

2021 Budget

Michael L. Guttman
CITY ADMINISTRATOR

DECEMBER 2020

CITY OF WEST CHICAGO

WHERE HISTORY & PROGRESS MEET

December 4, 2020

Dear Mayor Pineda and Aldermen:

I hereby present to you the 2021 Fiscal Year Budget for the City of West Chicago, in accordance with Section 2-146 of the West Chicago City Code. The Annual Budget serves as a comprehensive financial plan and strategic guide for our organization. It includes a forecast of anticipated revenues for the coming fiscal year, as well as adopted expenditures that will guide the services provided to our customers, the 27,086 residents and 800+ businesses that call West Chicago their home.

The 2021 Annual Budget totals \$45,470,700 which is a decrease of 0.65% as compared to the 2020 Budget, as amended; specifically, the General Fund reflects a decrease of 5.24% as compared to the 2020 Budget, as amended.

Background

The City has a proud history of providing exceptional services to a diverse group of stakeholders. Over the past decade, the diversity of the City has grown and with it, the challenges of meeting the needs and demands of our customers have grown as well. The departments and staff are continuously challenged to address the growth within the City and develop new and innovative ways of delivering the services that our customers expect. Through flexibility, adaptability, the use of technology, innovative staffing methods, and furthering intergovernmental and public/private partnerships, the organization continues to rise to the challenge to become one of the most efficient municipal corporations in the Chicagoland area.

Budget Strategy

This budget marks the seventeenth year of adhering to the City Council's Budget Policy and implementing a strategy that addresses the structural and cyclical budgetary challenges that were and continue to face the City of West Chicago. This strategy includes five major components:

Reduction in Operating Expenditures

To address the structural problem of rising operating costs coupled with stagnant revenues, the City annually undergoes a target budgeting process to manage the organization's expenditure and revenue patterns. Target Budgeting was initiated to instill budget discipline, establish budgetary priorities, control costs and stabilize finances. Target Budgeting is a modification of zero based budgeting in that it accepts the premise that the City provides certain basic services and attempts to "target funds" for the delivery of those services. Beyond these basic levels, services are discretionary and can be evaluated, prioritized and matched against available revenues. Patterns of services can therefore be modified to meet changing needs without disrupting basic services. Target Budgeting assigns a target goal to each fund based upon its expenditure history and projected revenues as identified in September each year. This year's target for the General Fund was one percent of the initial revenue forecast, which translated into a reduction of expenditures

totaling approximately \$200,000. The target goal for the enterprise funds was a two percent reduction. The proposed 2021 Budget meets the target goals.

Meet Reserve Requirements

The City has again met its reserve requirement of 35% for the operating funds as detailed in Resolution No. 02-R-0073.

Identification and Implementation of New Revenues

In 2019, the Finance Committee, and ultimately the City Council, approved a series of tax and fee changes to address the \$2.8 million gap in the General Fund, created mostly by the State's siphoning money traditionally given to local governments and the revenues generated by the Police Department personnel being down about \$300,000 annually. While the latter has improved, the State still is not returning the funds we have relied upon to balance the General Fund Budget. Staff is forecasting a \$2.4 million gap in the General Fund in the out year due to changes in consumer habits as a result of the COVID-19 pandemic. The 2021 draft Budget does contain a 4.9% property tax levy increase to offset the significant increase in police pension costs.

Increased Economic Development Focus

The City's Economic Development Program is designed to increase and diversify the City's sales tax and real estate tax bases, thereby allowing the City to become more self-sufficient, generating revenues from within the City and reducing dependency on outside revenue sources. The importance of our economic development efforts can continue to be realized when looking at our sales tax receipts. Increasing this revenue source has been a primary focus of the organization over the past several years. Mayor Pineda, the Aldermen and staff have devoted a great deal of energy into attracting new sales tax generating businesses, while at the same time, maintaining our existing businesses and helping with their expansion. New business growth is evident for 2021, with Greco building a second building in the DuPage Business Center, and independent living facility at the southeast corner of Routes 59/64, the Renaissance Square Project finally getting started and a number of industrial expansions within the City.

Maintain and Improve City Services

The City has a proud history of providing exceptional services. During the implementation of this five-part budgeting strategy, it is imperative that the residents and businesses not experience a reduction in service levels unless absolutely necessary. In fact, through challenging our employees at every level of the organization, the City has been able to improve upon services during this tough economic climate. With few exceptions, the City has been able to provide excellent service with fewer employees and leaner budgets.

We are successful in achieving all of the parameters in the proposed 2021 Budget. The proposed Budget includes a planned spend down of reserves, consistent with the Finance Committee's direction over the last ten years, to make it a balanced budget.

Significant Highlights – All Funds

Personnel Changes – The City now employs 119 full-time employees and one part-time employee, with a few seasonal positions in the Public Works Department. The proposed Budget proposes no new positions and five positions in the Police Department (four sworn officers and a Community Service Officer) and one in the City Administrator’s Office are not being filled at this time. One of the organization’s Account Clerks retired in October and another provided her year’s notice to do the same; there are two quality candidates to fill the now vacant position, and an attempt will be made to hire both (one temporary overhire) to make for a seamless transition upon the second’s retirement.

Insurance Costs – The City’s general liability/workers’ compensation insurance costs will once again decrease (slightly) in 2021. There is no increase to the premiums for those employees who get their medical insurance via the Operating Engineers Health and Welfare Plan per the new Collective Bargaining Agreement. For the plan year July 2020 through June 2021, the total premium again increased for those employees who participate in the City’s plans through IPBC. Preliminary figures show that the premiums for both the HMO and PPO plans will increase come July 1, 2021; a six percent increase is reflected in the Proposed Budget.

Customer Impact – There are service reductions proposed in the 2021 Budget.

The following table shows the difference in budgeted amounts between 2020 and 2021 for each of the Funds:

Fund	2020 Budget	2021 Budget	Percent Change
General Fund	\$21,006,400	\$19,906,300	-5.24%
Capital Equipment Replacement Fund	\$1,641,300	\$1,415,100	-13.78%
Sewer Fund	\$8,680,600	\$8,757,100	0.88%
Water Fund	\$8,289,200	\$8,293,000	0.05%
Capital Projects Fund	\$4,940,800	\$5,776,700	16.92%
Downtown TIF Fund	\$1,007,700	\$1,019,000	1.12%
Public Benefit Fund	\$0	\$0	-
Oliver Square TIF Fund	\$0	\$0	-
Roosevelt/Fabyan TIF Fund	\$0	\$0	-
Commuter Parking Fund	\$201,000	\$303,500	51.00%
All Funds	\$45,767,000	\$45,470,700	-0.65%

General Fund

The General Fund is the all-purpose governmental fund that includes the operations of the municipality not accounted for in a separate fund. Most of the expenditures for City services are budgeted and accounted for in this Fund, except for water and sewer expenses. There are five key revenue sources, which account for 72.07% of the total General Fund revenues:

Sales and Use Taxes	27.65%
Property Tax	19.83%
Income Tax	14.22%
Electric Use Tax	7.35%
Telecommunications Tax	3.02%

The revenues listed above represent the General Fund's primary growth revenues, which traditionally have paid for annual cost increases. Note that, at one time, the Telecommunications Tax comprised a larger part of the Budget (as much as \$1.3 million), and now it generates about \$575,000 annually.

On the expenditure side, in addition to the increased costs of hardware and software maintenance contracts, service contracts, and dispatch services, among others, the following are some additional changes and highlights within the General Fund:

- City Council – There are no major changes in this Department's budget.
- City Administrator's Office – The remaining cost of the West Washington Street Remediation Project (\$500,000) is budgeted here.
- Administrative Services Department – There are no major changes in this Department's budget.
- Police Department – The amount allocated for police pension is \$3,000,000 this year (\$337,500). Per the direction of the Public Affairs Committee, money has been included to replace the body-worn camera equipment and the infrastructure associated with such.
- Public Works Department – Two projects are worth noting: (1) pavement patching and sealcoating the roadway at the Glen Arbor Cemetery (\$30,000); and (2) purchase of additional lift systems for the fleet maintenance garage (\$40,000).
- Community Development Department – There are no major changes in this Department's General Fund Budget though the balance of the money associated with updating the Comprehensive Plan is included.

Capital Equipment Replacement Fund

This Internal Service Fund draws its revenues from the General, Water and Sewer Funds and the following more expensive pieces of rolling stock are scheduled for replacement in 2021: John Deere loader (\$195,500); two-ton dump truck (\$131,300); and crane (\$144,700).

Sewer Fund

In 2021, significant money is again allocated for the WC/WWA (\$2,870,100)) and \$1,695,000 to engineer and construct improvements to Lift Station #5.

Water Fund

In 2021, there are no major changes to the operational components of the Water Fund. The primary capital project will be the Booster Station #4 Rehabilitation Project (\$800,000) and the SCADA System Upgrade (\$400,000).

Capital Projects Fund

With the one cent home rule sales tax in place to supplement the natural gas use tax monies earmarked for this fund, the 2021 Capital Project Fund Budget includes \$1,942,300 for street resurfacing and \$964,900 for the Thomas Engineering Group. The Infrastructure Committee approved the 2021 Capital Projects Fund at its November meeting.

Downtown TIF Fund

In 2021, the Downtown TIF Fund will continue to repay the local taxing bodies for their support of the TIF extension (\$85,000). Finally, \$250,000 has been included to begin to complete structural repairs to the first floor ceiling, repair the roof as well as masonry work at 200 Main Street. As the City continues to explore re-TIFing the Downtown prior to the expiration date, the salary and benefit costs associated with 1.5 FTE were moved from this Fund to the General Fund.

Public Benefit Fund

There are no expenses forecast for this Fund.

Oliver Square TIF Fund

There are no expenses forecast for this Fund.

Roosevelt-Fabyan TIF Fund

There are no expenses forecast for this Fund.

Commuter Parking Fund

Funds have been allocated to replace the landscaping, repair a retaining wall and complete parking lot repairs (\$100,000).

Closing Remarks

The 2021 Annual Budget and 2021-2025 Capital Improvement Program will serve as a strategic guide for our organization in the coming year. The Annual Budget reflects the service levels expected by our customers, provides dedicated revenues to support our long-term infrastructure and equipment needs, and lives within our financial means. The budget prioritizes core services and administrative functions and reflects one of the leanest and most efficient municipal corporations within the Chicagoland area. West Chicago is diligently striving towards providing the highest quality services at one of the lowest costs. To continue in this tradition, all Departments will be challenged to continually evaluate their work teams and performance as well as benchmark their productivity with comparable communities and outside contractors, where applicable. Our employees continue to be the key to the City's operational and financial success.

The Annual Budget is the outcome of a great deal of hard work, dedication and effort of many people. All of the Department Directors and their staff are to be commended for their continued stewardship of the public dollar and assistance in the development of this document.

The support of Mayor Pineda and the Aldermen during this past year as the City continued with our budget strategy was remarkable. You remained supportive of staff, yet continually challenged us to live up to the old adage of “doing more with less”. I believe this was achieved throughout the organization. Finally, I would like to thank the senior management team for its tremendous assistance with the budgeting process from preparation through implementation.

Sincerely,

A handwritten signature in black ink, appearing to read 'Michael L. Guttman', with a long horizontal flourish extending to the right.

Michael L. Guttman
City Administrator

BUDGET PHILOSOPHY AND POLICY

Serving the public trust requires that the annual budget provide the best possible balance of allocation to meet the varied needs of all citizens. The budget is a principal management tool for the City administration and, in allocating the City's resources, it both reflects and defines the annual work plan. In this context, the budget provides a framework for us to accomplish our mission, which is:

"To assure a safe, cohesive and dynamic community that is responsive to the needs of both citizens and businesses as it strives for continuous improvement."

The budget should also reflect important organization values such as integrity, teamwork, service excellence, personal growth, and innovation.

In addition to balancing allocations to meet community needs and incorporating our mission and values, a successful annual budget preparation process requires excellent communications, citizen outreach, and a commitment to excellence. To this end, the process must be a cooperative effort of the entire City organization.

West Chicago prides itself on being an increasingly progressive community, willing to challenge the status quo and moving toward the "cutting edge". City staff has accepted this challenge by developing the budget within the context of a search for creative solutions for the delivery of City services. The budget will emphasize policy and procedure reviews to improve the productivity and effectiveness of service delivery to citizens and employees. Teamwork and efficiency enhancements will limit the amount of bureaucratic "red tape" required, both between functional areas within the City, and between City staff and our customers. The overriding goals must be to support the high standards set by the community and to provide long-term value at reasonable cost.

The budget will be based upon timely, consistent and clearly articulated policies. It will be realistic and will include adequate resources to meet assigned work programs. Once adopted, within the parameters of policy guidelines, Department Directors will be given full spending authority for their budget(s).

The budget policies of the City are rooted in a history of conservative budgeting practices. They're based on a commitment to provide quality services while maximizing the return for each dollar spent. Revenue sources are diversified as much as possible to avoid the impacts of fluctuations in a particular revenue source. The following is the Budget Policy the City Council has used as a continuing foundation for fiscal discipline:

- Revenues are conservatively projected using historical trends, reasonably expected changes in the coming year, and an analysis of anticipated economic conditions in the region, the state and the nation.

- The General Fund shall have a fund balance equal to at least 25% of revenues; the City should strive to increase this amount to 35%.
- The budget is flexible within each Department. Over expenditures in one line item should be compensated within the Departmental Budget. Each Department may not overspend its total Departmental Budget without prior approval. Department Directors may not exceed the staffing levels approved in the Budget. The City Administrator may authorize transfers within a fund.
- Major capital expenditures not related to either the water or sewer utilities for the next five years will be identified in the Capital Projects Fund Budget. This Budget will be updated on an annual basis. Smaller capital purchases may be included in each Department's operating budget.
- User fees, such as water and sewer charges, will be reviewed annually. This is done to ensure that fees cover costs, if intended to do so, meet debt service requirements, and are affordable.
- Implementation of the Budget will be monitored continuously. Purchase orders will be issued only when adequate funding is available. Based upon experience with higher prices via the bidding process and after receiving direction from the City Council, information technology equipment purchases and maintenance contracts do not have to be bid, so long as multiple written quotes are obtained to show that the price is reasonable.
- All home rule sales tax receipts and taxes from the consumption of natural gas shall be deposited in the Capital Projects Fund.

City of West Chicago

GENERAL FUND PROJECTED REVENUE

CITY COUNCIL

Performance Report on FYE 2020 Major Program Objectives

This year has certainly been an interesting one since March. Managing the organization during the COVID-19 pandemic has consumed a significant amount of upper management time. Creating internal policies, changing the way daily business is conducted and preparing documentation to be reimbursed through the CARES Act via DuPage County are just a smidgen of the tasks on which staff has been working over the course of the year.

After execution of an Intergovernmental Agreement with DuPage County, staff submitted the required documentation to be resubmitted \$1,390,000+ in CARES Act funds for public safety payroll costs, which was a huge help to offset the revenue loss from declining income tax, motor fuel tax, personal property replacement tax and sales tax receipts. City staff did a fantastic job curbing expenses this year, though equipment continues to exceed their useful lives and key staff positions remain unfilled to assist.

The City also received a supplemental CARES Act grant (\$143,200) to assist families facing food insecurity in our community, the Healthy West Chicago initiative and public education about the pandemic. While not finalized, staff is working with operators of local food pantries on how the funds earmarked for food insecurity will be distributed.

City meetings remain virtual, as the number of elected officials and City staff preclude in-person attendance per the Governor's Restore Illinois Plan. City Hall and other public buildings, other than the Police Station, closed to the public late March through late July, until the State moved into Phase 4 of the Plan; as of writing this narrative, it looks like the Governor may issue another Stay At Home Order, which may lead to City Hall being closed entirely to the public again. Daily customer interaction did go smoothly once City buildings opened to the public, though the number of in-person contacts diminished significantly.

Lastly, while not as prominent as in other communities in the Chicagoland region and nationally, the social injustice movements did consume a reasonable amount of our resources in 2020. Between fielding phone calls from residents on both sides of the issue as well as monitoring peaceful protests, these issues will continue to be critical to manage correctly in the future. West Chicago has been a leader in addressing these issues, long before the tragedies that have occurred in Wisconsin, Kentucky and elsewhere. There has been a Social Worker employed by the City since the 1990s, and our Police Department has been accredited for nearly 20 years, ensuring that we have the property policies in place to minimize any adverse actions against any member of the public, regardless of their race, ethnicity, religion, etc.

City of West Chicago

CITY COUNCIL

Description of Major Activities

The City Council is comprised of the elected Mayor and fourteen Aldermen, two from each Ward. The Council makes policy decisions necessary to maintain and enhance the health, safety and welfare of citizens and visitors to West Chicago. These decisions include, but are not limited to the following: matters of annexation; tax impact; budgets; letting of contracts; citizens' and others' concerns; acceptance of subdivision improvements; establishment of and variations in housing, subdivision, building, drainage, zoning and traffic codes; and establishment of license fees and other charges. The City Clerk is also included here, and that position is responsible for taking meeting minutes and maintaining the City's records.

CITY ADMINISTRATOR'S OFFICE

Performance Report on FYE 2020 Major Program Objectives

Work continued on the contamination remediation on the parcels comprising the West Washington Street Redevelopment Project. While Representative Villa was fantastic getting \$600,000 allocated to assist with funding this project, the pandemic and lack of response from our Department of Commerce and Economic Opportunity office has meant the City has had to start this project without those funds. Ironically, the State of Illinois has a requirement that the fuel tanks from gas stations must be removed and the contamination abated within six months of the use being abandoned, which was June 30, 2020 for West Chicago. The building was demolished, tanks removed, contaminated soils removed and the site was restored this year. The remaining contamination on the 119 West Washington Street parcels will occur in 2021.

The fourth year of implementation of the Strategic Plan objectives was slowed due to the state of the economy and the need to slow spending due to the realized and anticipated revenue loss associated with it. Preparation of a draft Economic Development Plan was presented to the City Council in the fall and many of the key marketing and communications objectives moved forward positively.

Supplementing normal activities of the Marketing/Communications Division as outlined in its Program Description, staff moved into crisis communication-mode early in the year resulting from the COVID-19 pandemic. A strategic, rapid response was essential to coordinate and disseminate bi-lingual messaging of the early directives of local, State, and federal health experts. Staff worked with its website partner to develop a dedicated micro-website, the COVID-19 Communications Center, to serve as a repository for this information with curated content from health experts including the Centers for Disease Control, the Illinois Department of Health, and the DuPage County Health Department. Staff created original content in the form of messages from Mayor Pineda, press releases on changing operational procedures and the heroic efforts of the community's front-line workers on a regular basis. Social media became mission critical and consumed hours of staff time spent monitoring, creating, sharing, and posting appropriate messages and graphics, which linked to the primary source information on the website. Weekly or bi-weekly electronic resident newsletters reinforced the messages of the day. While COVID-19 dominated 2020 for this Division, marketing support for virtual special events, Healthy West Chicago initiatives, and cultural arts projects, helped them to flourish.

City of West Chicago

CITY ADMINISTRATOR'S OFFICE Administration

Description of Major Activities

The City Administrator and staff direct the administration and execution of policies and goals formulated by the City Council and propose alternative solutions to community problems for City Council consideration. These responsibilities include advising the Council on present and future financial, personnel and program needs, implementing immediate and long-range City priorities, establishing administrative procedures which will assist the City in serving its citizens, preparation of the annual budget, and supervision of City department heads. The office also maintains all records of the City and coordinates the completion of the Freedom of Information Act (FOIA) requests.

FYE 2021 Program Objectives

- (1) Continue to oversee the implantation of the Strategic Plan through December 2021.
- (2) Remediate the remaining contamination on the West Washington Street Project Site by November 2021.
- (3) Monitor the impacts of the COVID-19 pandemic and make organizational changes as needed to protect the health and safety of our customers and employees through December 2021.

City of West Chicago

CITY ADMINISTRATOR'S OFFICE Marketing and Communications

Description of Major Activities

All efforts of this Program are directed toward promoting the City by providing strategic and creative guidance to developing and executing marketing/communication plans; devising media strategies and maintaining media relations; creating and overseeing graphic designs, producing news releases and other written materials (including City newsletter); programming the City's LED message board and managing the City's social media accounts; marketing Special Events, Healthy West Chicago, and projects of the Cultural Arts Commission; supporting and facilitating communication for inter-departmental initiatives; and managing special projects like America in Bloom. Staff also curates content and design elements of the City website and engages in public relations and community outreach. Overall emphasis is placed on monitoring and maintaining the City's image and brand as a city "*Where History and Progress Meet*".

FYE 2021 Program Objectives

- (1) Create new design and layout for Window to West Chicago by January 2021
- (2) Continue focus on COVID-19 communications through December 2021, if necessary.
- (3) Focus on digital record disposal per State guidelines for website, social media accounts and LED signage through December 2021.

POLICE DEPARTMENT

Performance Report on FYE 2020 Major Program Objectives

The Department had anticipated completing an audit of every piece of property in the Evidence/Property Room by April 1, 2020. However, this has been rescheduled until the first quarter of 2021 for a number of reasons. First, in light of several vacant positions through retirement and resignation, personnel were reassigned in the first quarter of 2020. This resulted in a newly assigned member assuming the duties of Property Custodian. Second, a malware attack in the first quarter of 2020 created since-resolved technical issues that affected inventory management. Finally, staff from a neighboring agency who had been recruited to perform the audit had to cancel. The Department has continued to conduct quarterly and unannounced Property Room inspections throughout the year in compliance with accreditation standards.

Both line officers and supervisors collaborated to create a proposed new evaluation tool for non-exempt, sworn personnel. The goal of this evaluation tool is to provide meaningful and objective rating of employees' work. While the overall rating scores are the same as the existing evaluation tool, the proposed version seeks to minimize subjectivity and increase consistency among supervisors completing the evaluations.

Also in 2020, the Department proposed the purchase of replacement in-car camera systems for our entire fleet of patrol cars (17 in total). The purchase was approved and the new camera systems were installed in July 2020. The replacement system, an AXON product, provides several benefits. For example, all the data from each car is uploaded automatically via a wireless internet connection to a secure, third party cloud storage system. The new in-car camera system utilizes the same platform as the Body Worn Cameras for purposes of labeling, playback and redaction. In addition to incorporating the most up-to-date technological specifications, the new system includes a second camera in each car that records occupants in the rear seat.

In 2020, Department staff enhanced operations pertaining to Property/Evidence by putting into service modern, space-saving shelving, upgrading technology assets and standardizing the platform used to manage all video/audio created by officers.

The Department first began to experience the impact of challenges prompted by COVID-19 in March 2020. We continue to work together to effectively address these challenges as we navigate through these unprecedented times.

City of West Chicago

POLICE DEPARTMENT Operations

Description of Major Activities

Operations is made up of the Support Services and Patrol Divisions. The Support Services Division is responsible for record keeping, and providing Social Services as well as community outreach. In addition, the Support Services Division is also responsible for criminal investigations, proactive criminal investigations, undercover operations, evidence warehousing, school resource/liaison, and crime analysis functions. The Patrol Division is responsible for responding to calls for service, conducting proactive/preventative patrols, traffic education, enforcement and traffic crash investigations, and crime prevention.

FYE 2021 Program Objectives

- (1) Ensure measures are in place to provide continued and effective leadership based on the planned retirement of the current Chief of Police at the end of January 2021.
- (2) Complete an audit of the Property Room by January 2021.
- (3) Integrate data contained in the computer-aided dispatch (CAD) system with the program used to manage Body Worn Camera and in-car camera files to auto-populate common data fields by April 2021.
- (4) Apply for and achieve reaccreditation status for the Department through the Illinois Chiefs of Police Law Enforcement Accreditation Program (ILEAP) by December 2021.

City of West Chicago

POLICE DEPARTMENT Emergency Services and Disaster Agency (ESDA)

Description of Major Activities

In accordance with the Illinois Emergency Management Act of January 1992, the West Chicago Emergency Services and Disaster Agency (ESDA) exists to prevent, minimize, repair, and alleviate injury or damage resulting from disaster caused by enemy attack, sabotage, or other hostile action, or from natural or man-made disasters. Its primary function continues to be one of support/relief for the West Chicago Police Department. Typically, ESDA provides assistance at major traffic accidents, protects evidence at crime scenes, and protects the public and property in the event of weather-related damage.

ESDA volunteers are trained to spot potentially hazardous weather, which may affect the City or western DuPage County. It is part of a multi-county network of weather spotters, providing first-hand information to the DuPage County Office of Emergency Management. This information is used for countywide severe weather alerts, and is passed on to the National Weather Service. Storm spotting also enables ESDA to provide warnings of potentially dangerous weather conditions to the residents of West Chicago. All members of ESDA are required to maintain certification as Severe Weather Spotters.

Since 1991, ESDA has maintained an Outdoor Warning Siren System to warn residents of approaching tornados, major emergencies, or the possible threat of an attack on the United States. The current siren system contains seven sirens. With the new telemetry system in place, all sirens are "growl tested" weekly. Sirens are fully tested by DuComm on the first Tuesday of each month. The full test consists of a three-minute steady tone. The growl test activates each siren for approximately one second, and is used to verify that all key components in the siren system are operational.

FYE 2021 Program Objectives

- (1) License and install an ESDA VHF Repeater by September 2021.
- (2) Obtain Storm Ready Status by October 2021.

PUBLIC WORKS DEPARTMENT

Performance Report on FYE 2020 Major Program Objectives

The City's long-range Capital Improvement Program (CIP) and five-year Street Improvement Program priority list were updated and presented to the Infrastructure Committee in November 2020. The Infrastructure Committee concurred with staff's recommendations and authorized the City Administrator to include the CIP in the 2021 Proposed Budget.

In 2020, engineering consultants and City staff were responsible for completion of the Washington Street Reconstruction Project and the Sidewalk and Curb and Gutter Replacement Program. Staff also completed utility permit reviews and assisted the Community Development Department with private development project inspections. The City's Street Division completed asphalt pavement patching on Ingallton Avenue between Elmwood Avenue and Grandlake Boulevard, Alamance Drive, South Oak Street, and Gates Street. As a direct result of financial uncertainty associated with the COVID-19 Pandemic, street improvement projects to be funded in Fiscal Year 2020 with Motor Fuel Tax dollars that were not in-progress or had not been awarded a contract prior to March 2020 were moved to Fiscal Year 2021.

Facility Management Division staff continued inspecting, servicing, and maintaining all municipal buildings, all City street lights, and all City-owned properties. Bid proposals for Fiscal Year 2021 custodial services for City-owned and maintained facilities were received in October 2020 and a contract was awarded by City Council in November 2020. Truck storage garage doors at 135 W. Grandlake Boulevard were replaced in October 2020 with wider garage doors to allow ingress and egress of snow plow trucks with wing plows. HVAC improvements at City Hall and the Police Station were completed in 2020, along with security improvements at City Hall.

Forestry Program objectives continued to focus on the management of the Emerald Ash Borer (EAB) with soil insecticidal treatments being completed in November 2020. Contractual brush pick-up was completed during 2020 by Kramer Tree Specialists, Inc. Removal of dead, dying, or diseased trees were mostly completed by City staff, with contractually assistance when warranted. The City's annual contractual tree planting and tree trimming and removal programs were also completed in 2020.

Maintenance Garage and Road and Bridge objectives were also substantially completed in 2020. Cemeteries objectives associated with creating a digital map and electronic index of interments, entombments, or inurnments for the two City-owned cemeteries was not completed. This objective will be a priority for 2021.

The City Hall and Police Station parking lots, along with the drive aisles within the Glen Oak Cemetery, were contractually seal coated and restriped in September 2020.

City of West Chicago

PUBLIC WORKS DEPARTMENT Administration

Description of Major Activities

General public works department overhead expenses are charged to this program, in addition to the solid waste subsidy approved by the City Council in 2006. In 2009, the Kerr-McGee oversight expenses were added to this program.

FYE 2021 Program Objectives

- (1) Research available alternative funding sources for roadway and capital improvement projects and submit appropriate applications for funding by November 2021.
- (2) Re-evaluate and update the Capital Improvement Program and five-year Street Improvement Program priority list, and present to the Infrastructure Committee for concurrence in November 2021.
- (3) Accept the public improvements associated with the various private development projects, including, but not limited to, the St. Andrews Estates Subdivision, Pioneer Prairie Subdivision, Prairie Meadows Subdivision, Pioneer Park Improvements, Shoppes of West Chicago (191 W. North Ave.), Gateway Center 1 & 2 (515 & 540 Main St.), Educare (851 Pearl Road), and District 33 Middle School Expansion by December 2021.

PUBLIC WORKS DEPARTMENT MUNICIPAL PROPERTIES

Description of Major Activities

The maintenance of all City facilities is performed under the direction of the Public Works Department. The employees' main responsibilities are the daily upkeep and repair of City Hall, Museum, Police Station, Fleet Maintenance Garage, Water Treatment Plant, Utility Facilities, and the Streets Facility. Buildings and grounds maintenance includes limited painting, light electrical and plumbing repairs, replacement of worn-out parts and other general construction, repair and maintenance work. Major maintenance and repair work is performed by independent contractors, as is the janitorial cleaning of the municipal buildings.

FYE 2021 Program Objectives

- (1) Complete City Hall HVAC System Air Quality Improvements Project by April 2021.
- (2) Procure contractual custodial services for eight City-owned and maintained facilities by November 2021 for Fiscal Year 2022.
- (3) Procure contractual services and replace the roof over bays 4, 5, and 6 the Street Division Garage at 135 W. Grandlake Boulevard by September 2021.

City of West Chicago

PUBLIC WORKS DEPARTMENT FORESTRY

Description of Major Activities

The three services included in this program are: brush collection, emergency tree removals/trimming from storm damage, and hornet nest removals. Each of these programs is handled by an independent contractor and administered by various staff in the Streets Division. The system of removing brush with a mechanized loader and chipping the brush at the contractor's site has resulted in faster brush removal. Completion time is typically less than one week, with no chipping debris left on the streets. The contractual Brush Collection Program is administered over a seven month period (May thru November), with brush collection commencing the first full week of each month.

FYE 2021 Program Objectives

- (1) Monitor parkway Ash Trees for continued signs of Emerald Ash Borer (EAB) infestation, maintain accurate records, update inventory, and update members of the Infrastructure Committee on success of 2020 Insecticidal Treatment Program by November 2021.
- (2) Complete the eleventh year of EAB insecticidal treatment program by July 2021.
- (3) Procure contractual services and complete the 2021 Tree Planting Program by June 2021.
- (4) Complete the 2021 Monthly Brush Collection Program by December 2021.

PUBLIC WORKS DEPARTMENT CEMETERIES

Description of Major Activities

The Public Works Department administers and oversees the activities of the two City-owned cemeteries (Glen Oak and Oakwood) that includes the sale of grave sites, interments, ground maintenance activities, records and reports through an independent contractor performing the duties of Cemetery Sexton.

FYE 2021 Program Objectives

- (1) Restore road edges and damaged areas of turf caused by plowing operations, grade and add gravel to Oakwood Cemetery prior to August 2021.
- (2) Develop a digital map of the two City-owned cemeteries delineating all lots or plots, blocks, sections, avenues, walks, alleys, and paths by December 2021.
- (3) Create and maintain an index that associates the identity of every deceased person interred, entombed, or inurned with their respective place of interment, entombment, or inurnment as identified on and corresponds with the cemetery map by December 2021.
- (4) Perform necessary asphalt pavement patching and seal coat drive aisles within the Glen Oak Cemetery by November 2021.

PUBLIC WORKS DEPARTMENT ROAD & BRIDGE

Description of Major Activities

Street Division activities not listed elsewhere as their own Program are included in the Road and Bridge Program. Examples of these activities include: sign work, mowing, parkway cleanup, tree trimming/removals, sidewalk repairs, parkway restorations and landscaping, alley work, shoulder gravel, special events, and most service requests.

FYE 2021 Program Objectives

- (1) Complete all pavement re-striping within all school zones by August 2021.
- (2) Procure contractual services and complete the Forestry Maintenance Program (Tree Removals only) by May 2021.
- (3) Continue storm structure and sewer line cleaning as part of a Citywide program, tracking progress, compliance and effectiveness through December 2021.
- (2) Track and record all street sweeping operations, documenting locations, dates swept, material picked up, personnel, man hours, and equipment used through December 2021.

PUBLIC WORKS DEPARTMENT MAINTENANCE GARAGE

Description of Major Activities

The mission of the municipal garage is to institute and continuously improve its preventative maintenance program which minimizes the occurrence of costly emergency vehicle, truck and equipment breakdowns, and prevents prolonged fleet downtime, thereby maintaining the timely delivery of municipal services to City residents. User departments are considered consumers of fleet maintenance services and charged a user fee based on their historical usage pattern to fund capital equipment purchases, depreciation expenses and general overhead (see Capital Equipment Replacement Fund).

FYE 2021 Program Objectives

- (1) Inspect and assess the condition of each vehicle and piece of equipment within the municipal fleet and update the Capital Equipment Replacement Schedule by November 2021.
- (2) Complete all required safety lane inspections by December 2021.
- (3) During off seasons (i.e., winter for mowing and forestry equipment, summer for snow plowing equipment), inspect all equipment, including small engine equipment, and complete needed repairs prior to start of 2021 seasonal needs (i.e., prior to May 2021 for mowing and forestry equipment, and prior to November 2021 for snow plowing equipment).

PUBLIC WORKS DEPARTMENT MOTOR FUEL TAX

Description of Major Activities

Right-of-way maintenance operations not listed elsewhere as their own program are included in the Motor Fuel Tax Program. Examples of these activities include: electricity charges for street lights and traffic signals, refuse disposal, and a portion of the various street improvement programs.

FYE 2021 Program Objectives

- (1) Procure contractual services and complete the various planned roadway resurfacing projects by November 2021.

COMMUNITY DEVELOPMENT DEPARTMENT

Performance Report on FYE 2020 Major Program Objectives

The draft Economic Development Plan was completed in March. It is subject to review by the Development Committee which is ongoing presently.

The updated Comprehensive Plan was bid out and MUSE Community Design was selected. Work got underway in October.

Several City properties were sold.

A major downtown development proposal was evaluated and rejected as it sought much too heavy of a subsidy. Interest continued to be entertained for development of key downtown properties with some minor progress expected before the end of the year.

Unplanned projects included taking on the Census Committee, which in the end generated more completed forms than ten years ago and a 99.9% ultimate response rate. Monitoring the City's paratransit bus system was also added to the City Planner's duties, however use rates are quite low.

Hiring took longer than anticipated to find someone to replace John Fincham. As of this moment, John retired October 30 and the organization is still seeking a replacement, even with starting the recruitment process over the summer.

Replacement of the Special Events Coordinator was unexpected, but required. Nicolette Stefan started in March. All of the traditional events were ultimately cancelled due to COVID-19, but in some cases virtual replacement events were created by Nicolette to help keep the events on the minds of the public.

Offsite Museum digital storage was completed this year. Other Museum events were cancelled due to COVID-19. Agreements were not reached on the historic trail signs so this activity will be a goal for 2021.

City of West Chicago

COMMUNITY DEVELOPMENT DEPARTMENT Planning, Engineering & Economic Development

Description of Major Activities

This Program is responsible for development within the City, and includes business attraction and retention, short and long range planning, historic preservation, and engineering. As part of this program, staff also recommends revisions to the comprehensive plan, zoning and subdivision regulations, and the City Code to help improve the quality of development within the City and stay competitive with other communities by improving standards and clarifying the process. Staff guides developers through the review process by conducting development review meetings when appropriate, explaining code requirements, reviewing plan submittals and proactively contacting developers to discuss issues that may arise.

FYE 2021 Program Objectives

- (1) The target date, per the consultant, for completing the Comprehensive Plan is the end of 2021. This will require significant attention from City Staff and a variety of Committees (by December 2021).
- (2) Review and negotiation of multi-family development proposals for the Downtown (by June 2021).
- (3) Draft concealment standards for cell antennae to be developed by a consultant (by May 2021).
- (4) Consideration of park planning options on the land formerly owned by the Kerr McGee Chemical Corporation (by November 2021).

COMMUNITY DEVELOPMENT DEPARTMENT Building & Code Enforcement

Description of Major Activities

The Building and Code Enforcement Program includes reviewing all building permit applications; conducting building, change of occupancy, overcrowding and rental inspections; investigating code violation complaints and proactively pursuing property maintenance violations by conducting routine inspections throughout the community. The code enforcement function includes issuing correction notices, inspecting for compliance, issuing "P" tickets for minor offenses, issuing Notice to Appear citations into the City's Administrative Adjudication process for more severe cases and tracking the status of all violations, citations, liens and fines. Staff also tracks temporary occupancy permits, letters of intent, letters of credit and stormwater deposits to ensure that construction is completed. Staff also proposes local amendments to the adopted national codes to improve the safety, image and appearance of the community.

FYE 2021 Program Objectives

- (1) Begin mentoring and adjustment period for the new Assistant Director/Building Official (starting February 2021).
- (2) Continuing the "soft" code enforcement process, which has gained compliance while reducing demands on Adjudication Hearings (ongoing).
- (3) Complete contract renewals for registering vacant/abandoned properties and tall grass/weed enforcement (Tall grass contract by March 2021; vacant properties by October 2021).

COMMUNITY DEVELOPMENT DEPARTMENT ***Special Events and City Museum***

Description of Major Activities

The Museum functions as an educational facility as well as a cultural resource center for the community by promoting the City and its rich history through a variety of outreach programs, changing exhibits, tours, publications and special events. These opportunities are designed for a wide range of audiences. The Museum also collects, stores and conserves two and three-dimensional artifacts representing the collective history of this community and its residents. It maintains extensive local history research files and reference library for use by the community. Special Events is located in the CD Department and has primary responsibility for several city-sponsored festivals and some coordination duties for other events.

FY 2021 Program Objectives

- (1) Renew Museum management contract (by November 2021).
- (2) Install five outdoor historic trail signs (by September 2021).
- (3) Proceed with actual Special Events or, in the case of more COVID-19 restrictions, develop more alternative events for City resident remote participation (throughout the year).

CAPITAL EQUIPMENT REPLACEMENT FUND

Performance Report on FYE 2020 Major Program Objectives

An updated ten-year vehicle and equipment purchase plan was developed during the year. All vehicles were identified and evaluated as to current condition and useful life expectancy. During the budgeting process, staff identified vehicles, which were no longer serviceable. Needed, budgeted vehicles and equipment were replaced either through the bidding process or participation in the State of Illinois Joint Purchasing Program, the Suburban Purchasing Cooperative (SPC) Joint Purchasing Program, the Sourcewell (formerly National Joint Powers Alliance (NJPA)) joint purchasing program, or other local joint purchasing opportunities. Surplus vehicles were sold through public auctions or trade in. The ten-year plan will receive annual scrutiny so that the City can more closely schedule major vehicle replacements in relation to available resources.

City of West Chicago

CAPITAL EQUIPMENT REPLACEMENT FUND

Description of Major Activities

These elements provide for the scheduled replacement of existing vehicles and equipment for all City departments. Funds for the replacement come from annual depreciation contributions charged to the department to which the vehicle or equipment is assigned.

FYE 2021 Program Objectives

- (1) Purchase vehicles and/or equipment in accordance with City policies on the Vehicle and Equipment Replacement Plan by December 2021.
- (2) Dispose of surplus vehicles and equipment through sale, trade or auction by December 2021.
- (3) Update the ten-year Vehicle and Equipment Replacement Plan by December 2021.

SEWER FUND

Performance Report on FYE 2020 Major Program Objectives

The West Chicago/Winfield Wastewater Authority Regional Wastewater Treatment Plant (WWTP) treated a total of 2.617 billion gallons (an average of 7.172 MGD) in 2019 with nearly 2.411 billion gallons (an average of 6.605 MGD) estimated for 2020. Zero excursions of the City's National Pollutant Discharge Elimination System (NPDES) permit were reported in 2019 with zero permit excursions estimated for 2020. As a result of the Pre-Treatment Program, the City issued five industrial user violation notices in 2019 with three violation notices estimated for 2020.

The long-term Capital Improvement Plan for the WWTP was re-evaluated and revised in November 2020 and such will be used to replace/upgrade critical operational equipment at the WWTP over the next ten years. Contractual services related to the Digester #1 Improvements Project, which consists of replacement of all internal digestion system and gas safety equipment and components, were procured in July 2020; however, construction will not be completed until Fiscal Year 2021 due to equipment manufacturing lead times.

Contractual services related to SCADA system improvements at all Sanitary Lift Stations was completed in November 2020.

The storm sewer and overland drainage conveyance systems associated with Special Service Area #2, which are tributary to the retention basin on Hawthorne Lane, Stormwater Lift Station #8, and Kress Creek, was maintained during Fiscal Year 2020. Replacement of the control cabinet at Stormwater Lift Station #8, using the existing control cabinet previously removed from Sanitary Lift Station #1, was completed by City staff in November 2020.

As a direct result of financial uncertainty associated with the COVID-19 Pandemic, those projects and programs planned for Fiscal Year 2020 that were not in-progress or had not been awarded a contract prior to March 2020 were moved to Fiscal Year 2021. Projects delayed until Fiscal Year 2021 included repair/replacement of the Stormwater Lift Station #8 outfall pipe, continuation of the Citywide Inflow and Infiltration Reduction Program, procurement of contractual services to replace the Emergency Backup Generator at Sanitary Lift Station #9 (Powis Road), and procurement of contractual services for the replacement of Sanitary Lift Station #5 (Burger King) and its associated forcemain. These projects will become priorities for Fiscal Year 2021.

City of West Chicago

SPECIAL SERVICE AREA #2

Description of Major Activities

Personnel from the Utility Division are responsible for the operation, maintenance and repair of the pumping facility. The pumps receive preventative maintenance and repairs as needed throughout the year. The station was constructed in 1984, the pumps were overhauled in 1998, and no service interruptions have occurred during the budget period.

FYE 2021 Program Objectives

- (1) Clean and inspect the storm sewer and overland drainage conveyance system to the pumping facility weekly during the months of May through November, monthly December through April.
- (2) Perform weekly preventative maintenance operations of the stormwater lift station, including monthly cleaning of stormwater intake and pump station outlet, during Fiscal Year 2021.
- (3) Repair/replace Stormwater Lift Station #8's outfall pipe, including necessary ditch grading and restoration, by October 2021.

City of West Chicago

SEWER FUND Treatment and Sanitary Collection

Description of Major Activities

The Sanitary Collection program covers all expenditures associated with the routine operation and maintenance of the entire sanitary sewer collection system, the City's fifteen sewer lift stations and sewer lift station force mains. Program personnel provide comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe reliable sewage handling and conveyance system for the businesses and residents of West Chicago.

FYE 2021 Program Objectives

- (1) Continue with the Citywide Inflow and Infiltration Reduction Program by procuring contractual services for the 2021 Sanitary Sewer Evaluation Survey, and needed inflow and infiltration repairs/upgrades within the sanitary collection system, by July 2021.
- (2) Procure contractual services and complete construction associated with the replacement of Sanitary Lift Station #5 (Burger King) and its associated forcemain by December 2021.
- (3) Procure contractual services and replace the Emergency Backup Generator at Sanitary Lift Station #9 (Powis Road) by November 2021.

WATER FUND

Performance Report on FYE 2020 Major Program Objectives

The Division operated and maintained pumping facilities that produced over 1.3 billion gallons of water during 2019 with nearly 1.1 billion gallons estimated for 2020. The Division successfully completed all IEPA and USEPA required sampling and monitoring requirements with no violations.

The well pump and motor assembly at Well Stations #8 was pulled and inspected in March 2020; complete rebuild and rehabilitation of the existing well equipment was required. Repairs were completed and the well was put back into service in November 2020. Repairs related to Well Station #3, which resulted from a motor failure in 2018, were completed and the well was put back into service in June 2020. To improve safety at all Well Stations, the antiquated chlorine gas feed system was removed and replaced with a liquid chlorine feed system in November 2020.

A Citywide water distribution system leak survey was completed in July 2020. As a direct result of said survey, 36 found system leaks were repaired by City staff between the months of July and September 2020, reducing water loss by approximately 350,000 gallons per day.

No major operational changes were made to the Plant during 2020; however, operational strategies to improve the treatment process and to balance water storage against demand continue.

Removal of waste lime sludge from lagoons at the Water Treatment Plant is anticipated to be completed in December 2020 with the removal and disposal of approximately 12,700 tons of waste lime sludge.

Two 16' diameter Destratification fans, used to control humidity within the Water Treatment Plant, were replaced in November 2020.

Contractual services related to SCADA and security system improvements at all Well Stations and at the Water Treatment Plant were delayed until 2021, along with the Water Treatment Plant's Surface Wash Supply Valve Replacement Project. Painting of the Fremont Street elevated water storage tank was delayed until 2022.

City of West Chicago

WATER PRODUCTION AND DISTRIBUTION

Description of Major Activities

This program covers all expenditures associated with the routine operation and maintenance of the City's nine wells, two elevated storage tanks, three ground storage tanks, watermain, fire hydrants, valves, water meters, and service connections. Program personnel provide comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe, plentiful and uninterrupted source of water for the businesses and residents of West Chicago.

FYE 2021 Program Objectives

- (1) Procure contractual services and complete SCADA and security system improvements at all Well Stations by December 2021.
- (2) Procure construction services to pull the pump and motor assembly at Well Station #10 by February 2021; evaluate needed repairs and complete same by December 2021.
- (3) Procure contractual services and complete needed repairs to the Booster Station #4 ground storage tank by October 2021.

WATER TREATMENT PLANT OPERATIONS

Description of Major Activities

This program covers all expenditures associated with the overall operation and maintenance of the Water Treatment Plant.

FYE 2021 Program Objectives

- (1) Continue to evaluate operational strategies to improve the treatment process and to balance water storage against demand by December 2021.
- (2) Procure contractual services and complete SCADA and security system improvements at the Water Treatment Plant by December 2021.
- (3) Procure contractual services and paint the exterior walls of the cones/vessels/tanks at the Water Treatment Plant, to address rust spots, by December 2021.

Ongoing Activity Measures	2019 Actual	2020 Estimated	2021 Proposed	2022 Projected
Average Daily Water Treated (MGD)	3.58	3.43	3.50	3.50
Full Time Equivalent Positions	7.88	7.88	7.88	7.88

TREATMENT PLANT DEBT SERVICE

Description of Major Activities

The City issued 21.2 million dollars in alternate revenue bonds to pay for the Water Treatment Plant; this debt was paid off in 2011. The City also secured a \$10 million plus loan from the IEPA. The bonds and note are being paid off through water usage charges.

Performance Report on FYE 2020 Major Program Objectives

As a direct result of financial uncertainty associated with the COVID-19 Pandemic, those capital projects and programs planned for Fiscal Year 2020 that were not in-progress or had not been awarded a contract prior to March 2020 were moved to Fiscal Year 2021. Projects completed during Fiscal Year 2020 included the Washington Street Reconstruction Project, construction of the road salt storage facility, the Sidewalk and Curb and Gutter Replacement Program, the Forestry Removal and Trimming Program, the Tree Replacement Program, the Right-of-Way Maintenance Program, and the Emerald Ash Borer Insecticidal Treatment Program (soil treatment method only).

The City Hall Security Improvements and City Hall HVAC Improvements Project were also completed in Fiscal Year 2020, but were paid for using money received from the CARES Act.

During 2020, the City's Street Division completed asphalt pavement patching on Ingaltan Avenue between Elmwood Avenue and Grandlake Boulevard, Alamance Drive, and the 900 and 1000 blocks of South Oak Street and Gates Street.

City of West Chicago

CAPITAL PROJECTS FUND

Description of Major Activities

The Capital Improvement Program covers a period of five years and consists of new construction as well as maintenance and repair to existing infrastructure. The specific projects and the financing program are described in a supplement to this program budget.

FYE 2021 Program Objectives

- (1) Complete the Prince Crossing Road Local Agency Functional Overlay (LAFO) Project by August 2021.
- (2) Complete the Hillside Addition and Roosevelt Highlands Subdivision Rehabilitation Project by September 2021.
- (3) Complete the Commerce Drive Reconstruction Project by October 2021.
- (4) Complete the 200 Main Street Renovation Project by December 2021.

Ongoing Activity Measures	2019 Actual	2020 Estimated	2021 Proposed	2022 Projected
Centerline Miles of Streets Striped	0	0	10.0	5.0

City of West Chicago

DOWNTOWN TAX INCREMENT FINANCE DISTRICT

Performance Report on FYE 2020 Major Program Objectives

COVID-19 took a toll on all downtown special events, which were cancelled. These were replaced partially by a number of successful virtual events.

The façade program funds were allocated in whole especially quickly as demand for the program was strong. In fact, additional funds were made available to help fill in the gap between supply and demand.

City of West Chicago

DOWNTOWN TAX INCREMENT FINANCE DISTRICT

Description of Major Activities

TIF District funds are utilized to make improvements within the designated district that will revitalize the area and ultimately result in increased property values and a self-sustaining district. Specific activities conducted to accomplish revitalization include providing and promoting façade grants, creating sub-area plans for specific areas within the district and property assembly. Expenditures for promoting the downtown are also included in the TIF program.

FYE 2021 Program Objectives

- (1) Negotiate a development agreement for townhomes with a selected developer for Block 2 by April 2021.
- (2) Negotiate a development agreement for apartments with selected developer for Blocks 3 and/or 4 by August 2021.
- (3) Complete work on Gallery 200 building by July 2021.
- (4) Expand and award façade grants to eligible downtown buildings throughout year.

PUBLIC BENEFIT FUND

Performance Report on FYE 2020 Major Program Objectives

There were no projects completed using monies from this Fund.

City of West Chicago

PUBLIC BENEFIT FUND

Description of Major Activities

This Fund holds the money obtained in the settlement with the Kerr-McGee Chemical Corporation (now Tronox). In 1998, the West Chicago City Council adopted a policy that provided for only using the accrued interest from this fund, in addition covering the costs for oversight of the Kerr-McGee clean up. To date, funding has only been allocated to five projects from this Fund: Sesquicentennial Park; monument and wayfinding signage; loan to the TIF Fund for property acquisition; property acquisition and associated expenses for the government campus and along High Street; and the music and arts venue at Reed-Keppler Park.

City of West Chicago

OLIVER SQUARE TAX INCREMENT FINANCE DISTRICT FUND

Description of Major Activities

TIF District funds are utilized to make improvements within the designated district that will revitalize the area and ultimately result in increased property values and a self-sustaining district. Specific activities conducted to accomplish revitalization include providing grants to improve the infrastructure of the district. Expenditures for promoting the district are also included in the TIF program, which includes marketing.

FYE 2021 Program Objectives

- (1) Process requests for reimbursement, if appropriate.

COMMUTER PARKING FUND

Performance Report on FYE 2020 Major Program Objectives

As a direct result of financial uncertainty associated with the COVID-19 Pandemic, and very limited commuter usage during 2020, those projects planned for Fiscal Year 2020 that were not in-progress or had not been awarded a contract prior to March 2020 were moved to Fiscal Year 2021.

Landscape maintenance services around the commuter parking lots and METRA station were performed contractually in 2020. The grounds were maintained weekly from May through November, and included grass mowing, trimming, edging, trash and debris pickup, and weeding. In addition, all planting beds were mulched and all bushes were trimmed.

With a mostly empty commuter parking lot, the City's Street Division staff seized the opportunity to perform asphalt pavement patching within the parking lot, which was then contractually seal coated and restriped in May 2020.

City of West Chicago

COMMUTER PARKING FUND

Description of Major Activities

This program funds the maintenance of both commuter parking lots and the train station. Activities include snow removal, mowing and landscaping, trash removal, janitorial service and maintenance for the building, parking lots, and payment machines.

FYE 2021 Program Objectives

- (1) Replace exterior wood trim, siding, flashings, and windows on upper Cupola by November 2021.
- (2) Replace railings around the METRA Station platform by December 2021.
- (3) Replace all the glass in both METRA kiosks with tinted laminated safety glass by October 2021.
- (4) Evaluate landscaping around METRA Station parking lot, adjacent to Main Street and Wilson Avenue, and replace deficient areas by November 2021
