**From Item 8A: Ordinance 21-O-0002** – An Ordinance Amending the Code of Ordinances of the City of West Chicago – Appendix A, Articles IV, VI, and IX of the Zoning Code Relating to Short-Term Home Rentals

Alderman Stout made a motion, seconded by Alderman Birch-Ferguson, to adopt Ordinance 21-O-0002. During discussion, Alderman Garling apologized for missing the Development Committee meeting where this was discussed, but he was concerned that this ordinance may have reached too far, (how long they can rent for etc.) and he was concerned with the fairness issue. Condominiums have to go through a special use permit. He would like to see this

evaluated a little more. Alderman Garling made a motion, seconded by Alderman Brown, to table this item and send it back to committee. Voting Aye: Aldermen Brown, Hallett, and Garling. Voting Nay: Aldermen Chassee, Dimas, Short, Jakabcsin, Beifuss, Sheahan, Birch-Ferguson, Stout, and Morano. Motion did not carry.

Discussion continued with Alderman Beifuss wishing to amend the ordinance by having a review in a year to see if any changes should be made. He would prefer to have the ordinance start out stricter and ease up later if need be. It is difficult to try to get stricter later as that would be considered a taking. Alderman Brown said the Ordinance is a bit strict at this point. Alderman Chassee said that in light of a shooting in another community, the City should be on the leading edge to make sure our residents are protected. Alderman Beifuss said he would have no problem seeing what has been done in a year. Aldermen Birch-Ferguson and Jakabcsin would like to see it start strict and review in a year.

City Attorney Bond recommended the Council to give direction to staff to have this placed on the appropriate Committee near the end of the year. Alderman Beifuss agreed and said staff should direct staff to put this one the agenda in a year.

Voting Aye on the ordinance: Aldermen Chassee, Beifuss, Brown, Sheahan Hallett, Dimas, Birch-Ferguson, Garling, Short, Stout, Jakabcsin, and Morano. Voting Nay: 0. Motion carried.

From Item 8G: Resolution 21-R-0014 – A Resolution Authorizing the Mayor to Execute a Contract Agreement with KLM Engineering, Inc. for Professional Engineering Services Related to the 2021 Booster station #4 Ground Storage Tank Rehabilitation Project (for an amount not to exceed \$58,122.00)

Alderman Garling made a motion, seconded by Alderman Dimas, to approve Resolution 21-R-0014. Voting Aye: Alderman Chassee, Beifuss, Brown, Sheahan, Hallett, Dimas, Birch-Ferguson, Garling, Short, Stout, Jakabcsin, and Morano. Motion carried.

## INFRASTRUCTURE COMMITTEE AGENDA ITEM SUMMARY

**ITEM TITLE:**

Waive the Competitive Bidding Process and Authorize the Purchase of Fall Protection Equipment for all Sanitary Sewer Lift Stations from USA Bluebook

**AGENDA ITEM NUMBER:**8A**COMMITTEE AGENDA DATE:** April 1, 2021**COUNCIL AGENDA DATE:** April 5, 2021**STAFF REVIEW:** Robert E. Flatter, P.E., Director of Public Works**SIGNATURE** **APPROVED BY CITY ADMINISTRATOR:** Michael L. Guttman**SIGNATURE** \_\_\_\_\_**ITEM SUMMARY:**

In our continued commitment to staff safety, within the Fiscal Year 2021 Sewer Fund Budget, \$58,500 has been included to purchase and install fall protection equipment at thirteen of the City's sanitary sewer lift stations that currently do not have any fall protection associated with the stations wet well vaults. Fall protection is an assembly of components intended to protect the user against falls from height. In this case providing protection from a fall into a sanitary lift station wet well vault, which is a covered concrete structure or pit where raw sewage flows into and collects prior to being pumped through a sanitary sewer forcemain. The City's various sanitary sewer lift station wet well vaults range between 14 and 40 feet deep.

For staff to perform certain required maintenance tasks at each sanitary sewer lift station, the wet well vault lid/access hatch must remain open. Various maintenance tasks (i.e., cleaning, pulling pumps, replacing floats, etc.) require staff to lean over and/or reach into these wet well vaults. Existing OSHA and Illinois Department of Labor regulations require fall protection be utilized at any height greater than four feet.

After researching available options, staff requests approval to purchase DBI SALA fall arrest systems for all of our lift stations. This fall arrest system includes:

- Body harness for each employee.
- Self-retracting, energy absorbing lifelines.
- Anchor base mounted at each sanitary lift station.
- Anchor post for each sanitary lift station.

The proposed system will allow up to three employees to be secure at one time. City staff are familiar with and trained in the usage of the DBI Sala system as we currently use the equipment at Sanitary Sewer Lift Station #1 (fall protection system installed when the lift station was rehabilitated in 2019).

Pricing was obtained from three vendors with USABlueBook of Gurnee, Illinois, offering the lowest price of \$51,233.36 for all required equipment. Therefore, based on comparable pricing received, City staff is seeking authorization to waive the competitive bidding process and purchase of fall protection equipment for all of the City's sanitary sewer lift stations from USABlueBook, for the amount not to exceed \$51,233.36.

## CITY OF WEST CHICAGO

**ACTIONS PROPOSED:**

Waive the Competitive Bidding Process and that the West Chicago City Council authorize the purchase of Fall Protection Equipment for all of the City Sanitary Sewer Lift Stations from USABlueBook, for an amount not to exceed \$51,233.36.

**COMMITTEE RECOMMENDATION:**

Pending recommendation from the Infrastructure Committee at its meeting on April 1, 2021.

### INFRASTRUCTURE COMMITTEE AGENDA ITEM SUMMARY

**ITEM TITLE:**

Resolution No. 21-R-0022 - Contract Award – Trotter and Associates, Inc. for Engineering Design Services Related to the Booster Station #8 Rehabilitation Project

**AGENDA ITEM NUMBER:** 8B

**COMMITTEE AGENDA DATE:** April 1, 2021  
**COUNCIL AGENDA DATE:** April 5, 2021

**STAFF REVIEW:** Robert E. Flatter, P.E., Director of Public Works

**SIGNATURE** 

**APPROVED BY CITY ADMINISTRATOR:** Michael L. Guttman

**SIGNATURE** \_\_\_\_\_

**ITEM SUMMARY:**

Within the Fiscal Year 2021 Water Fund Budget, money has been included for professional engineering design services related to the Booster Station #8 Rehabilitation Project (construction anticipated in Fiscal Year 2022). Booster Station #8, located at 1255 Helena Drive, is one of the City's two booster stations, with associated ground storage tanks, used to increase available water in the distribution system during peak demand periods, which is accomplished with pumps at the booster station that operate based on water system pressure. As more water is drawn or needed from the water distribution system, the overall system pressure drops. Booster stations are used to maintain system pressure, fill water towers, and provide water to fight fires. The site/property containing Booster Station #8 also contains Well Station #8 and Well Station #9.

Booster Station #8 and Well Station #8 (shallow well) were initially constructed together in 1989. Well Station #9 (deep well) was constructed in 1993. No major improvements have been completed at Booster Station #8 since its original construction. Well Station #8 was rehabilitated in 2020 and Well Station #9 was rehabilitated in 2018. After more than 31 years of service life, improvements are warranted at Booster Station #8; the electrical system and motor control equipment is antiquated and unreliable.

Anticipated improvements associated with the Booster Station #8 Rehabilitation Project (Project) will include, but are not limited to, the following:

- Replacement of three existing 75 HP pumps and associated piping and valves.
- Replacement of existing well control panels.
- Replacement of generator controls.
- Addition of variable frequency drives on the three new 75 HP pumps.
- Replacement of pump starters in the existing motor control cabinet (MCC).
- SCADA improvements to incorporate changes and upgrade Programmable Logic Controller (PLC).
- Electrical system improvements/upgrades as determined necessary.

Please note that the existing on-site 0.5 MG ground storage tank also requires improvements, but will be addressed under a separate Infrastructure Committee agenda write-up.

Trotter and Associates, Inc. (Trotter) of St. Charles, Illinois, has recently completed several projects of this nature and previously performed design work for the City. Therefore, City staff asked Trotter for an engineering design proposal for the proposed project. Engineering design services will include, but not be limited to, coordination with effected agencies (i.e., Illinois Environmental Protection Agency (IEPA)),

## CITY OF WEST CHICAGO

permit applications, development of design plans, development of project specifications, and development of bid documents. Trotter and Associates submitted a cost proposal of \$68,900.

It is staff's recommendation that a contract be awarded to Trotter and Associates, Inc. of St. Charles, Illinois, for engineering design services related to the Booster Station #8 Rehabilitation Project, for an amount not to exceed \$68,900.00.

### **ACTIONS PROPOSED:**

Approve Resolution No. 21-R-0022 authorizing the Mayor to execute a contract with Trotter and Associates, Inc., in an amount not to exceed \$68,900.00, for engineering design services related to the Booster Station #8 Rehabilitation Project.

### **COMMITTEE RECOMMENDATION:**

Pending recommendation from the Infrastructure Committee at its meeting on April 1, 2021.

Within the Fiscal Year 2021 Water Fund Budget, money has been included for professional engineering design services related to the rehabilitation of the 500,000 gallon ground storage tank associated with Booster Station #8, located at located at 1255 Helena Drive. Construction associated with the Booster Station #8 Ground Storage Tank Rehabilitation Project is anticipated to commence in spring of Fiscal Year 2022.

Booster Station #8, its associated ground storage tank, and Well Station #8 (shallow well) were initially constructed together in 1989. No major improvements have been completed at Booster Station #8 or the associated ground storage tank since its original construction. In 2020, the City hired KLM Engineering, Inc. (KLM) of Woodbury, Minnesota, to evaluate the condition of the Booster Station #8 ground storage tank, and draft an inspection report. KLM's inspection report (attached) identified that after more than 31 years of service life, rehabilitation of the structure is required.

Required improvements include, but are not limited to, the following:

- Sandblasting and repaint of the tank's exterior.
- Removal of obsolete equipment from the interior of the tank (i.e., Cathodic Protection System, brackets, conduits, junction boxes, etc.).
- Seam weld and repair interior joints, seams, and supports.
- Sandblast and repaint the tank's interior.
- Installation of a mixing system inside the tank to improve water quality.
- Installation of OSHA approved safety features.

Estimate cost of required improvements range between \$330,000.00 and \$355,000.00. Competitive bids will be sought for construction once engineering design plans, specifications, and bid documents are finalized.

Being most familiar with the condition of the storage tank and repairs needed, City staff asked KLM for a proposal to provide professional engineering design services related to the Booster Station #8 Ground Storage Tank Rehabilitation Project. Services will include, but not be limited to, development of design plans, development of project specifications, development of bid documents, providing assistance during the bidding process, and construction oversight services. KLM submitted a cost proposal of \$56,344.00.

Therefore, it is staff's recommendation that a contract be awarded to KLM Engineering, Inc. of

Resolution No. 21-R-0024 - Contract Award – The FLOLO Corporation for Professional Services Related to the Rehabilitation of Three Water Treatment Plant High Service Pump Motors

**ITEM SUMMARY:**

Similar to pumps at a Booster Station, the City's Water Treatment Plant utilizes up to three high service pumps to transfer treated water from ground storage tanks at the Water Treatment Plant into the City's water distribution system for consumption. These high service pumps are driven by specialized 200 HP motors. The existing motors are original and have been in service since January 2005, when the Plant came on-line.

In January 2021, the motor for high service pump #1 began to exhibit symptoms of bearing wear. City staff hired The FLOLO Corporation (FLOLO) of West Chicago, Illinois, to examine the motor and it was determined that the motor needed to be rehabilitated. An analysis of the remaining two motors indicated that they also had symptoms of bearing wear. It was determined that all three motors were in need of rehabilitation.

To allow for each motor to be removed from service, rehabbed, and reinstalled; one new motor was purchased for \$13,910.00 and installed onto High Service Pump #1. Competitive pricing was obtained for the new motor prior to purchase and FLOLO provided the lowest cost. Following the installation of the newly acquired motor, the original motor was then transported to FLOLO's shop for further evaluation. Staff determined that the best course of action would be to have all three original motors rehabilitated, which would result in one of the motors ultimately being retained as a spare, should it be needed in the future.

As the high service pumps and motors are critical to the operation of the City's Water Treatment Plant, and given FLOLO's solid understanding of anticipated needed repairs provided by its evaluation of the first motor, staff recommends the waiver of the competitive bidding process and the award of a contract to The FLOLO Corporation of West Chicago, Illinois, for the removal, rehabilitation, and reinstallation of three high service pump motors associated with the City Water Treatment Plant, for an amount not to exceed \$21,995.00. Said cost proposal includes an additional \$2,000.00 to cover any unanticipated additional parts and services, should such be determined necessary upon inspection.

Adequate funds are available in the Water Fund (06-34-48-4430) to cover this expenditure.

Wheaton Academy is requesting permission for a Fireworks Display after its Musical on Saturday, May 29, 2021. The musical will take place outdoors from May 27-29, 2021. Residents in the surrounding neighborhoods will be notified by Wheaton Academy of the date and time of the fireworks display in advance of the event.

The Special Event Permit Application has been reviewed and approved by staff from the Police, Public Works, and Community Development Departments as well as the West Chicago Park District. The West Chicago Fire Protection District did not sign off due to the potential of a large gathering taking place. With the interest of the health and safety of the community and their personnel, they are unable to sign off at this time.

**ACTIONS PROPOSED:**

Due to the West Chicago Fire Protection District not signing off, City Staff does not recommend the fireworks to be approved since the Fire Protection District would need to be in attendance of the event and a Fireworks Permit would need to be secured.

**COMMITTEE RECOMMENDATION:**

At its March 22, 2021 meeting, the members of the Committee unanimously motioned to deny the fireworks display.

## CITY COUNCIL AGENDA ITEM SUMMARY

**ITEM TITLE:**

Acceptance of Meadowview Crossing Right-of-Way

Ordinance No. 21-O-0020

**AGENDA ITEM NUMBER:** 86**FILE NUMBER:** \_\_\_\_\_**COMMITTEE AGENDA DATE:** N/A**COUNCIL AGENDA DATE:** April 5, 2021**STAFF REVIEW:** Tom Dabareiner, AICP**SIGNATURE** **APPROVED BY CITY ADMINISTRATOR:** Michael Guttman**SIGNATURE** \_\_\_\_\_**ITEM SUMMARY:**

A portion of the Meadowview Crossing roadway consisting of approximately 1,220 linear feet between Prince Crossing Road and the Prairie Meadows subdivision is located within a lot owned by the developer of Prairie Meadows subdivision, Windham Deerpoint Joint Venture III. Although intended to be a City owned and maintained roadway, this portion of the road, and the lot it is located in, has not yet been dedicated as right-of-way to the City following the completion of the Prairie Meadows subdivision. The roadway, however, has been used as a public way for vehicular traffic since the development of the subdivision in the mid-1990s and the City has been maintaining this roadway. Nonetheless, the roadway remains within a privately owned lot.

Staff and Windham Deerpoint have discussed conveying this lot to the City as public right-of-way and determined that it is in the best interest of both the owner and the City for this to occur. This conveyance will allow Meadowview Crossing to continue being used as a public way, which serves as an important connection from the subdivision to Prince Crossing Road, and allow the City to continue maintaining it. This conveyance is beneficial to both the residents in the Prairie Meadows subdivision as well as multiple business along this portion of the roadway. Furthermore, this conveyance will allow the City to make utility upgrades and extensions along this portion of the roadway more easily. This will also provide the Cascade Drive-In Theater property to the east the ability to install necessary sanitary infrastructure from the theater property to the City's sanitary sewer in Prairie Meadows.

**ACTION PROPOSED:**

Consideration of accepting the conveyance of Meadowview Crossing right-of-way.
