telephone, video and monitoring devices and network administration. The IT element has the responsibility for a Long-Range Plan that commits to resources and a stable direction for the future. Finally, IT also keeps abreast of state-of-the-art developments in information technology.

FYE 2012 Program Objectives

- (1) Upgrade the wireless connection to the Water Treatment Plant by increasing the data speed from 30 mbps to 100 mbps, which will allow users to access data more quickly while increasing productivity by July 2012.
- (2) Install hardware and software to allow for web video streaming of City Council meetings that will provide for public access and viewing of meetings, a repository of archived meetings, indexing and publication of agenda packets, and transparency to the public by February 2012.
- (3) Increase the City's capacity for data growth, for expansion during the next five years, by upgrading the San storage unit by November 2012, thereby increasing the rate of access to files and applications.

ADMINISTRATIVE SERVICES DEPARTMENT Geographic Information System

Description of Major Activities

The main purpose of the Geographic Information System (GIS) Division is to provide geographic data and technology that will facilitate daily department tasks. In addition to the creation and management of geographic datasets, user training is conducted by the GIS Coordinator to assist City staff with the system. Documentation of existing data, hardware, and software is maintained by the GIS Coordinator and posted to the City website where applicable. The management and implementation of all long-term projects and research and development of future projects is also the responsibility of the GIS Coordinator.

FYE 2012 Program Objectives

- (1) Write Federal Geographic Data Committee (FGDC) standardized Metadata for ten most commonly utilized GIS data layers by March 2012.
- (2) Investigate Python scripting to automate weekly data maintenance procedures where applicable. Scripting will reduce administrative time to manually update edited GIS databases and merge them with production data. Establish scripts by August 2012.
- (3) Update and release version 2.0 interactive map application to include enhanced print and search functions, the ability to generate tabular data reports by queries, additional tools that measure distance and updated orthos and data by September 2012.

ADMINISTRATIVE SERVICES DEPARTMENT Administration

Description of Major Activities

The Administration Division is responsible for the City's central finance and accounting functions, human resources, information technology, GIS and risk management. Duties include providing technical support and assistance to other departments and divisions to facilitate the completion of tasks, as well as participation in the formulation and execution of the City's financial policies. The Division is also responsible for the administration of a cash management and investment program, issuance and monitoring of debt, preparation of the annual tax levies, commuter parking lot administration, annual financial reporting as required by law and the maintenance and upgrades of the City's financial software system.

FYE 2012 Program Objectives

- (1) Update procedures for cemetery lot management and administration in conjunction with renewal of the cemetery sexton professional services agreement, and create an electronic database of plot information and sales by March 2012.
- (2) Compare and review all registered City businesses to the utility billing system to identify potential discrepancies in customer information and utility service connections/billing and update/establish utility services as necessary by October 2012.
- (3) Identify and transition to alternative financial institutions who offer governmental banking, deposit collateralization and diversified cash management, given the declining environment of collateralization services for government customers by September 2012.

POLICE DEPARTMENT

Performance Report on FYE 2011 Major Program Objectives

Staff continues to work with DuPage County and its contractor (APS) on the electronic ticketing system. The ticketing system will cut the time officers spend writing traffic, parking and ordinance citations and streamline the transmittal process.

Staff is working closely with the City's contracted Database Administrator to develop a program to manage the Administrative Adjudication System. Once fully implemented, all local ordinance citations, including non-moving traffic violations, will be adjudicated through the Administrative Adjudication System.

A Strategic Plan for the Police Department has been developed with the assistance of Department members and our residents. The plan is a dynamic document that will be updated and revised annually.

Staff continues to work with ESDA to obtain Storm Ready Certification. Storm Ready is a program designed by the National Weather Service to help communities better prepare for and mitigate effects of extreme weather-related events.

ESDA members are working with the Training and Standards committee to develop the Emergency Management Coordinators Association of DuPage (EMCAD) standards. A draft of the standards has been submitted for approval, which should be obtained by fall of 2012.

The mobile EOC Trailer is operational and has been used on a number of occasions during 2011.

The Police Department continues its commitment to the youth in the community by providing diversionary programming such as the Open Gym Program. Pioneer School was added as an Open Gym Program site. By adding the Pioneer School site, we have increased youth participation from 100 weekly attendees to 160 weekly attendees.

In 2012, the Department will merge the Youth Services component with the Grants component of the budget. This was made possible by a grant secured by School District 33 to provide full-time youth services at Pioneer School. A smaller grant has also been secured by District 33 to pay for the Open Gym Program Coordinator position.

City of West Chicago

POLICE DEPARTMENT Operations

Description of Major Activities

Police Operations encompasses the Patrol Division and specialty units carrying out law enforcement functions, as well as property control, Community Service Officers (CSO) and Social Services. Within Operations, the Patrol Division is responsible for responding to calls for service, conducting proactive/ preventive patrols and traffic monitoring and enforcement. The Detective Unit is responsible for conducting criminal and internal investigations, the Street Operations Units is responsible for carrying out tactical vice and gang related operations. The property custodian is responsible for the safekeeping of all items of evidentiary value. CSOs' are responsible for completing quasi-criminal reports as well as enforcing ordinance and parking violations. The Social Service Unit provides consultation, referral services and crisis intervention. This Unit also coordinates the Neighborhood Resource Centers.

FYE 2012 Program Objectives

- (1) Revamp the Traffic Program by providing the officers assigned to the Traffic Safety Unit with clearly defined objectives and increasing the Unit's operational size by December 2012.
- (2) Complete the reorganization of the department by streamlining the supervisory chain of command in the Investigations Division by December 2012.
- (3) Transition from CALEA to Lexipol by June 2013.

City of West Chicago

POLICE DEPARTMENT Emergency Services and Disaster Agency (ESDA)

Description of Major Activities

In accordance with the Illinois Emergency Management Act of January 1992, the West Chicago Emergency Services and Disaster Agency (ESDA) exists to prevent, minimize, repair, and alleviate injury or damage resulting from disaster caused by enemy attack, sabotage, or other hostile action, or from natural or man-made disasters. Its primary function continues to be one of support/relief for the West Chicago Police Department. Typically ESDA provides assistance at major traffic accidents, protects evidence at crime scenes, and protects the public and property in the event of weather-related damage.

ESDA volunteers are trained to spot potentially hazardous weather, which may affect the City or western DuPage County. It is part of a multi-county network of weather spotters, providing first-hand information to the DuPage County Office of Emergency Management. This information is used for countywide severe weather alerts, and is passed on to the National Weather Service. Storm spotting also enables ESDA to provide warnings of potentially dangerous weather conditions to the residents of West Chicago. All members of ESDA are required to maintain certification as Severe Weather Spotters.

Since 1991, ESDA has maintained an Outdoor Warning Siren System to warn residents of approaching tornados, major emergencies, or the possible threat of an attack on the United States. The current siren system contains seven sirens. With the new telemetry system in place, all sirens are "growl tested" weekly. Sirens are fully tested by DuComm on the first Tuesday of each month. The full test consists of a three-minute steady tone. The growl test activates each siren for approximately one second, and is used to verify that all key components in the siren system are operational.

FYE 2012 Program Objectives

- (1) Complete Storm Ready certification requirements from the National Weather Service by May 2012.
- (2) Develop and implement training standards based on the Emergency Management Coordinators Association of DuPage (EMCAD) recommendations and model standards by October 2012.
- (3) Complete repairs/upgrades to equipment and vehicles for ESDA vehicles by September 2012.

POLICE DEPARTMENT Grants

Description of Major Activities

The West Chicago Police Department applies for a number of grants each year. Those grants pay for personnel costs associated with the grant (salary and benefits) and/or they can pay for new equipment for social services and patrol operations. Social grants covered are: Teen Reach, WE-GO, and Community Development Block Grant (CDBG). Patrol operations covers: traffic related initiatives (speeding autos, Impaired Drivers, Roadside Safety Checks), soft body armor, Tobacco Enforcement. Revenue for each of these grants fluctuates annually. Expenditures reflected in the expense summary are based on probable revenue, not guaranteed revenue each year.

FYE 2012 Program Objectives

- (1) Successfully meet requirements for 21st Century Grant (After School Program) at Pioneer School by August 2012
- (2) Successfully meet requirements for Open Gym Coordinator Grant by December 2012
- (3) Submit grants for traffic and social service and research opportunities for new grants by April 2012.

PUBLIC WORKS DEPARTMENT

Performance Report on FYE 2011 Major Program Objectives

Engineering Division staff was busy in 2011 with close-out of FY2010 construction projects, Galena Street Reconstruction, Washington Street Concrete Rehabilitation, South Aurora Street Relocation, Main Street & Turner Court Rehabilitation, and the FY2011 Proactive Street Improvement (resurfacing) Program. Design services were performed and completed for the Great Western Bike Path Project and the Wilson/Joliet Culvert Replacement Project; construction is scheduled for FY2012. The balance of staff's time was spent on preparation and administration of many of the City's other annual capital improvement replacement projects including Crack Sealing Program and Sidewalk Replacement Program, and working with the CN Railroad to develop a quiet zone corridor through West Chicago. In addition, staff applied for Surface Transportation Program (STP) grant monies through the DuPage Mayors and Managers Conference (DMMC), for Community Development Block Grant (CDBG) monies through the DuPage County Community Development Commission, and grant monies through the Illinois Department of Commerce and Economic Opportunity (DCEO).

The Facility Management Division inspected, serviced, and maintained all municipal building HVAC systems, all City street lights, and all City-owned properties. As time permits, staff continues to research alternate inventory and maintenance computer software products for both fleet maintenance and facility management. Architectural services were procured and bids were obtained for replacement of the roof at the Police Department; however, due to insufficient funds being budgeted in FY2011, construction was deferred to FY2012. Planned construction activities at City Hall were postponed until FY2012 due to construction along Main Street in front of City Hall and other project priorities.

Forestry program objectives focused on the management of the Emerald Ash Borer (EAB). The first year of a City-wide seven (7) year Ash tree EAB insecticidal treatment program was completed in July. Contractual brush pick-up was satisfactorily completed in November, the final year of a three (3) year contract using Kramer Tree Specialists. Mowing and maintenance of areas within and adjacent to Sesquicentennial Park, Helen Fox Community Center, Main Street and Turner Court completed contractually in FY2011. Proposals were obtained for sign inventory services, however due to FHWA changing the compliance deadline date, this objective was moved to FY2012. Wilson Street Bridge was inspected in FY2011 and a comprehensive bridge maintenance program was outlined. Repairs will be programmed for FY2012.

Cemetery and Motor Fuel Tax Program objectives were also substantially completed.

Objectives outlined in Public Works Administration, which requires engineering design and construction by Tronox/Weston Solutions, were not completed. These objectives will become priorities in FY2012.

City of West Chicago

PUBLIC WORKS DEPARTMENT ENGINEERING

Description of Major Activities

The responsibilities of the City's engineering staff include, but are not limited to: maintenance of existing City infrastructure; plan review and approval; site inspections and project acceptance for all privately initiated construction improvements; manage several capital improvement projects, performing resident engineer duties as required; administer various consulting, engineering and geotechnical contracts; manage contract bids and conduct contract payouts; performing field surveys related to public improvements; address and resolve citizens' complaints relating to the field of public works and civil engineering; furnish engineering services for other departments, as required; and attend meetings with other governmental agencies, technical personnel, citizens, and developers on behalf of the City, as necessary.

FYE 2012 Program Objectives

- (1) Research available alternative funding sources for roadway and capital improvement projects and submit appropriate applications for funding by November 2012.
- (2) Re-evaluate and update five (5) year street improvement program priority list and present to Infrastructure Committee for concurrence by October 2012.
- (3) Accept the public improvements associated with Franciscan Court Supportive Living (1996 Franciscan Way), St. Andrews Estates Subdivision, Pioneer Prairie Subdivision, Prairie Meadows Subdivision, Pioneer Park Improvements, Shoppes of West Chicago (191 W. North Ave.), Gateway Center 1 & 2 (515 & 540 Main St.), Ball Seed (622 Town Road), and Johnny Glen Williams Subdivision.

PUBLIC WORKS DEPARTMENT MUNICIPAL PROPERTIES

Description of Major Activities

The maintenance of all City facilities is performed under the direction of the Public Works Department. The employees' main responsibilities are the daily upkeep and repair of City Hall, Museum, Police Station, Fleet Maintenance Garage, Water Treatment Plant, Utility Facilities, and the Streets Facility. Buildings and grounds maintenance includes limited painting, light electrical and plumbing repairs, replacement of worn-out parts and other general construction, repair and maintenance work. Major maintenance and repair work is performed by independent contractors, as is the janitorial cleaning of the municipal buildings.

FYE 2012 Program Objectives

- (1) Replace roof at Police Department by December 2012.
- (2) Replace irrigation system, identification sign, and landscaping at City Hall by October 2012.
- (3) Replace rear entry doors at City Hall by September 2012.
- (4) Improve facility air quality at Maintenance Garage by implementing new exhaust system and improving ventilation by November 2012.

PUBLIC WORKS DEPARTMENT *Administration*

Description of Major Activities

General public works department overhead expenses are charged to this program, in addition to the solid waste subsidy approved by the City Council in 2006. In 2009, the Kerr McGee oversight expenses were added to this program.

FYE 2012 Program Objectives

- (1) Work with Weston Solutions, Inc. to finalize engineering design plans for the south Factory Site stormwater management facility, by December 2012, to facilitate construction during FY2013.
- (2) Work with Weston Solutions, Inc. to finalize engineering design plans for the reconstruction of Factory Street, between the parking lot and Ann Street, by May 2012, to facilitate construction during FY2013.
- (3) Work with Weston Solutions, Inc. to finalize engineering design plans for the reconstruction of Weyrauch Street, south of Brown Street, by December 2012, to facilitate construction during FY2013.

City of West Chicago

PUBLIC WORKS DEPARTMENT FORESTRY

Description of Major Activities

The three services included in this program are: brush collection, emergency tree removals/trimming from storm damage, and hornet nest removals. Each of these programs is handled by an independent contractor and administered by various staff in the Streets Division. The system of removing brush with a mechanized loader and chipping the brush at the contractor's site has resulted in faster brush removal. Completion time is typically less than one week, with no chipping debris left on the streets. The contractual Brush Collection Program is administered over a seven month period (May thru November), with brush collection commencing the first full week of each month.

FYE 2012 Program Objectives

- (1) Monitor parkway Ash Trees for continued signs of Emerald Ash Borer infestation, maintain accurate records, update inventory, and update members of the Infrastructure Committee on success of FY2011 insecticidal treatment program by August 2012.
- (2) Complete removals of all EAB infested Ash Trees, not being treated with insecticide, by June 2012.
- (3) Complete second year of EAB insecticidal treatment program by June 2012.

PUBLIC WORKS DEPARTMENT CEMETERIES

Description of Major Activities

The Public Works Department administers and oversees the activities of the two City-owned cemeteries (Glen Oak and Oakwood) that includes the sale of grave sites, interments, ground maintenance activities, records and reports through an independent contractor performing the duties of Cemetery Sexton.

FYE 2012 Program Objectives

- (1) Restore road edges and damaged areas of turf caused by plowing operations, grade and add gravel to Oakwood Cemetery prior to August 2012.
- (2) Inspect and repair any damaged grave markers by December 2012.
- (3) Seal coat roads in Glen Oak Cemetery by August 2012.

PUBLIC WORKS DEPARTMENT ROAD & BRIDGE

Description of Major Activities

Street Division activities not listed elsewhere as their own program are included in the Road and Bridge Program. Examples of these activities include: sign work, mowing, parkway cleanup, tree trimming/removals, sidewalk repairs, parkway restorations and landscaping, alley work, shoulder gravel, special events, and most service requests.

FYE 2012 Program Objectives

- (1) Reconstruct parking lot at the Street Division, 135 W. Grandlake Boulevard, by September 2012.
- (2) Procure services to inspect, assess, inventory, and log all parkway signs throughout the City for compliance with 2009 MUTCD and FHWA mandated signage upgrade requirements by November 2012.
- (3) Procure construction services for a comprehensive bridge maintenance program on the A. Eugene Rennels (Wilson Street) Bridge by September 2012.

PUBLIC WORKS DEPARTMENT MAINTENANCE GARAGE

Description of Major Activities

The mission of the municipal garage is to institute and continuously improve its preventative maintenance program which minimizes the occurrence of costly emergency vehicle, truck and equipment breakdowns, and prevents prolonged fleet downtime, thereby maintaining the timely delivery of municipal services to City residents. User departments are considered consumers of fleet maintenance services and charged a user fee based on their historical usage pattern to fund capital equipment purchases, depreciation expenses and general overhead (see Capital Equipment Replacement Fund).

FYE 2012 Program Objectives

- (1) Inspect and assess condition of each vehicle and equipment within municipal fleet and update Capital Equipment Replacement Schedule by November 2012.
- (2) Complete all required safety lane inspections by December 2012.
- (3) During off seasons (i.e., winter for mowing and forestry equipment, summer for snow plowing equipment), inspect all equipment, including small engine equipment, and complete needed repairs prior to start of 2012 seasonal needs (i.e., prior to May 2012 for mowing and forestry equipment, and prior to November 2012 for snow plowing equipment).

PUBLIC WORKS DEPARTMENT MOTOR FUEL TAX

Description of Major Activities

Right-of-way maintenance operations not listed elsewhere as their own program are included in the Motor Fuel Tax Program. Examples of these activities include: snow plowing, street sweeping, pavement patching, storm sewer maintenance, street light and traffic signal maintenance, and street striping.

FYE 2012 Program Objectives

- (1) Develop a street sweeping schedule, by May 2012, for 200 working days (all but two months of operation) to ensure that "x" number of miles are swept each day, and track progress, compliance, and effectiveness through December 2012.
- (2) Continue storm structure and sewer line cleaning as part of a seven-year cleaning cycle, tracking progress, compliance and effectiveness through December 2012.
- (3) Track and record all pothole patching operations, documenting locations, dates patched, material used, personnel, manhours, and equipment through December 2012.

COMMUNITY DEVELOPMENT DEPARTMENT

Performance Report on FYE 2011 Major Program Objectives

Business attraction and retention continued to be a high priority for the department. Staff contacted a minimum of three local businesses each month to determine if they had any issues with their location or municipal operations, and found that a vast majority of businesses were satisfied with their current location. Staff also worked with area brokers to pursue new business locations in West Chicago.

Although the economic downturn has slowed development, staff had over 70 meetings with developers interested in new construction. In addition, staff reviewed and inspected several substantial projects including expansions at the Middle School, Subco Packaging, DuPage Crematorium, and Ball Horticultural; and new construction at Educare.

Staff spent significant time improving the City's ability to attract new development as the economy improves. Working with a consultant, staff reviewed the traffic study and submitted plans to IDOT for a signal at North Avenue and the St. Andrews Square entrance. Staff prepared applications for right-of-way vacations, deviations and minor subdivisions. The letter of credit policy, procedures and guidelines were also revised. Staff met with representatives from the DuPage Airport Authority (DAA) and Fire District to address their issues prior to presenting the 2009 building codes with local amendments to City Council for adoption. The adopted codes address fire related requirements that were a concern to developers and the DAA and keep the City up to date with current construction standards. Staff worked with the DAA on an amendment to the Intergovernmental Agreement, the airport zoning regulations and the review process to assist in attracting new users to the DuPage Business Park. The zoning code was amended to increase allowable signs in the downtown and limit the amount of window coverage to improve the appearance of existing storefronts. As a member of the DuPage Mayors and Managers Review Committee, staff provided input on the DuPage County revisions to the Stormwater Management Ordinance.

Improving the health and safety of West Chicago residents and the appearance of the City continued to be a priority in the department, as staff continued to aggressively pursue property maintenance and zoning code violations. Staff worked with the Police Department to include crime free housing requirements in the rental license regulations, and updated the policy and procedure manual for citations and administrative adjudication. The high weed regulations were not revised to reduce the notification requirements but staff aggressively pursued violations. Outstanding wetland violations were addressed with several property owners including Kipling, Conte, Deutsch, Sunnyside Landscaping and Hogan.

Staff introduced a historical blog on the City's website to share local history with the public, expanded the railroad exhibit by offering several new programs, provided programs to local schools and worked with a high school CAD class to prepare drawings of our depots. Historic Preservation Awards were given to recognize local preservation efforts. The museum off-site storage organization has not been completed due to time constraints but the 2010 and 2011 museums donations have been processed.

City of West Chicago

COMMUNITY DEVELOPMENT DEPARTMENT *Planning, Engineering & Economic Development*

Description of Major Activities

This Program is responsible for development within the City of West Chicago, and includes business attraction and retention, short and long range planning, historic preservation, and engineering. As part of this program, staff also recommends revisions to the comprehensive plan, zoning and subdivision regulations, and the city code to help improve the quality of development within the City and stay competitive with other communities by improving standards and clarifying the process. Staff guides developers through the review process by conducting weekly development review meetings, explaining code requirements, reviewing plan submittals and proactively contacting developers to discuss issues that may arise.

FYE 2012 Program Objectives

- (1) Promote business attraction by contacting a minimum of three businesses each month to determine if there is any interest in locating in West Chicago through December 2012.
- (2) Conduct monthly business retention visits through December 2012.
- (3) Propose revisions to the City Code to address minimum slope requirements and other issues related to stormwater management by April 2012.

City of West Chicago

COMMUNITY DEVELOPMENT DEPARTMENT *Building & Code Enforcement*

Description of Major Activities

The Building and Code Enforcement Program includes reviewing all building permit applications; conducting building, change of occupancy, overcrowding and rental inspections; investigating code violation complaints and proactively pursuing property maintenance violations by conducting routine inspections throughout the community. The code enforcement function includes issuing correction notices, inspecting for compliance, issuing "P" tickets for minor offenses, issuing Notice to Appear citations into the City's Administrative Adjudication process for more severe cases and tracking the status of all violations, citations, liens and fines. Staff also tracks temporary occupancy permits, letters of intent, letters of credit and stormwater deposits to ensure that construction is completed. Staff also proposes local amendments to the adopted national codes to improve the safety, image and appearance of the community.

FYE 2012 Program Objectives

- (1) Update the policy and procedure manual related to change of occupancy inspections by April 2012.
- (2) Develop investigation and compliance techniques for illegal boarding houses by May 2012.
- (3) Update the policy and procedure manual related to temporary occupancies and deposits by February 2012.

City of West Chicago

COMMUNITY DEVELOPMENT DEPARTMENT *Museum*

Description of Major Activities

The Museum functions as an educational facility as well as a cultural resource center for the community by promoting the City and its rich history through a variety of outreach programs, changing exhibits, tours, publications and special events. These opportunities are designed for a wide range of audiences. The Museum also collects, stores and conserves two- and three-dimensional artifacts representing the collective history of this community and its residents. It maintains extensive local history research files and reference library for use by the community. The activities of the Historical Preservation Commission and the Cultural Arts Commission are also included under this program.

FYE 2012 Program Objectives

- (1) Complete Collection Inventory Project by December 2012.
- (2) Complete processing all 2008 and 2012 donations by December 2012.
- (3) Install new 1st floor exhibit and schedule related programming by May 2012.

CAPITAL EQUIPMENT REPLACEMENT FUND

Performance Report on FYE 2011 Major Program Objectives

No vehicles were purchased in FY2011; however, the City did purchase a used 50HP tow behind stump grinder from Vermeer. In addition, to improve performance and extend its useful life, substantial repairs were made to the 1999 Tymco Street Sweeper. The Tymco Street Sweeper is used to support the 2009 Elgin Street Sweeper as needed, especially during the fall for leaf collection.

An updated ten-year vehicle and equipment purchase plan was developed during the year. All vehicles were identified and evaluated as to current condition and useful life expectancy. The ten-year plan receives annual scrutiny so that the City can more closely schedule major vehicle replacements in relation to available resources.

City of West Chicago

CAPITAL EQUIPMENT REPLACEMENT FUND

Description of Major Activities

These elements provide for the scheduled replacement of existing vehicles and equipment for all City departments. Funds for the replacement come from annual depreciation contributions charged to the department to which the vehicle or equipment is assigned.

FYE 2012 Program Objectives

- (1) Dispose of surplus vehicles and equipment through sale, trade or auction by December 2012.
- (2) Update the ten-year vehicle and equipment purchase plan by November 2012.

Performance Report on FYE 2011 Major Program Objectives

The Wastewater Treatment Plant (WWTP) treated a total of 2.31 billion gallons (a monthly average of 6.34 MGD) in 2010 with nearly 2.19 billion gallons (a monthly average of 5.99 MGD) estimated for FY 2011. Five excursions of the City's National Pollutant Discharge Elimination System (NPDES) permit were reported in 2010 with one permit excursion estimated for FY 2011. As a result of the Pre-Treatment Program, the City issued 11 industrial user violation notices in 2010 with six violation notices estimated for FY 2011.

In September 2011, OMI conducted its annual Risk-Based Condition Assessment of all processes at the WWTP. After re-rating each process, OMI re-evaluated and revised its long term capital improvement plan which will be used to replace/upgrade critical operational equipment at the WWTP over the next ten years. The City's Sewer Use Ordinance, Chapter 18 of the City Code, has been reviewed and evaluated; Code amendments are being compiled and will be presented to the City Council for consideration in 2012. The in-house odor-monitoring program continued in 2011 with no significant conclusions being made as to the cause of odor; the program will continue through 2012.

The third anaerobic digester was not cleaned in 2011 as needed repairs/upgrades to the anaerobic digester #2 were not completed. Anaerobic digester #2 was thoroughly inspected in 2011 and the extent of needed repairs/upgrades was determined to be more extensive than originally anticipated and budgeted. In 2012 repairs/upgrades to anaerobic digester #2 will be completed contractually. Once anaerobic digester #2 is returned to service, staff will procure contractual services for the cleaning and disposal of waste sludge from anaerobic digester #3.

The roof on the chlorination building was replaced at the WWTP, five tertiary sand filters were rebuilt, the primary effluent troughs were replaced, and the comminutors at both the WWTP and the Winfield Lift Station were replaced with raking bar screens. Competitive pricing to replace the solids dewatering belt press at the WWTP was investigated in 2011; replacement is planned during the first quarter of 2012.

Procurement of engineering design services to install an emergency generator at Lift Station #12, and construction services to perform upgrades to Lift Station #3, were not obtained in 2011 as previously planned. Upgrades to Lift Station #3 will become a priority for 2012.

Inflow and Infiltration (I&I) reduction efforts continued in 2011 and will continue over the next several years. Contractual services for needed I&I repairs/upgrades to areas tributary to Lift Station #1 and #4 were procured in December 2011; construction will commence in the first quarter of 2012. Engineering services to upgrade the SCADA system for all lift stations was also procured in 2011; construction of said upgrades will become a priority in 2012.

City of West Chicago

SPECIAL SERVICE AREA #2

Description of Major Activities

Personnel from the Utility Division are responsible for the operation, maintenance and repair of the pumping facility. The pumps receive preventative maintenance and repairs as needed throughout the year. The station was constructed in 1984, the pumps were overhauled in 1998, and no service interruptions have occurred during the budget period.

FYE 2012 PROGRAM OBJECTIVES

- (1) Clean and inspect the storm sewer and overland drainage conveyance system to the pumping facility weekly during the months of May through November, monthly December through April.
- (2) Perform weekly preventative maintenance operations of the stormwater lift station, including monthly cleaning of stormwater intake and pump station outlet, during 2012.

SEWER FUND Wastewater Treatment

Description of Major Activities

Wastewater treatment facilities operate continuously and thereby demand large amounts of electricity for its hardware. The consultants monitor eight separate processes throughout a treatment day to optimize overall treatment efficiency. Collection, solids separation, sludge wasting, aeration, digestion, sand filtration, chlorination/dechlorination and laboratory sampling and analysis require continuous staff monitoring.

FYE 2012 Program Objectives

- (1) Considering capital improvements completed during FY2012, re-evaluate the ten year Capital Improvement Plan and provide recommendations for changes and/or additions by October 2012.
- (2) Procure contractual services for cleaning and disposal of waste sludge from anaerobic digester #3 by September 2012.
- (3) Present amendments to Chapter 18, Sewer Use Ordinance, of the West Chicago City Code to City Council for consideration by June 2012.

City of West Chicago

SEWER FUND *Sanitary Collection*

Description of Major Activities

The Sanitary Collection program covers all expenditures associated with the routine operation and maintenance of the entire sanitary sewer collection system, the City's fifteen sewer lift stations and sewer lift station force mains. Program personnel provide comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe reliable sewage handling and conveyance system for the businesses and residents of West Chicago.

FYE 2012 Program Objectives

- (1) Procure construction services to replace VFDs and repair broken sluice gate and pump elbows/seats, and appurtenances for Lift Station #3 by July 2012.
- (2) Complete construction of SCADA system upgrades for all sanitary lift stations by October 2012.
- (3) Procure construction services for utility relocations in advance of the Illinois Route 64 widening project by March 2012, completing construction by July 2012.

SEWER FUND Plant Equipment Replacement

Description of Major Activities

The expenditures in this element, funded through set-aside contributions from both West Chicago and Winfield, are for the replacement of existing equipment at the Wastewater Treatment Plant.

FYE 2012 Program Objectives

- (1) Prepare construction specifications, procure construction services, and replace the roofs at the WWTP administration and operations buildings by November 2012.
- (2) Procure construction services to repair the heating and mixing system within anaerobic digester #2 by June 2012.
- (3) Procure construction services to replace the solids dewatering belt press by March 2012.

Ongoing Activity Measures	2010 Actual	2011 Estimated	2012 Proposed	2013 Projected

WATER FUND

Performance Report on FYE 2011 Major Program Objectives

The Division operated and maintained pumping facilities that produced over 1.18 billion gallons of water during the 2010 calendar year with nearly 1.22 billion gallons estimated for FY2011. The Division successfully completed all IEPA and USEPA required sampling and monitoring requirements with no violations.

Final design of Well Station #12 was completed in December 2011 and staff anticipates that construction of the associated well house will begin in the spring of 2012 with Well Station #12 becoming operational by October 2012.

Phase II engineering design services related to utility relocations in advance of the Illinois Route 64 widening project were substantially completed; however, due to permit approval delays from IDOT, final project design and bid documents are not expected to be completed until late December 2011 with project letting scheduled for February 2012. Pending IDOT's approval and permit issuance, construction is scheduled for spring 2012.

Engineering design and construction oversight services for the first elevated tank were secured in December 2010 and design, including hydraulic system modeling to confirm fill and draw operations and appropriate sizing of tank, progressed during 2011; construction of the elevated storage tank #1 will likely begin in 2013.

Engineering design services for the installation of a stand-by generator at Well Stations #3 and #10 were secured in 2010. Engineering services to design a stand-by generator at Well Station #9 was delayed until FY2016.

During 2011, proposals were received and the City selected Water Resources, Inc. of Elgin, Illinois and the Neptune water meter/AMI system as its preferred choice for the City-wide Water Meter Replacement Program. Water meter installations commenced in October 2011, and the program is scheduled to be completed prior to December 2012.

No major operational changes were made to the plant during 2011; however, operational strategies to improve treatment process and balance water storage against demand continue to be made to the treatment processes at the water treatment plant to optimize the process. Staff continues to explore control measures to minimize corrosion in the City's distribution system and investigate methods and means to repaint the vertical pipe gallery.

City of West Chicago

WATER PRODUCTION AND DISTRIBUTION

Description of Major Activities

This program covers all expenditures associated with the routine operation and maintenance of the City's nine wells, two elevated storage tanks, three ground storage tanks, watermain, fire hydrants, valves, water meters, and service connections. Program personnel provide comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe, plentiful and uninterrupted source of water for the businesses and residents of West Chicago.

FYE 2012 Program Objectives

- (1) Complete construction of Well Station #12 by October 2012.
- (2) Procure construction services for utility relocations in advance of the Illinois Route 64 widening project by March 2012, completing construction by July 2012.
- (3) Complete Water Meter Replacement Program by December 2012.

WATER TREATMENT PLANT OPERATIONS

Description of Major Activities

This program covers all expenditures associated with the overall operation and maintenance of the Water Treatment Plant.

FYE 2012 Program Objectives

- (1) Continue to evaluate operational strategies to improve treatment process and balance water storage against demand by December 2012.
- (2) Remove waste lime sludge from lagoons by November 2012.
- (3) Complete native landscape improvements to grounds at Water Treatment Plant to gain stormwater permit compliance from DuPage County.

TREATMENT PLANT DEBT SERVICE

Description of Major Activities

The City issued 21.2 million dollars in alternate revenue bonds to pay for the Water Treatment Plant; this debt was paid off in 2011. The City also secured a \$10 million plus loan from the IEPA. The bonds and note are being paid off through water usage charges.

MIS REPLACEMENT FUND

Performance Report on FYE 2011 Major Program Objectives

As the utilization of the City's information technology system has increased and all user's needs have become more sophisticated, the budget for fiscal year 2011 was developed with a focus given to hardware and software upgrades, expansion of data space and network speed, streamlining the network, including the system's automation, and increasing archival space and related capabilities.

In order to better serve all users and improve access to the City's network and applications, an upgrade to the City's infrastructure was installed during fiscal 2011 to increase the speed for internet access from 1.5 Mbps to a dedicated 20 Mbps fiber channel using metro Ethernet. This upgrade allows all users throughout the City to access information in a faster and more efficient manner.

A second virtual server was added to the network which allowed for the clustering of this new virtual server to the existing virtual server. By clustering the two servers, redundancy has been attained. With redundancy, should any of the City's individual servers fail, the City's users will experience no down time, thereby providing stability in productivity.

With regard to the City's data, all data is maintained and stored at the Police Department, and the available equipment space for archiving all data has become limited as the City continues to increase the automation of operations, processes and data and document storage. For the purpose of increasing the amount of archive space, while also creating a disaster recovery site for data, a tape backup library was installed. The new tape library provides the capability of archiving twelve months of historical data, and will allow the City to retrieve all data should a disaster occur at the Police Department facility.

Four new servers were created and joined to the City's network during the year, which includes a server that provides increased space for the Water Treatment Plant, as it was nearing capacity of the existing server, a server for the city intranet for the purpose of providing functionality and expansion of the parking ticket, citation and adjudication hearing database systems, a server dedicated to the Geographic Information System (GIS) to allow for a complete upgrade of all GIS software, and a server for the report writer, Cognos, due to the upgrade of the version of this financial data report writer.

City of West Chicago

MIS REPLACEMENT FUND

Description of Major Activities

The MIS Replacement Fund accounts for the City's IT hardware and network on a cost-reimbursement basis. Financing is received from primarily all General Fund divisions/programs and by one division/program in the Water Fund and Sewer Fund, respectively. Funding allocations are based on the estimated replacement cost of each division's/program's hardware on a three year replacement cycle.

Performance Report on FYE 2011 Major Program Objectives

The Proactive Street Improvement Program (resurfacing) was completed in 2011 with the resurfacing of Wood Street from the UP Railroad Tracks to Geneva Street and Geneva Street from Wood Street to Joliet Street. The Washington Street Concrete Rehabilitation Project and the Galena Street Reconstruction Project were also completed in 2011.

Stepping closer to the creation of a quiet zone corridor along the CN Railroad, phase II engineering design plans, specifications, and bid documents were finalized for the construction of a concrete raised median at the at-grade crossings of Ann Street and Smith Road. The projects will be bid in February 2012 for spring construction. In addition, the Notice of Intent (NOI) to create a quiet zone was filed with the appropriate agencies.

The South Aurora Relocation Project was completed in 2011. Also necessary for the quiet zone designation, the purpose of the project was to eliminate the South Aurora Street at-grade crossing over the CN Railroad tracks. The project consisted of purchasing and demolishing the single-family residence at 122 Wood Street and construction of a new concrete residential street, west from Wood Street, to allow residents access to their properties via the South Aurora Street Alley.

Phase II engineering design plans, specifications, and bid documents were finalized for the Wilson/Joliet Culvert Replacement Project. The project was bid in September by IDOT and a construction contract was awarded in November 2011. Construction is anticipated to commence in early January 2012. Other engineering and/or architectural design projects that were substantially completed in 2011, and will become construction priorities in 2012, are the Great Western Bike Path Project, the Main Street Tunnel Improvement Project, and the Police Department Roof Replacement Project.

Construction for the Main Street and Turner Court Rehabilitation Project commenced in October 2011. The project consists of the installation of brick paver sidewalks on Main Street, along the frontage of City Hall and for City Hall's main entrance, reconstruction of City Hall's driveway aprons, upgrade of street lights, resurfacing of Main Street from Illinois Route 59 to the A. Eugene Rennels Bridge, and resurfacing of Turner Court. With the exception of the asphalt resurfacing, which could not be completed because the asphalt plants closed early, the project was substantially complete prior to December 2011. Asphalt resurfacing will be completed in spring 2012. Other projects during the fiscal year included completion of the City-wide Sidewalk Replacement Program, Crack Sealing Program, Tree Replacement Program, Forestry Removals and Trimming Program, and the Right-of-Way Maintenance Program.

City of West Chicago

CAPITAL PROJECTS FUND

Description of Major Activities

The Capital Improvement Program covers a period of five years and consists of new construction as well as maintenance and repair to existing infrastructure. The specific projects and the financing program are described in a supplement to this program budget.

FYE 2012 Program Objectives

- (1) Complete 2012 Street Improvement Programs (resurfacing) by November 2012.
- (2) Complete construction of the Wilson/Joliet Culvert Replacement Project by July 2012.
- (3) Complete construction of the Clayton Street Reconstruction Project by November 2012.

Performance Report on FYE 2011 Major Program Objectives

Staff continued its efforts to retain existing businesses and attract new businesses to the Downtown TIF District. Fourteen new businesses moved into the District in 2012, including Mid-City Supper Club, Imprenta Graphics and Color Iris Hair Salon. Staff contacted several businesses about moving into the TIF District, including several restaurants.

Although there were only five facade fund applications, the projects took advantage of larger amounts and the facade fund budget was exhausted. The Fire Protection District, owners of 100 Arbor Avenue and the St. Vincent DePaul Society obtained facade funding. These property owners proactively improved their building facades before they deteriorated.

Due to the current economic conditions, staff did not meet with developers regarding the Central Main Street Study. Additionally, staff was not able to complete the repair and re-landscaping of the two stairways between Turner Court and Main Street because the State of Illinois, due to the lawsuit filed to declare the funding for the capital plan unconstitutional, had not yet prepared all of the required paperwork for City Council consideration for the two grants that will assist with funding this project.

Staff continued to promote visitation to the TIF District and its businesses through Frosty Fest and Blooming Fest. The Mexican Independence Day Festival was cancelled due to poor weather.

Staff spent a significant amount of time working with a consultant on the West Washington Street Redevelopment Project, including reviewing draft concept plans and presentation documents; consulting with DuPage County on special management area issues; and preparing applications for an environmental site assessment and site remediation grants. The planned demolition of 145-147 West Washington Street, 124 Fremont Street, 308-310 High Street and 114 Chicago Avenue were all delayed until 2012 as the asbestos assessments and remediation took longer than expected.

The City acquired 151 West Washington Street on November 3, 2011, and staff intends to release an RFQ by year's end to solicit interest in rehabbing the building.

City of West Chicago

DOWNTOWN TAX INCREMENT FINANCE DISTRICT

Description of Major Activities

TIF District funds are utilized to make improvements within the designated district that will revitalize the area and ultimately result in increased property values and a self-sustaining district. Specific activities conducted to accomplish revitalization include providing and promoting façade grants, creating sub-area plans for specific areas within the district and property assembly. Expenditures for promoting the downtown are also included in the TIF program.

FYE 2012 Program Objectives

- (1) Work with a consultant to complete the West Washington Redevelopment Project concept plan by May 2012.
- (2) If awarded, oversee the environmental assessment and remediation grants through December 2012.
- (3) Meet with developers to discuss the Central Main Street Plan to solicit interest by July 2012.

Performance Report on FYE 2011 Major Program Objectives

The City purchased 308-310 High Street and 145-147 West Washington Street in 2011, and both buildings will be demolished in 2012 due to their interior condition.

Due to the bankruptcy, Tronox did not proceed with the remaining stormwater improvements in the adjacent neighborhood, so these projects will once again be delayed.

A bid package for the wayfinding signage has been created and made available to sign companies; the cost has been included in the 2012 budget.

City of West Chicago

PUBLIC BENEFIT FUND

Description of Major Activities

This Fund holds the money obtained in the settlement with the Kerr McGee Chemical Corporation (now Tronox). In 1998, the West Chicago City Council adopted a policy that provided for only using the accrued interest from this fund, in addition covering the costs for oversight of the Kerr McGee clean up. To date, funding has only been allocated to five projects from this Fund: Sesquicentennial Park (up to \$300,000); monument and wayfinding signage; loan to the TIF Fund for property acquisition; property acquisition and associated expenses for the government campus and along High Street; and storm sewer improvements related to the Kerr McGee project.

FYE 2012 PROGRAM OBJECTIVES

- (1) Award contract and install the wayfinding signage by June 2012.
- (2) Demolish 145-147 West Washington Street and 308-310 High Street by May 2012.
- (3) Award contract and construct gazebo in Reed-Keppler Park by June 2012.

Performance Report on FYE 2011 Major Program Objectives

Staff facilitated an agreement between the property owners within the Oliver Square TIF District and the City regarding construction of two shopping center signs with changeable copy components. The City Council approved the amendment to the PUD to allow the sign construction. The owners have obtained the sign permit and are scheduled to construct the signs in early 2012.

The traffic enforcement agreement was finalized with the owners, which allows police officers to enforce parking requirements within the shopping center. The owners were required to patch sections of the parking lot to comply with minimum code regulations and staff encouraged them to continue to improve the parking lot to improve the center's overall appearance.

Staff continued its efforts to work with the property owner to recruit a new business adjacent to the grocery store tenant. The owner has had interest in the space, but has not yet found a new tenant.

Performance Report on FYE 2011 Major Program Objectives

Landscape maintenance services around the commuter parking lots and METRA station were performed contractually this year. The grounds were maintained weekly from May through November, and included grass mowing, trimming, edging, trash and debris pickup, and weeding. In addition, all planting beds were mulched and all bushes were trimmed.

Exterior upper levels of the METRA station, including window and door trim, were not painted by Facilities Management staff this year, but will become a priority for FY2012.

One additional commuter parking pay station machine was installed in the west parking lot this year.

The City still has not received the final invoice from the landscape contractor (Alaniz Landscaping), so that amount (\$27,000) is carried forward into 2012.

City of West Chicago

COMMUTER PARKING FUND

Description of Major Activities

This program funds the maintenance of both commuter parking lots and the train station. Activities include snow removal, mowing and landscaping, trash removal, janitorial service and maintenance for the building, parking lots, and payment machines.

FYE 2012 Program Objectives

- (1) Paint exterior upper levels of the METRA station by September 2012.
- (2) Paint nose of stairs at METRA station safety yellow, to heighten awareness, by September 2012.
- (3) Evaluate landscape around METRA station and replace deficient areas by November 2012.

AN ORDINANCE ADOPTING THE ANNUAL BUDGET FOR
THE CITY OF WEST CHICAGO, DUPAGE COUNTY, ILLINOIS
FOR THE FISCAL YEAR COMMENCING JANUARY 1, 2012
AND ENDING DECEMBER 31, 2012

DEC 30 2011

By: [Signature]
DuPage County Clerk

WHEREAS, the City of West Chicago has heretofore adopted the annual budget procedure provided for in 65 ILCS 5/8-2-9.1 through 5/8-2-9.10; and,

WHEREAS, the tentative annual budget for fiscal year commencing on January 1, 2012, and ending December 31, 2012, was made conveniently available for public inspection pursuant to notice of public hearing published in the *Daily Herald*, being a newspaper having a general circulation within the City; and,

WHEREAS, on December 19, 2010, the corporate authorities of the City conducted a public hearing on said tentative annual budget.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of West Chicago, Illinois, in regular session assembled as follows:

Section 1. That the annual budget of the City of West Chicago, DuPage County, Illinois, for the fiscal year commencing January 1, 2012, and ending December 31, 2012, entitled "2012 Proposed Budget", a copy of which is attached hereto as Exhibit "A" and by this reference made a part hereof be, and the same is hereby passed and adopted.

Section 2. That the staffing levels and associated pay ranges contained within the budget are hereby approved, such approval shall be deemed to comport with the requirement of adopting the Table of Organization and the Pay Ranges for the City as detailed in the Personnel Manual.

Section 3. That the Mayor is hereby authorized to enter into an agreement with Roger C. Marquardt and Company, Inc. for lobbying services through December 31, 2012 for an amount not to exceed \$36,000, as included in the proposed Budget.

Section 4. That the City Council authorizes the City Administrator and his staff to continue working with CSharpWeb Developers (not to exceed \$125,000) on various databases for the City and Third Millennium Associates Inc. (not to exceed \$50,000) for utility bill mailings, both at the same rates as in 2011 and the maximum amounts as included in the proposed Budget.

Section 5. That the Code of Ordinances of the City of West Chicago is hereby amended to delete Article VI, Section C entitled "Health Insurance for Retirees" and mark it as "Reserved.", as the City Council has directed that this program be eliminated.

Section 6. That the 2011-2013 City Council Priorities approved by the City Council as part of the 2011 Budget is still in effect, as reflected throughout the 2012 Budget.

Section 7. That all ordinances and resolutions, or parts thereof, in conflict with the provisions of this Ordinance are, to the extent of such conflict, expressly repealed.

Section 8. This Ordinance shall be in full force and effect from and after its passage, approval, and publication in pamphlet form as provided by law.

PASSED this 19th day of December 2011.

CERTIFICATE

I, Nancy Smith, Certify that I am the duly elected and acting City Clerk of the City of West Chicago, DuPage County, Illinois.

I further certify that on December 19, 2011 the Corporate Authorities of such municipality passed and approved Ordinance No. 11-O-0067 entitled:

**AN ORDINANCE ADOPTING THE ANNUAL BUDGET FOR
THE CITY OF WEST CHICAGO, DUPAGE COUNTY, ILLINOIS
FOR THE FISCAL YEAR COMMENCING JANUARY 1, 2012
AND ENDING DECEMBER 31, 2012**

Which provided by its terms that it should be published in pamphlet form.

The pamphlet form of Ordinance No. 11-O-0067 including the ordinance and a cover sheet hereof was prepared, and a copy of such ordinance posted in the municipal building, commencing on December 20, 2011 continuing for at least ten days thereafter. Copies of such ordinance were also available for public inspection upon request in the Office of the City Clerk.

Dated at West Chicago, Illinois, this 19th of December 2011.
