WHERE HISTORY & PROGRESS MEET

January 22, 2021

The Honorable Mayor Ruben Pineda Members of the West Chicago City Council City Administrator Michael Guttman Citizens of the City of West Chicago

The Comprehensive Annual Financial Report of the City of West Chicago (City) for the fiscal year ended December 31, 2019, is hereby submitted as mandated by local ordinances and state statutes. These ordinances and statutes require that the City issue a report on its financial position and activity following the end of a fiscal period, and that this report be audited by an independent accounting firm of certified public accountants.

Responsibility for both the accuracy of the data, and the completeness and reliability of the information presented in this report, including all disclosures, rests with management. The City is also responsible for establishing and maintaining internal controls designed to ensure that the assets of the City are protected from loss, theft or misuse, and to ensure adequate accounting of data is compiled to allow for the preparation of the City of West Chicago's financial statements in accordance with generally accepted accounting principles (GAAP). Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that the cost of a control should not exceed the benefits likely to be derived and that the valuation of the costs and benefits requires estimates and judgments by management. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Lauterbach & Amen, LLP, a firm of licensed certified public accountants. The goal of the independent audit is to provide reasonable assurance that the financial statements of the City of West Chicago for the fiscal period ended December 31, 2019, are free of material misstatement. The auditors' report is presented as the first component of the financial section of this report.

GAAP requires that management provide an introduction, overview and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

PROFILE OF THE CITY OF WEST CHICAGO

The City of West Chicago is a diverse, family-oriented community with a rich cultural mix and a proud heritage, located in northeastern Illinois, approximately 30 miles west of Chicago. West Chicago is the first Illinois community established by the railroads and continues to be a convenient transportation hub served by three major rail lines, Illinois' third-busiest airport and three State highways. The population has nearly tripled since the 1970s, with an official population of 27,086, based upon the results of the census conducted in 2010. West Chicago became a home rule unit of government on March 3, 2004.

The equalized assessed valuation of the City reflects its strong economic condition. The City's assessed valuation has more than doubled since 1996, and one of the City's primary goals continues to be the active pursuit of commercial and industrial development that will aid in alleviating the tax burden on residents, while diversifying the long-term tax base.

The City operates under the Mayor-Council form of government. Policymaking and legislative authority are vested in the City Council, which is comprised of a Mayor and two Aldermen from each of seven wards. The City Council is responsible for, among many responsibilities, passing ordinances, adopting an annual budget, appointing committees and hiring the City Administrator. The Council members are elected to four-year staggered terms with seven Council members being elected every two years. The Mayor is elected to a four-year term, as is the City Clerk. The City Administrator is responsible for carrying out the policies of and ordinances adopted by the City Council, for overseeing the day-to-day operations of the City, and for appointing all City staff except the Chief of Police.

The City provides a full range of services, including: police protection, the construction and maintenance of streets and other infrastructure, water and wastewater treatment, the distribution of potable water, the collection of wastewater and stormwater, cultural events, as well as community and economic development.

The annual budget serves as the foundation for the City's financial planning and control. It further prioritizes our core services and administrative functions and reflects the policy direction established by the City Council. All department directors of the City are required to submit their budget requests to the City Administrator, who then uses these requests as the starting point for developing a proposed budget. The City Administrator presents the proposed budget to the City Council, and budget workshops with the Finance Committee begin shortly thereafter. The City targets budget adoption at a Council meeting approximately one month prior to the beginning of the fiscal year. Once approved, the City Administrator is given the flexibility to transfer amounts between departments and line items within a fund, but City Council action is necessary to transfer money between funds. The following are some of the major components of the Budget Policy that the City Council has used as a continuing foundation for fiscal discipline:

• Revenues are conservatively projected using historical trends, reasonably expected changes in the coming year, and an analysis of anticipated economic conditions in the region, the state and the nation.

- Expenditures reflect realistic projections of anticipated expenses. Efforts are made to
 ensure that programs and services are realistically funded. Expenditures will be paid with
 current revenues.
- Fund balances/unrestricted net position shall be at least 25% of revenues in the General, Water and Sewer Funds.
- User fees, such as water and sewer charges, will be reviewed annually. This is done to ensure that fees cover costs, meet debt service requirements, and are affordable.

MAJOR INITIATIVES

The City has been involved in a variety of projects throughout the year, which reflect its commitment to ensuring that its citizens are able to experience a high quality of life in an enviable environment. The most significant of these projects are outlined below:

- Commemorated the historically meaningful and relevant visit of the Union Pacific's Big Boy, the world's largest steam locomotive, over a three day period which bought more than 45,000 people from around the world to the City to share in this unique event.
- Welcomed several new businesses to the DuPage Business Center and witnessed the twenty million dollar expansion project of the headquarters of a global leader in the horticulture field.
- Celebrated a milestone event with the win of the IHSA Class 3A Boys State Soccer Championship by the West Chicago Wildcats Boys' Soccer Team.
- Partnered with the City of Warrenville and Winfield Township to begin a one year pilot transportation program that provides 24/7 paratransit bus and taxi services for seniors and disabled residents, joining a number of other DuPage County municipalities as part of a larger program.

FACTORS AFFECTING LOCAL FINANCIAL CONDITION

Local Economy

As West Chicago has persistently transitioned itself into a center for commerce and industry, the diversity of its retail and industrial bases has helped to reduce dependency on outside revenues. The City continues to aggressively pursue economic development opportunities and partnerships with commercial and corporate developers and business owners, while supporting existing relationships, despite the current state of the economy.

Long-term Financial Planning

The City performs an annual review of its strategy designed to address the structural and cyclical financial challenges that continue to face the City. This strategy includes five major components:

Reduction in Operating Expenditures – To address the structural problem of rising operating costs, the City annually undergoes a target budgeting process to manage the organization's expenditure and revenue patterns. Additionally, a comprehensive multi-

phased review of both the budget and cost for services continued to determine alternative ways of providing existing services, with any cost savings that result from such adjustments being reallocated to other operational and maintenance needs.

Systematic Use of Fund Reserves – As part of its policy, the City met its reserve target for the fiscal period ending December 31, 2019. The City maintains operating reserves that may be utilized during economic downturns and other unexpected circumstances. The systematic use of reserves helps to smooth the City's expenditure patterns and minimize fluctuations in the level of services provided and maintained.

Identification and Implementation of New Revenues – The City annually assesses new sources of revenue to ensure the continued delivery of core services to our customers. New revenue sources that are adopted adhere to the City Council's direction that users should pay for certain services from which only they benefit and/or require.

Increased Economic Development Focus – The City's Economic Development Program is designed to increase and diversify the City's sales tax, utility tax and real estate tax bases. By doing so, the City has become more self-sufficient, generating revenues and reducing dependency on outside revenue sources.

Maintain and Improve City Services – The City has a proud history of providing exceptional services. During the implementation of this strategy, it was imperative that the residents and businesses not experience a reduction in service levels unless absolutely necessary. With few exceptions, the City has been able to provide excellent service with fewer employees and leaner budgets.

In addition to this financial strategy, the City continues to have a five-year Capital Improvement Plan (CIP) and a process that projects future operating budgets. The CIP lends guidance and continuity in the planning and development of budgets, but more importantly, it identifies and prioritizes infrastructure maintenance and replacement needs, and plans for projects several years in advance. The Capital Projects Fund, Water Fund and Sewer Fund each have their respective five-year plans.

Financial Policies

The following policies had significant impact on the City's financial statements:

The City Council has continued its policy to participate in local agency and other agreements to maximize infrastructure improvements by way of federal funding, and to seek out various intergovernmental partnerships to further subsidize the cost of such improvements. These proactive measures have allowed the City to continue its aggressive street reconstruction, maintenance and resurfacing programs, along with other public infrastructure improvements. In 2019, the Forest Avenue Resurfacing Project and the Elm Road Resurfacing Project were completed.

The City Council's continued partnership with the Boards of the Fire Protection District, School District 33, School District 94, DuPage Airport Authority and the Library District allowed for a package of incentives to attract Alton Industry Ltd. Group and Midwest Industrial Funds (Skyjack Project) to the DuPage Business Center. The economic incentives included a partial property tax

abatement for both companies, as well as a partial rebate of utility taxes and a partial waiver of building permit fees for Alton Industry Ltd. Group. These development projects are expected to enhance the work force and have a meaningful impact on economic development in the area.

Following the direction of the City Council, the transition to the newly-formed Joint Venture with the Village of Winfield, which was created to oversee the operation and maintenance of the Wastewater Treatment Plant, was completed, including all asset and liability transfers previously held and accounted for the by City.

AWARDS AND ACHIEVEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of West Chicago for its comprehensive annual financial report (CAFR) for the fiscal year ended December 31, 2018. This was the twentieth consecutive year that the City has received this prestigious award. In order to be awarded a Certificate of Achievement, the City must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements. This report can be viewed on the City's website at www.westchicago.org. A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements, and we are submitting it to the GFOA to determine its eligibility for another Certificate.

The preparation of this report was made possible by the dedicated service of the entire staff of the Department of Administrative Services. Each member of the Department has our sincere appreciation for the contribution made in the preparation of this report.

In closing, we would like to acknowledge and thank the Mayor and City Council for their leadership and support in planning and conducting the financial operations of the City in a progressive manner throughout the year, and for their support in maintaining high standards of professionalism in the management of the City's finances.

Respectfully submitted,

Linda M. Martin

INDEPENDENT AUDITORS' REPORT

January 22, 2021

The Honorable City Mayor Members of the City Council City of West Chicago, Illinois

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of West Chicago, Illinois, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of West Chicago, Illinois, as of December 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

City of West Chicago, Illinois January 22, 2021 Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents and budgetary information reported in the required supplementary information as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of West Chicago, Illinois' basic financial statements. The introductory section, other supplementary information, supplemental schedule, and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The other supplementary information and supplemental schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information and supplemental schedule are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Management's Discussion and Analysis December 31, 2019

Our discussion and analysis of the City of West Chicago's financial performance provides an overview of the City of West Chicago's financial activities for the fiscal year ended December 31, 2019. Please read it in conjunction with the transmittal letter, which begins on page 3 and the City of West Chicago's financial statements, which begin on page 23.

FINANCIAL HIGHLIGHTS

- The City's net position decreased as a result of this year's operations. Net position of business-type activities decreased by \$13,758,682, or 14.5 percent, while net position of the governmental activities decreased by \$569,691 or 1.4 percent.
- During the year, government-wide revenues for the primary government totaled \$25,201,949, while expenses totaled \$39,530,322, resulting in a decrease to net position of \$14,328,373.
- The City of West Chicago's net position totaled \$122,269,264 at December 31, 2019, which includes \$150,502,392 net investment in capital assets, \$3,795,378 subject to external restrictions, and \$32,028,506 unrestricted deficit net position that may be used to meet the ongoing obligations to citizens and creditors.
- The General Fund reported an increase this year of \$2,068,800, resulting in an ending fund balance of \$15,486,324, an increase of 15.4 percent.

USING THIS REPORT

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities (on pages 23 - 26) provide information about the activities of the City of West Chicago as a whole and present a longer-term view of the City's finances. Fund financial statements begin on page 27. For governmental activities, these statements tell how these services were financed in the short term as well as what remains for future spending. Fund financial statements also report the City's operations in more detail than the government-wide statements by providing information about the City of West Chicago's most significant funds. The remaining statements provide financial information about activities for which the City acts solely as a trustee or agent for the benefit of those outside of the government.

Management's Discussion and Analysis December 31, 2019

USING THIS REPORT – Continued

Government-Wide Financial Statements

The government-wide financial statements provide readers with a broad overview of the City of West Chicago's finances, in a manner similar to a private-sector business. The government wide financial statements can be found on pages 23 - 26 of this report.

The Statement of Net Position reports information on all of the City of West Chicago's assets/deferred outflows and liabilities/deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating. Consideration of other non-financial factors, such as changes in the City's property tax base and the condition of the City's infrastructure, is needed to assess the overall health of the City of West Chicago.

The Statement of Activities presents information showing how the government's net position changed during the most recent fiscal period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of West Chicago that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of West Chicago include general government, public safety and culture and recreation. The business-type activities of the City of West Chicago include waterworks, sewerage and commuter parking operations.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of West Chicago, like other local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Management's Discussion and Analysis December 31, 2019

USING THIS REPORT – Continued

Fund Financial Statements - Continued

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal period. Such information may be useful in evaluating the City of West Chicago's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate the comparison between governmental funds and governmental activities.

The City of West Chicago maintains seven individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Public Benefit Fund, TIF Special Tax Allocation #1 Fund, and Capital Improvement Fund, all of which are considered major funds. Data from the other three governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of West Chicago adopts an annual budget for all of the governmental funds, except the Other Special Service Areas Fund. A budgetary comparison schedule for these funds has been provided to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 27 - 32 of this report.

Proprietary Funds

The City of West Chicago maintains one proprietary fund type: enterprise. Enterprise funds are used to report the same functions presented as business-type activities in the government—wide financial statements. The City of West Chicago utilizes enterprise funds to account for its water and sewer operations, water and sewer construction, water and sewer debt retirement, and commuter parking operations.

Management's Discussion and Analysis December 31, 2019

USING THIS REPORT – Continued

Fund Financial Statements - Continued

Proprietary Funds – Continued

Proprietary fund financial statements provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Waterworks and Sewerage Funds, which are considered to be major funds of the City, and the Commuter Parking Fund, which is a non-major fund.

The basic proprietary fund financial statements can be found on pages 33 - 36 of this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of West Chicago's own programs. The accounting use for fiduciary funds is much like that used for proprietary funds. The basic fiduciary fund financial statements can be found on pages 37 - 38 of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 39 - 78 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of West Chicago's Illinois Municipal Retirement Fund (I.M.R.F.), Police Pension Fund, and retiree benefits plan, as well as budgetary comparison schedules for the General Fund and any major special revenue funds. Required supplementary information can be found on pages 79 - 89 of this report. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the required supplementary information on pensions. Combining and individual fund statements and schedules can be found on pages 90 - 120 of this report.

Management's Discussion and Analysis December 31, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position may serve over time as a useful indicator of a government's financial position. The following tables show that in the case of the City of West Chicago, assets/deferred outflows exceeded liabilities/deferred inflows by \$122,269,264.

	Net Position						
		Govern	nental	Busine	ss-type		
		Activi	ities	Acti	vities	Total	
		2019	2018	2019	2018	2019	2018
Current Assets	\$	31,284,965	28,050,930	(8,905,152)	(2,972,086)	22,379,813	25,078,844
Capital Assets		54,970,284	54,014,124	98,828,924	109,261,535	153,799,208	163,275,659
Total Assets		86,255,249	82,065,054	89,923,772	106,289,449	176,179,021	188,354,503
Deferred Outlflows		10,656,094	8,189,233	276,575	1,585,681	10,932,669	9,774,914
Total Assets/Deferred Outflows		96,911,343	90,254,287	90,200,347	107,875,130	187,111,690	198,129,417
Current Liabilities		4,591,208	2,778,810	2,290,082	4,391,487	6,881,290	7,170,297

Total Net Position		41,332,524	41,902,215	80,936,740	94,695,422	122,269,264	136,597,637

A large portion of the City's net position, \$150,502,392, reflects its investment in capital assets (i.e., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion, \$3,795,378, of the City of West Chicago's net position represents resources that are subject to external restrictions on how they may be used. The remaining \$32,028,506 represents unrestricted deficit net position and may be used to meet the government's ongoing obligations to citizens and creditors.

Management's Discussion and Analysis December 31, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Net position of the City of West Chicago's governmental activities decreased 1.4 percent (\$41,332,524 at December 31, 2019, compared to \$41,902,215 at December 31, 2018). Unrestricted net position, the part of net position that can be used to finance day-to-day operations without constraints, totaled a deficit of \$17,252,817 at December 31, 2019.

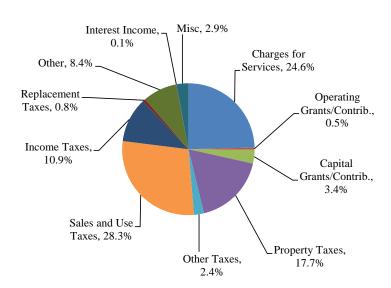

Net position of business-type activities decreased 14.5 percent (\$80,936,740 at December 31, 2019 compared to \$94,695,422 at December 31, 2018). The City reported a deficit of \$2,341,617 in the Waterworks Fund and a deficit of \$11,463,632 in the Sewerage Fund and a surplus of \$46,567 in the Commuter Parking Fund. The Sewerage Fund underwent a large transfer of capital assets to a newlyformed joint authority in 2019, resulting in the large decrease.

Governmental Activities

Revenues for governmental activities totaled \$26,359,330 while the cost of all governmental functions totaled \$26,929,021. This results in a net position draw down of \$569,691 at December 31, 2019. At December 31, 2018, revenues for governmental activities totaled \$23,773,689, while the cost of all governmental functions totaled \$23,789,509, which resulted in a drawdown of \$15,820. Revenues for charges for services and sales and use taxes increased \$1,369,839 and \$598,211, respectively.

The following table graphically depicts the major revenue sources of the City of West Chicago. It depicts very clearly the reliance on property taxes, sales and use taxes, charges for services and other general revenues to fund governmental activities. It also clearly identifies the less significant percentage the City receives from replacement taxes.

Revenues by Source - Governmental Activities

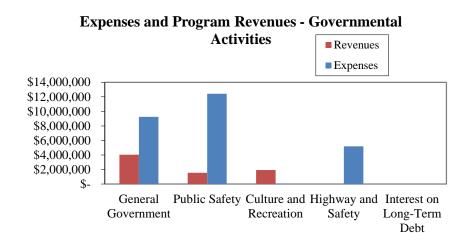

Management's Discussion and Analysis December 31, 2019

GOVERNMENT-WIDE FINANCIAL ANALYSIS – Continued

Governmental Activities – Continued

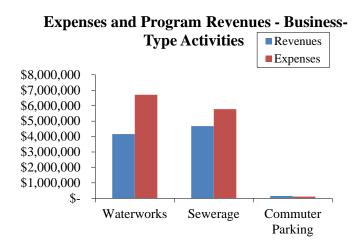

The 'Expenses and Program Revenues' Chart identifies those governmental functions where program expenses greatly exceed revenues. These expenses and revenues do not include the major revenue sources, such as property taxes, sales and use taxes and income taxes, described earlier. The Statement of Activities on pages 25 - 26 further outlines those revenues and expenses considered program specific.

Business-Type Activities

Business-Type activities posted total revenues of \$9,429,003 before the \$10,586,384 disposal of capital assets, while the cost of all business-type activities totaled \$12,601,301. This results in a net position decrease of \$13,758,682. At December 31, 2018, revenues of \$5,385,832 were less than expenses of \$13,886,840, resulting in a decrease of \$8,501,008.

The chart below compares program revenues to expenses for business-type activities.

Management's Discussion and Analysis December 31, 2019

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City of West Chicago uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City of West Chicago's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At December 31, 2019, the City's governmental funds reported combined ending fund balances of \$22,314,181, which is an increase of \$1,264,795 from last year's total of \$21,049,386. Of the \$22,314,181 total, \$13,844,971, or 62.0 percent, of the fund balance constitutes unassigned fund balance, while \$108,429, or half of one percent, is designated as nonspendable, \$3,615,057, or 16.2 percent, has been classified as restricted funds and \$4,745,724, or 21.3 percent, has been classified as assigned funds.

The General Fund is the chief operating fund of the City. The General Fund reported an increase change in fund balance for the fiscal year of \$2,068,800, an increase of 15.4 percent. Overall, budgeted expenditures totaled \$20,669,700 while actual expenditures totaled \$18,040,728. These variances are further outlined on the General Fund Schedule of Revenues, Expenditures and Changes in Fund Balance.

The Public Benefit Fund is used to account for the accumulation of funds from Kerr McGee to fund projects that meet the criteria established by the City Council and as detailed in the City Code. The Public Benefit Fund reported an increase change in fund balance for the fiscal year of \$2,245, a result of no capital outlay expenditures.

The TIF Special Tax Allocation #1 Fund reported an increase of \$318,737 for the year, the majority of which resulted from actual revenues totaling \$1,059,782 and actual expenditures totaling \$741,045, which was \$346,155 less than expenditures budgeted. The fund balance of \$931,225 will be used for ongoing projects and prospective development.

The Capital Improvement Fund reported a decrease in fund balance of \$1,717,221 for the year, which resulted from actual expenditures of \$5,950,999 being below actual revenues totaling \$3,733,778, due to completion of resurfacing projects, the widening of Elm Road and construction of a salt storage facility.

Management's Discussion and Analysis December 31, 2019

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS - Continued

Proprietary Funds

The City of West Chicago's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

The City reports the Waterworks Fund and the Sewerage Funds as two major proprietary funds. The Waterworks Fund accounts for all of the operations of the municipal water plant and distribution system while the Sewerage Fund accounts for all of the operations of the municipal sewer plant and collection system. Water is sold to municipal customers at a rate of \$3.88 per one thousand gallons of water (\$2.90 per one hundred cubic feet for water) and a rate of \$5.61 per one thousand gallons of sewer (\$4.20 per one hundred cubic feet for sewer). The variance between the cost of operations and the rates charged to customers is intended to finance the debt and infrastructure of the utility system, including labor costs, supplies, infrastructure maintenance and future infrastructure improvements. The Commuter Parking Fund is recorded as a nonmajor fund.

Each year, the City of West Chicago projects the user rates charged to be sufficient that the funds operate at a breakeven level, including amortization of future capital costs. Periodically, there will be an annual surplus or decrease due to the timing of capital projects. The decrease in net position in the Waterworks Fund during the fiscal year was \$2,341,617, while the decrease in the previous fiscal year was \$5,215,949.

The Sewerage Fund experienced a decrease in net position of \$11,463,632, due in large part to the disposal of capital assets, while the previous fiscal year reported a decrease of \$3,315,784. The Commuter Parking Fund had an increase in net position for the fiscal year of \$46,567 compared to the increase in the previous fiscal year of \$30,725. Total net position in the Proprietary Funds was \$80,936,740 (net investment in capital assets, restricted, and unrestricted) at December 31, 2019.

GENERAL FUND BUDGETARY HIGHLIGHTS

The City of West Chicago Council made two budget amendments to the General Fund during the fiscal year, to amend budgeted expenditures only. General Fund actual revenues for the year totaled \$20,609,528 compared to budgeted revenues of \$18,239,200. There was better than anticipated actual results within permit and license revenue categories.

Original budgeted expenditures of \$20,461,000 were increased \$208,700 for software and uniform purchases, and the 2018 Sherman Street Resurfacing Project. The General Fund actual expenditures for the year were \$2,628,972 lower than budgeted (\$18,040,728 actual compared to \$20,669,700 final budgeted). The general government's actual expenditures were lower than budgeted expenditures by \$1,733,745 due to overall coast controlling measures.

Management's Discussion and Analysis December 31, 2019

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City of West Chicago's investment in capital assets for its governmental and business type activities as of December 31, 2019 was \$153,799,208, net of accumulated depreciation). This investment in capital assets includes land, construction on progress, buildings and improvements, vehicles and equipment and infrastructure.

This year's major additions included:

Construction in Progress	\$ 3,900,707
Machinery and Equipment	412,818
Infrastructure	297,126
	4,610,651

Additional information on the City of West Chicago's capital assets can be found in note 3 of this report.

Management's Discussion and Analysis December 31, 2019

CAPITAL ASSETS AND DEBT ADMINISTRATION - Continued

Debt Administration

At December 31, 2019, the City of West Chicago had total outstanding debt of \$3,296,816 as compared to \$3,907,155 at December 31, 2018, a decrease of \$610,339. The following is a comparative statement of outstanding debt:

		Long-Term Debt Outstanding						
	· <u> </u>	Governmental		Busines	s-Type			
		Activities		Activ	vities	Tot	als	
		2019	2018	2019	2018	2019	2018	
							_	
IEPA Revolving Loan	\$	-	-	3,296,816	3,907,155	3,296,816	3,907,155	

Chapter 65, Section 5/8-5-1 of the Illinois Compiled Statutes governs computation of the legal debt margin. The City is a home rule municipality and to date, the Illinois General Assembly has set no limits for home rule municipalities. Additional information on the City of West Chicago long-term debt can be found in Note 3 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The City of West Chicago's elected and appointed officials considered many factors when setting the fiscal year 2020 budget, tax rates and fees that will be charged for its governmental and business-type activities. One of those factors is the economy. Unemployment rates for December 31, 2019, for DuPage County was 3.6 percent and the state and national unemployment rates were 3.7 and 3.5 percent, respectively.

Amounts available for appropriation in the General Fund budget are \$20,651,400 million, a decrease of 0.09 percent from the final 2019 budget of \$20,669,700 million. The City of West Chicago has budgeted increases in sales and income tax of approximately 3 percent each. The City of West Chicago's major initiatives in the 2020 budget include the continued West Washington Street environmental remediation and the replacement of Lift Station #5. The City of West Chicago maintains its strong commitment to fiscal accountability and pledges to continue to seek innovative strategies to maximize financial responsibility.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City of West Chicago's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be directed to the Director of Administrative Services, City of West Chicago, 475 Main Street, West Chicago, IL. 60185.

BASIC FINANCIAL STATEMENTS

The basic financial Statements include integrated sets of financial statements as required by the GASB. The sets of statements include:

- Government-Wide Financial Statements
- Fund Financial Statements

Governmental Funds

Proprietary Funds

Fiduciary Funds

In addition, the notes to the financial statements are included to provide information that is essential to a user's understanding of the basic financial statements.

Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities - Governmental Activities

For the Fiscal Year Ended December 31, 2019

Changes in Net Position of Governmental Activities

Net Change in Fund Balances - Total Governmental Funds	\$	1,264,795
Amounts reported for governmental activities in the Statement of Activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital Outlays		2,879,919
Depreciation Expense Disposals - Cost		(1,923,759) 67,274
Disposals - Accumulated Depreciation		(67,274)
Deferred outflows (inflows) of resources related to the pensions not reported in the funds.		
Change in Deferred Items - IMRF		(1,885,765)
Change in Deferred Items - Police Pension		2,880,419
Change in Deferred Items - RBP		311,297
The issuance of long-term debt provides current financial resources to		
governmental funds, while the repayment of the principal on long-term		
debt consumes the current financial resources of the governmental funds.		
Change to Compensated Absences Payable		(166,591)
Change to Net Pension Liability - IMRF		1,805,264
Change to Net Pension Liability - Police Pension		(5,334,316)
Change to Total OPEB Liability - RBP		(400,954)
	Φ.	(500 001)

(569,691)

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of West Chicago (City), Illinois, incorporated in 1849, is a municipal corporation governed by an elected Mayor and City Council. The City's major operations include public safety, highway and street maintenance and reconstruction, forestry, building, code enforcement, public improvements, economic development, planning and zoning, water, sewer, commuter parking services, and general administrative services.

The government-wide financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The more significant of the City's accounting policies established in GAAP and used by the City are described below.

REPORTING ENTITY

The City's financial reporting entity comprises the following:

Primary Government:

City of West Chicago

In determining the financial reporting entity, the City complies with the provisions of GASB Statement No. 61, "The Financial Reporting Omnibus – an Amendment of GASB Statements No. 14 and No. 34," and includes all component units that have a significant operational or financial relationship with the City. Based upon the criteria set forth in the GASB Statement No. 61, there are no component units included in the reporting entity.

Police Pension Employees Retirement System

The City's sworn police employees participate in the Police Pension Employees Retirement System (PPERS). PPERS functions for the benefit of these employees and is governed by a five-member pension board. Two members appointed by the City's Mayor, one elected pension beneficiary and two elected police employees constitute the Pension Board. The participants are required to contribute a percentage of salary as established by state statute and the City is obligated to fund all remaining PPERS costs based upon actuarial valuations. The State of Illinois is authorized to establish benefit levels and the City is authorized to approve the actuarial assumptions used in the determination of contribution levels. Although it is legally separate from the City, the PPERS is reported as if it were part of the primary government because its sole purpose is to provide retirement benefits for the City's police employees. The PPERS is reported as a fiduciary fund, and specifically a pension trust fund, due to the fiduciary responsibility exercised over the PPERS.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION

Government-Wide Statements

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business-type. The City's police, highway and street maintenance and reconstruction, forestry, building, code enforcement, public improvements, economic development, planning and zoning, and general administrative services are classified as governmental activities. The City's water, sewer and parking services are classified as business-type activities.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are: (a) presented on a consolidated basis by column; and (b) reported on a full accrual, economic resource basis, which recognizes all long-term assets/deferred outflows and receivables as well as long-term debt/deferred inflows and obligations. The City's net position is reported in three parts: net investment in capital assets; restricted; and unrestricted. The City first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the City's functions and business-type activities (general government, public safety, water, sewer, etc.). The functions are supported by general government revenues (property, sales and use taxes, certain intergovernmental revenues, fines, permits and charges, etc.). The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, which include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

The net costs (by function or business-type activity) are normally covered by general revenue (property tax, sales tax, intergovernmental revenues, interest income, etc.).

The City allocates indirect costs paid from the General Fund to other funds for personnel who perform administrative services for those funds, along with other indirect costs deemed necessary for their operations.

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprises its assets/deferred outflows, liabilities/deferred inflows, fund equity, revenues and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories.

GASB Statement No. 34 sets forth minimum criteria (percentage of the assets/deferred outflows, liabilities/deferred inflows, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds. The City can electively add funds, as major funds, which either have debt outstanding or specific community focus. The nonmajor funds are combined in a column in the fund financial statements. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type.

Total assets/deferred outflows, liabilities/deferred inflows, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The various funds are reported by generic classification within the financial statements. The following fund types are used by the City:

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements – Continued

Governmental Funds

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

General fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund. The General Fund is a major fund.

Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. The City maintains two major and two nonmajor special revenue funds. The two major funds are the Public Benefit Fund, which accounts for the accumulation of restricted funds from Kerr McGee to fund projects that meet the criteria detailed in the City Code, and the TIF Special Tax Allocation #1 Fund, which accounts for the accumulation of funds from restricted incremental tax revenue generated within the TIF #1 area.

Debt service funds are used to account for the accumulation of funds for the periodic payment of principal and interest on general long-term debt. The City does not currently utilize debt service funds.

Capital projects funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by business-type/proprietary funds). The City maintains one major and one nonmajor capital projects fund. The Capital Improvement Fund, the major fund, accounts for natural gas use taxes and a one percent home rule sales tax that are set aside for funding major capital improvements throughout the City.

Proprietary Funds

The focus of proprietary fund measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the proprietary funds of the City:

Enterprise funds are required to account for operations for which a fee is charged to external users for goods or services and the activity (a) is financed with debt that is solely secured by a pledge of the net revenues, (b) has third party requirements that the cost of providing services, including capital costs, be recovered with fees and charges, or (c) establishes fees and charges based on a pricing policy designed to recover similar costs.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

BASIS OF PRESENTATION – Continued

Fund Financial Statements – Continued

Proprietary Funds – Continued

Enterprise funds – Continued. The City maintains two major and one nonmajor enterprise funds; the major funds are the Waterworks and the Sewerage Funds. The Waterworks Fund is used to account for the provision of potable water services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection. The Sewerage Fund is used to account for the provision of wastewater treatment and collection services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support City programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds.

Pension trust funds are used to account for assets held in a trustee capacity for pension benefit payments. The Police Pension Fund accounts for the accumulation of resources to be used for disability and retirement annuity payments to employees covered by the plan.

The City's fiduciary funds are presented in the fiduciary fund financial statements by type (pension trust and agency). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, pension participants, etc.) and cannot be used to address activities or obligations of the City, these funds are not incorporated into the government-wide statements.

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING

Measurement Focus

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING – Continued

Measurement Focus - Continued

On the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus as defined below.

In the fund financial statements, the "current financial resources" measurement focus or the "economic resources" measurement focus is used as appropriate.

All governmental funds utilize a "current financial resources" measurement focus. Only current financial assets/deferred outflows and liabilities/deferred inflows are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.

All proprietary and pension trust funds utilize an "economic resources" measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets/deferred outflows and liabilities/deferred inflows (whether current or noncurrent) associated with their activities are reported. Proprietary and pension trust fund equity is classified as net position.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability/deferred inflow is incurred or economic asset is used. Revenues, expenses, gains, losses, assets/deferred outflows, and liabilities/deferred inflows resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when "measurable and available." Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year-end. The City recognizes property taxes when they become both measurable and available in accordance with GASB Codification Section P70.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

MEASUREMENT FOCUS AND BASIS OF ACCOUNTING - Continued

Basis of Accounting – Continued

A sixty-day availability period is used for revenue recognition for all other governmental fund revenues. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are recognized when due.

In applying the susceptible to accrual concept under the modified accrual basis, those revenues susceptible to accrual are property taxes, sales and use taxes, franchise fees, interest revenue, and charges for services. All other revenues are not susceptible to accrual because generally they are not measurable until received in cash.

All proprietary and pension trust utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. The City also recognizes as operating revenue the portion of tap on fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY

Cash and Investments

Cash and cash equivalents on the Statement of Net Position are considered to be cash on hand, demand deposits, and cash with fiscal agent. For the purpose of the proprietary funds "Statement of Cash Flows," cash and cash equivalents are considered to be cash on hand, demand deposits, cash with fiscal agent, and all highly liquid investments with an original maturity of three months or less.

Investments are generally reported at fair value. Short-term investments are reported at cost, which approximates fair value. For investments, the City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Receivables

In the government-wide financial statements, receivables consist of all revenues earned at year-end and not yet received. Allowances for uncollectible accounts receivable are based upon historical trends and the periodic aging of accounts receivable. Major receivable balances for governmental activities include property taxes, sales and use taxes, franchise fees, and grants. Business-type activities report utility charges as their major receivables.

Interfund Receivables, Payables and Activity

Interfund activity is reported as loans, services provided, reimbursements or transfers. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Prepaids/Inventories

Prepaids/inventories are valued at cost, which approximates market, using the first-in/first-out (FIFO) method. The costs of governmental fund-type prepaids/inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaids in both the government-wide and fund financial statements.

Capital Assets

Capital assets purchased or acquired with an original cost of \$10,000 - \$30,000 or more, depending on asset class, are reported at historical cost or estimated historical cost. Contributed assets are reported at acquisition value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Capital Assets - Continued

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. General capital assets are long-lived assets of the City as a whole. Infrastructure such as streets and traffic signals are capitalized. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement costs.

Capital assets in the proprietary funds are capitalized in the fund in which they are utilized. The valuation bases for proprietary fund capital assets are the same as those used for the general capital assets. Donated capital assets are capitalized at estimated fair market value on the date donated.

Depreciation on all assets is computed and recorded using the straight-line method of depreciation over the following estimated useful lives:

Land Improvements	20 Years
Buildings and Improvements	50 Years
Machinery and Equipment	5 - 15 Years
Infrastructure	65 Years

Deferred Outflows/Inflows of Resources

Deferred outflow/inflow of resources represents an acquisition/reduction of net position that applies to a future period and therefore will not be recognized as an outflow of resources (expense)/inflow of resources (revenue) until that future time.

Compensated Absences

The City accrues accumulated unpaid vacation and associated employee-related costs when earned (or estimated to be earned) by the employee. In accordance with GASB Statement No. 16, no liability is recorded for nonvesting accumulation rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave that is estimated to be taken as "terminal leave" prior to retirement.

All vacation pay is accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Notes to the Financial Statements December 31, 2019

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – Continued

ASSETS/DEFERRED OUTFLOWS, LIABILITIES/DEFERRED INFLOWS, AND NET POSITION OR EQUITY – Continued

Long-Term Obligations

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenses at the time of issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Net Position

In the government-wide financial statements, equity is classified as net position and displayed in three components:

Net Investment in Capital Assets – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.

Restricted – Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislations.

Unrestricted – All other net position balances that do not meet the definition of "restricted" or "net investment in capital assets".

Notes to the Financial Statements December 31, 2019

NOTE 2 – STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

BUDGETARY INFORMATION

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriations are adopted for the general, special revenue (except for the TIF Special Tax Allocation #3 Fund), capital projects, and enterprise funds. All annual appropriations lapse at fiscal year end.

All departments of the City submit requests for appropriation to the City Administrator so that a budget may be prepared. The budget is prepared by fund, function, and activity, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

The proposed budget is presented to the governing body for review. The governing body holds a public hearing and may add to, subtract from, or change appropriations, but may not change the form of the budget.

The Budget Officer is authorized to transfer budgeted amounts between departments and line items within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the City Council. Expenditures may not legally exceed budgeted appropriations at the fund level. During the year, three supplementary appropriations were approved.

NOTE 3 – DETAIL NOTES ON ALL FUNDS

DEPOSITS AND INVESTMENTS

The City maintains a cash and investment pool that is available for use by all funds except the pension trust fund. Each fund type's portion of this pool is displayed on the financial statements as "cash and investments". In addition, investments are separately held by several of the City's funds. The deposits and investments of the pension trust fund are held separately from those of other funds.

Permitted Deposits and Investments – Statutes authorize the City to make deposits/invest in commercial banks, savings and loan institutions, obligations of the U.S. Treasury and U.S. Agencies, obligations of States and their political subdivisions, credit union shares, repurchase agreements, commercial paper rated within the three highest classifications by at least two standard rating services, Illinois Funds and the Illinois Metropolitan Investment Fund.

Illinois Funds is an investment pool managed by the Illinois Public Treasurer's Office which allows governments within the State to pool their funds for investment purposes. The Illinois Funds is not registered with the SEC as an investment company. Investments in Illinois Funds are valued at the share price, the price for which the investment could be sold.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

The Illinois Metropolitan Investment Fund (IMET) is a non-for-profit investment trust formed pursuant to the Illinois Municipal Code. IMET is managed by a Board of Trustees elected from the participating members. IMET is not registered with the SEC as an Investment Company. Investments in IMET are valued at the share price, the price for which the investment could be sold.

The deposits and investments of the Pension Fund are held separately from those of other City funds. Statutes authorize the Pension Fund to make deposits/invest in interest bearing direct obligations of the United States of America; obligations that are fully guaranteed or insured as to the payment of principal and interest by the United States of America; bonds, notes, debentures, or similar obligations of agencies of the United States of America; savings accounts or certificates of deposit issued by banks or savings and loan associations chartered by the United States of America or by the State of Illinois, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; credit unions, to the extent that the deposits are insured by the agencies or instrumentalities of the federal government; State of Illinois bonds; pooled accounts managed by the Illinois Funds Market Fund (formerly known as IPTIP, Illinois Public Treasurer's Investment Pool), or by banks, their subsidiaries or holding companies, in accordance with the laws of the State of Illinois; bonds or tax anticipation warrants of any county, township, or municipal corporation of the State of Illinois; direct obligations of the State of Israel; money market mutual funds managed by investment companies that are registered under the Federal Investment Company Act of 1940 and the Illinois Securities Law of 1953 and are diversified, open-ended management investment companies, provided the portfolio is limited to specified restrictions; general accounts of life insurance companies; and separate accounts of life insurance companies and mutual funds, the mutual funds must meet specific restrictions, provided the investment in separate accounts and mutual funds does not exceed ten percent of the Pension Fund's plan net position; and corporate bonds managed through an investment advisor, rated as investment grade by one of the two largest rating services at the time of purchase. Pension Funds with plan net position of \$2.5 million or more may invest up to forty-five percent of plan net position in separate accounts of life insurance companies and mutual funds. Pension Funds with plan net position of at least \$5 million that have appointed an investment advisor, may through that investment advisor invest up to forty-five percent of the plan net position in common and preferred stocks that meet specific restrictions. In addition, Pension Funds with plan net position of at least \$10 million that have appointed an investment advisor, may invest up to fifty percent of its net position in common and preferred stocks and mutual funds that meet specific restrictions effective July 1, 2011 and up to fifty-five percent effective July 1, 2012.

City Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits and Investments. At year-end, the carrying amount of the City's deposits for governmental and business-type activities totaled \$2,842,830 and the bank balances totaled \$2,961,621. Additionally, at year-end the City has \$574,016 invested in the Illinois Funds and \$40,408 invested in the Illinois Metropolitan Investment Fund, which are both measured at net asset value per share as determined by the pool.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

City Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk - Continued

Interest Rate Risk. Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The City's investment policy states that the investment portfolio shall remain sufficiently liquid to enable the City to meet all operating requirements which may be reasonably anticipated in any City Fund. The average maturity for the Illinois Funds is less than one year and the Illinois Metropolitan Investment Fund is less than one year to three years.

Credit Risk. Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Besides investing in instruments authorized under State Statute, the City's investment policy does not further limit investment choices. The City limits its exposure to credit risk by primarily investing in Illinois Funds which were rated AAAm by Standard & Poor's, in Illinois Metropolitan Investment Trust Convenience Fund which is not rated, and in the Illinois Metropolitan Investment Trust 1-3 Year Fund that is rated Aaa by Moody's.

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. To limit its exposure, the City's investment policy states funds on deposit in excess of FDIC or Federal Savings and Loan Insurance Corporation limits must be secured by collateral. Acceptable collateral shall consist of any of the following: U.S. Government Securities, obligations of Federal Agencies, obligations of the State of Illinois, general obligations of Municipal Bonds rated "A" or better, and any other collateral identified by the Illinois State Statutes as acceptable for use by the Treasurer of the State of Illinois. At year-end, the entire amount of the bank balance of deposits was covered by collateral, federal depository or equivalent insurance. In the case of investments, this is the risk that, in the event of the failure of the counterparty, the City will not be able to recover the value of its investments or collateral. The City's investment policy does not specifically address custodial credit risk for investments. At year-end, the City's investment in the Illinois Funds and the Illinois Metropolitan Investment Trust are not subject to custodial credit risk.

Concentration of Credit Risk. This is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City's investment policy states that the investment portfolio of the City shall not exceed the following limits:

- No financial institution shall hold more than 40% of the portfolio. This shall not include United States of America Securities held in safekeeping
- The Illinois Investment Pool shall not exceed 80% of the portfolio

At year-end, the City does not have any investments over 5 percent of cash and investments (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Police Pension Fund Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk

Deposits. At year-end, the carrying amount of the Police Pension Fund's deposits totaled \$765,102 and the bank balances totaled \$829,452. In addition, the Pension Fund has \$19,582,996 invested in money market mutual funds at year end.

Investments. The fair value and maturities of the Fund's investments at year-end are as follows:

			Investment Maturities (in Years)				
	Fair		Less Than				Greater
Investment Type	Value		1	1 to 5	6 to 10		Than 10
U.S. Treasuries	\$ 1,289,02	7 \$	299,770	\$ 681,866	\$ 307,391	\$	-
U.S. Agencies	7,838,06	5	140,198	1,419,444	6,171,405		107,019
Corporate Bonds	1,954,55	7	50,219	758,184	1,146,154		-
Municipal Bonds	1,591,82	7	149,983	931,657	410,451		99,736
	\$ 12,673,47	7 \$	640,170	\$ 3,791,151	\$ 8,035,401	\$	206,755

The Fund has the following recurring fair value measurements as of December 31, 2019:

		Fair Value Measurements Using			Jsing		
			Quoted				
			Prices				
			in Active		Significant		
			Markets for		Other		Significant
			Indentical		Observable		Unobservable

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Police Pension Fund Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk - Continued

Investments – Continued. Debt Securities classified in Level 2 of the fair value hierarchy are valued using a matrix pricing technique. Matrix pricing is used to value securities based on the securities' relationship to benchmark quoted prices.

Interest Rate Risk. In accordance with the Fund's investment policy, the Fund limits its exposure to interest rate risk by structuring the portfolio to provide liquidity while at the same time matching investments with anticipated cash flow requirements.

Credit Risk. The Fund helps limit its exposure to credit risk by primarily investing in securities issued by the United States Government and/or its agencies that are implicitly guaranteed by the United States Government. The Pension Fund's investment policy establishes criteria for allowable investments; those criteria follow the requirements of the Illinois Pension Code. The investments in the securities of the U.S. Government agencies were not rated. Corporate bonds were rated A3 to Aaa by Moody's Investor Services. Municipal bonds were rated AAA to Aaa by Standard & Poor's and Moody's Investor Services.

Custodial Credit Risk. At December 31, 2019, all of the Pension Fund's deposits were covered by federal depository or equivalent insurance. The Pension Fund's investment policy states security shall be held with a third-party custodian and all securities purchased by, and all collateral obtained by, the Board should be properly designated as an asset of the Board. No withdrawal of securities, in whole or in part, shall be made from safekeeping except by an authorized member of the Board or the Board's designee. The Pension Fund will accept any of the following assets as collateral: government securities, obligations of Federal Agencies, obligations of Federal Instrumentalities, and obligations of the State of Illinois. Securities transactions between a broker/dealer and the third-party custodian involving a purchase or sale of securities by transfer of money or securities must be made on a "delivery versus payment" basis, if applicable, to insure that the third party custodian will have the security or money, as appropriate, in hand at the conclusion of the transaction.

Concentration Credit Risk. At December 31, 2019, the Pension Fund does not have any investments over 5 percent of net position available for benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments). Agency investments represent a large portion of the portfolio; however, the investments are diversified by maturity date and as mentioned earlier are backed by the issuing organization. Although unlike Treasuries, agency securities do not have the "full faith and credit" backing of the U.S. Government, they are considered to have a moral obligation of implicit backing and are supported by Treasury lines of credit and increasingly stringent federal regulation. In order to reduce the risk of default, the investment portfolio of the Pension Fund shall not exceed the following diversification limits unless specifically authorized by the Board of Trustees:

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

DEPOSITS AND INVESTMENTS – Continued

Police Pension Fund Interest Rate Risk, Credit Risk, Custodial Credit Risk and Concentration Risk - Continued

Concentration Credit Risk – Continued.

- Exposure of the portfolio to any one corporate issuer, other than securities of the United States Government or agencies, shall not exceed 3% of the market value of the fixed income portfolio
- Holdings in individual issuers shall be large enough for easy liquidation
- The fixed income portfolio may be invested in securities with a maturity up to thirty (30) years, so long as the average effective duration of the portfolio will not exceed 125% of the duration of the Lehman Corporate Government Bond Index, A Rated and Above Bond Index duration
- No more than 5% of the Fund assets shall be invested in the common stock or capital stock of any one issuing company nor shall the aggregate investment in any one issuing company exceed 5% of the outstanding capital stock of the company

The Fund's investment policy in accordance with Illinois Compiled Statutes (ILCS) establishes the following target allocation across asset classes:

		Long-Term
		Expected Real
Asset Class	Target	Rate of Return
Fixed Income	45.00%	1.40%
Domestic Equities	11% - 38.50%	6.20% - 8.00%
International Equities	5.50%	6.90%
Cash and Cash Equivalents	0.00%	0.00%

Illinois Compiled Statutes (ILCS) limit the Fund's investments in equities, mutual funds and variable annuities to 65%.

The long-term expected rate of return on the Fund's investments was determined using an asset allocation study conducted by the Fund's investment management consultant in April 2020 in which best-estimate ranges of expected future real rates of return (net of pension plan investment expense and inflation) were developed for each major asset class. These ranges were combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding the expected inflation. Best estimates or arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2019 are listed in the table above.

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS

Interfund Balances

Interfund balances are advances to cover cash shortages. The composition of interfund balances as of the date of this report, is as follows:

Receivable Fund	Payable Fund	Amount
General	Waterworks	\$ 11,069,570
General	Sewerage	3,509,806
TIF Special Tax Allcoation #1	Sewerage	1,000,000
Capital Improvement	Sewerage	3,000,000
		\$ 18,579,376

Interfund Advances

Interfund advances as of the date of this report are as follows:

Receivable Fund	Payable Fund	Amount
Public Benefit Sewerage	TIF Special Tax Allocation #1 Waterworks	\$ 159,781 1,850,000
-		\$ 2,009,781

The interfund advance from the Public Benefit Fund is for the purchase of properties within the TIF District as part of future land improvement programs. A total of up to \$1.5 million dollars was approved by the City Council for lending to the TIF District for this purpose in lieu of selling additional bonds at a higher interest rate. The amounts will be repaid, with accrued interest, as part of the agreement over the remaining years of the TIF District. The interfund advance from the Sewerage Fund was for the payoff of the Waterworks General Obligation Alternate Revenue Source Bonds of 2002. The amounts will be repaid, with accrued interest.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

INTERFUND RECEIVABLES, PAYABLES AND TRANSFERS - Continued

Interfund Transfers

Transfers are used to move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them.

Transfer In	Transfer Out	Amount
Capital Improvement	General	\$ 500,000

PROPERTY TAXES

Property taxes for 2018 attach as an enforceable lien on January 1, on property values assessed as of the same date. Taxes are levied by December of the subsequent fiscal year (by passage of a Tax Levy Ordinance). Tax bills are prepared by DuPage County and are payable in two installments, on or about June 1 and September 1. The County collects such taxes and remits them periodically.

LONG-TERM DEBT

IEPA Revolving Loan

The City has entered into an agreement with the IEPA to provide low interest financing for waterworks improvements. The IEPA revolving loan currently outstanding is as follows:

Issue	Fund Debt Retired By	Beginning Balances	Issuances	Retirements	Ending Balances
IEPA Waterworks Revolving Loan (\$11,000,000), due in semi- annual installments of \$353,428, including interest at 2.57% through September 9, 2024.	Waterworks	\$ 3,907,155	٥	\$ 610.339	\$ 3,296,816

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

LONG-TERM DEBT – Continued

Long-Term Liability Activity

Changes in long-term liabilities during the fiscal year were as follows:

	Beginning			Ending	Amounts Due within
Type of Debt	Balances	Additions	Deductions	Balances	One Year
Governmental Activities Compensated Absences	\$ 1,604,193	\$ 333,182	\$ 166,591 \$	1,770,784	\$ 354,157

	φ 0,091,009	φ 444,004	φ 4,319,011	φ 0,594,002	φ 036,000

For governmental activities, the General Fund and makes payments on the net pension liabilities, the total OPEB liability, and the compensated absences. For business-type activities, the Waterworks Fund makes payments on the IEPA revolving loan. The compensated absences, the net pension liability, and the total OPEB liability are liquidated from the Waterworks and Sewerage Funds.

Line of Credit

The City has a \$3,500,000 line of credit with Fifth Third Bank maturing on November 1, 2020. Interest on the line of credit is payable at a floating rate of 30-day LIBOR + .75%. The line of credit is secured by a general obligation pledge. At December 31, 2019, the balance is \$0 as the City has not drawn on the line of credit.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

LONG-TERM DEBT – Continued

Noncommitment Debt

Special Service Area Bonds

Special service area bonds have been paid in full as of the date of this report. These bonds are not an obligation of the government and are secured by the levy of an annual tax on the real property within the special service area. The government is in no way liable for repayment but is only acting as agent for the property owners in levying and collecting the tax, and forwarding the collections to bondholders.

Industrial Development Revenue Bonds

The City has issued Industrial Development Revenue Bonds (IDRB) to provide financial assistance to private organizations for the construction and acquisition of industrial and commercial facilities deemed to be in the public interest and to provide financing for low interest mortgages to qualified applicants. The bonds are secured solely by the property or mortgages financed and are payable solely from the payments received on the underlying mortgage loans on the property. The City is not obligated in any manner for the repayment of the bonds. Accordingly, the bonds outstanding are not recorded as a liability in these financial statements. As of December 31, 2019, the IDRB bonds matured resulting in an outstanding balance of \$0.

Debt Service Requirements to Maturity

The annual debt service requirements to maturity, including principal and interest, are as follows:

Business-Type Activities								
	IEPA Revolving

LONG-TERM DEBT – Continued

Legal Debt Margin

Article VII, Section 6(k) of the 1970 Illinois Constitution governs the computation of legal debt margin.

"The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property...(2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent:...indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum...shall not be included in the foregoing percentage amounts."

To date the Illinois General Assembly has set no limits for home rule municipalities. The City is a home rule municipality.

NET POSITION CLASSIFICATIONS

Net investment in capital assets was comprised of the following as of December 31, 2019:

Governmental Activities Capital Assets - Net of Accumulated Depreciation	\$ 54	4,970,284
Business-Type Activities		
Capital Assets - Net of Accumulated Depreciation	98	8,828,924
Less Capital Related Debt:		
IEPA Revolving Loan	(3,296,816)
Net Investment in Capital Assets	\$ 93	5,532,108

FUND BALANCE CLASSIFICATIONS

In the governmental funds financial statements, the City considers restricted amounts to have been spent when an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available. The City first utilizes committed, then assigned and then unassigned fund balance when an expenditure is incurred for purposes for which all three unrestricted fund balances are available.

Minimum Fund Balance Policy. The City's budget policy states that General Fund should maintain a minimum fund balance equal to 25% of current budget projected revenue, with a target goal to increase the amount to 35%.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

FUND BALANCE CLASSIFICATIONS – Continued

Nonspendable Fund Balance. Consists of resources that cannot be spent because they are either: a) not in a spendable form; or b) legally or contractually required to be maintained intact.

Restricted Fund Balance. Consists of resources that are restricted to specific purposes, that is, when constraints placed on the use of resources are either: a) externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislation.

Committed Fund Balance. Consists of resources constrained (issuance of an ordinance) to specific purposes by the government itself, using its highest level of decision-making authority, the City Council; to be reported as committed, amounts cannot be used for any other purpose unless the government takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance. Consists of amounts that are constrained by the City Council's intent to be used for specific purposes but are neither restricted nor committed. Intent is expressed by: a) the City Council itself; or b) a body or official to which the City Council has delegated the authority to assign amounts to be used for specific purposes. The City's highest level of decision-making authority is the City Council, who is authorized to assign amounts to a specific purpose.

Notes to the Financial Statements December 31, 2019

NOTE 3 – DETAIL NOTES ON ALL FUNDS – Continued

FUND BALANCE CLASSIFICATIONS - Continued

Unassigned Fund Balance. Consists of residual net resources of a fund that has not been restricted, committed, or assigned within the General Fund and deficit fund balances of other governmental funds.

NOTE 4 – OTHER INFORMATION

RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; natural disasters; and injuries to the City's employees. These risks are provided for through participation in the Intergovernmental Risk Management Agency (IRMA) and private insurance coverage. The City has purchased insurance from private insurance companies, covered risks included medical, dental, life, and other. Premiums have been displayed as expenditures/expenses in appropriate funds. There were no significant changes in insurance coverage from the prior year and settlements did not exceed insurance coverage in any of the past three fiscal years.

IRMA is an organization of municipalities and special districts in Northeastern Illinois which have formed an association under the Illinois Intergovernmental Cooperation's Statute to pool their risk management needs. The agency administers a mix of self-insurance and commercial insurance coverages; property/casualty and workers' compensation claim administration/litigation management services; unemployment claim administration; extensive risk management/loss control consulting and training programs; and a risk information system and financial reporting service for its members.

The City's payments to IRMA are displayed on the financial statements as expenditures/expenses in appropriate funds. The City assumes the first \$2,500 of each occurrence, and IRMA has a mix of self-insurance and commercial insurance at various amounts above that level. Each member appoints one delegate, along with an alternate delegate, to represent the member on the Board of Directors. The City does not exercise any control over the activities of the Agency beyond its representation on the Board of Directors. Initial contributions are determined each year based on the individual members' eligible revenue as defined in the by-laws of IRMA and experience modification factors based on past member loss experience. Members have a contractual obligation to fund any deficit of IRMA attributable to a membership year during which they were a member. Supplemental contributions may be required to fund these deficits.

Notes to the Financial Statements December 31, 2019

NOTE 4 – OTHER INFORMATION – Continued

CONTINGENT LIABILITIES

Litigation

The City is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the City's attorneys, the resolution of these matters will not have a material adverse effect on the financial condition of the City.

Grants

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS

The City contributes to two defined benefit pension plans, the Illinois Municipal Retirement Fund (IMRF), a defined benefit agent multiple-employer public employee retirement system; and the Police Pension Plan that is a single-employer pension plan. Separate, audited GAAP-basis financial statements for the Police Pension Plan can be obtained from the Treasurer of the Police Pension Plan at 475 Main Street, West Chicago, IL 60185. IMRF does issue a publicly available financial report that includes financial statements and required supplementary information for the plan as a whole, but not by individual employer. That report may be obtained online at www.imrf.org. The benefit, benefit levels, employee contributions, and employer contributions are governed by Illinois Compiled Statutes (ILCS) and can only be amended by the Illinois General Assembly.

The aggregate amount of pension expense recognized for the two pension plans is:

	Expenses (Revenues)	Net Pension Liabilities	Deferred Outflows	Deferred Inflows
IMRF Police Pension	695,801 4,403,149	2,016,073 34,374,981	546,051 10,386,618	2,047,244 3,742,211
	5,098,950	56,346,067	10,295,793	(8,597,521)

Notes to the Financial Statements December 31, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

Illinois Municipal Retirement Fund (IMRF)

Plan Descriptions

Plan Administration. All employees (other than those covered by the Police Pension Plan) hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. The plan is accounted for on the economic resources measurement focus and the accrual basis of accounting. Employer and employee contributions are recognized when earned in the year that the contributions are required; benefits and refunds are recognized as an expense and liability when due and payable.

Benefits Provided. IMRF has three benefit plans. The vast majority of IMRF members participate in the Regular Plan (RP). The Sheriff's Law Enforcement Personnel (SLEP) plan is for sheriffs, deputy sheriffs, and selected police chiefs. Counties could adopt the Elected County Official (ECO) plan for officials elected prior to August 8, 2011 (the ECO plan was closed to new participants after that date).

IMRF provides two tiers of pension benefits. Employees hired *before* January 1, 2011, are eligible for Tier 1 benefits. Tier 1 employees are vested for pension benefits when they have at least eight years of qualifying service credit. Tier 1 employees who retire at age 55 (at reduced benefits) or after age 60 (at full benefits) with eight years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under Tier 1, the pension is increased by 3% of the original amount on January 1 every year after retirement.

Employees hired *on or after* January 1, 2011, are eligible for Tier 2 benefits. For Tier 2 employees, pension benefits vest after ten years of service. Participating employees who retire at age 62 (at reduced benefits) or after age 67 (at full benefits) with ten years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under Tier 2, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of:

- 3% of the original pension amount; or
- 1/2 of the increase in the Consumer Price Index of the original pension amount.

Notes to the Financial Statements December 31, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Illinois Municipal Retirement Fund (IMRF) - Continued

Plan Descriptions – Continued

Plan Membership. As of December 31, 2019, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	102
Inactive Plan Members Entitled to but not yet Receiving Benefits	55
Active Plan Members	68
True!	225
Total	225

Contributions. As set by statute, the City's Regular Plan Members are required to contribute 4.5% of their annual covered salary. The statute requires employers to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. For the year-ended December 31, 2019, the City's contribution was 9.40% of covered payroll.

Net Pension Liability. The City's net pension liability was measured as of December 31, 2019. The total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions. The total pension liability was determined by an actuarial valuation performed, as of December 31, 2019, using the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Market
Actuarial Assumptions Interest Rate	7.25%
Salary Increases	3.35% to 14.25%
Cost of Living Adjustments	2.50%
Inflation	2.50%

Notes to the Financial Statements December 31, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM - DEFINED BENEFIT PENSION PLANS - Continued

Illinois Municipal Retirement Fund (IMRF) – Continued

Plan Descriptions – Continued

Actuarial Assumptions – Continued. For non-disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Blue Collar Health Annuitant Mortality Table with adjustments to match current IMRF experience. For disabled retirees, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Disabled Retirees Mortality Table applying the same adjustment that were applied for non-disabled lives. For active members, an IMRF specific mortality table was used with fully generational projection scale MP-2017 (base year 2015). The IMRF specific rates were developed from the RP-2014 Employee Mortality Table with adjustments to match current IMRF experience.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

	Long-Term
	Expected Real
Target	Rate of Return
28.00%	3.25%
37.00%	5.75%
18.00%	6.50%
9.00%	5.20%
7.00%	3.60% - 7.60%
1.00%	1.85%
	28.00% 37.00% 18.00% 9.00% 7.00%

Discount Rate

The discount rate used to measure the total pension liability was 7.25%, the same as in prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that City contributions will be made at rates equal to the difference between the actuarially determined contribution rates and the member rate. Based on those assumptions, the Fund's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability.

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

Police Pension Plan

Plan Descriptions

Plan Administration. The Police Pension Plan is a single-employer defined benefit pension plan that covers all sworn police personnel. The defined benefits and employee and minimum employer contribution levels are governed by Illinois Compiled Statutes (40 ILCS 5/3-1) and may be amended only by the Illinois legislature. The City accounts for the Fund as a pension trust fund. The Fund is governed by a five-member pension board. Two members of the Board are appointed by the City Mayor, one member is elected by pension beneficiaries and two members are elected by active police members.

Plan Membership. At December 31, 2019, the measurement date, membership consisted of the following:

Inactive Plan Members Currently Receiving Benefits	31
Inactive Plan Members Entitled to but not yet Receiving Benefits	4
Active Plan Members	43
Total	78

Benefits Provided. The following is a summary of the Police Pension Plan as provided for in Illinois State Statutes.

The Police Pension Plan provides retirement benefits through two tiers of benefits as well as death and disability benefits. Covered employees hired before January 1, 2011 (Tier 1), attaining the age of 50 or older with 20 or more years of creditable service are entitled to receive an annual retirement benefit of ½ of the salary attached to the rank held on the last day of service, or for one year prior to the last day, whichever is greater. The annual benefit shall be increased by 2.5 percent of such salary for each additional year of service over 20 years up to 30 years, to a maximum of 75 percent of such salary. Employees with at least eight years but less than 20 years of credited service may retire at or after age 60 and receive a reduced benefit. The monthly benefit of a police officer who retired with 20 or more years of service after January 1, 1977 shall be increased annually, following the first anniversary date of retirement and be paid upon reaching the age of at least 55 years, by 3 percent of the original pension and 3 percent compounded annually thereafter.

Notes to the Financial Statements December 31, 2019

NOTE 4 – OTHER INFORMATION – Continued

EMPLOYEE RETIREMENT SYSTEM – DEFINED BENEFIT PENSION PLANS – Continued

Police Pension Plan - Continued

Plan Descriptions – Continued

Benefits Provided – Continued. Covered employees hired on or after January 1, 2011 (Tier 2), attaining the age of 55 or older with 10 or more years of creditable service are entitled to receive an annual retirement benefit equal to the average monthly salary obtained by dividing the total salary of the police officer during the 96 consecutive months of service within the last 120 months of service in which the total salary was the highest by the number of months of service in that period. Police officer salary for the pension purposes is capped at \$106,800, plus the lesser of ½ of the annual change in the Consumer Price Index or 3 percent compounded. The annual benefit shall be increased by 2.5 percent of such a salary for each additional year of service over 20 years up to 30 years to a maximum of 75 percent of such salary. Employees with at least 10 years may retire at or after age 50 and receive a reduced benefit (i.e., ½ percent for each month under 55). The monthly benefit of a Tier 2 police officer shall be increased annually at age 60 on the January 1st after the police officer retires, or the first anniversary of the pension starting date, whichever is later. Noncompounding increases occur annually, each January thereafter. The increase is the lesser of 3 percent of ½ of the change in the Consumer Price Index for the proceeding calendar year.

Contributions. Covered employees are required to contribute 9.91% of their base salary to the Police Pension Plan. If an employee leaves covered employment with less than 20 years of service, accumulated employee contributions may be refunded without accumulated interest. The City is required to contribute the remaining amounts necessary to finance the plan and the administrative costs as actuarially determined by an enrolled actuary. However, effective January 1, 2011, ILCS requires the City to contribute a minimum amount annually calculated using the projected unit credit actuarial cost method that will result in the funding of 90% of the past service cost by the year 2040. For the year-ended December 31, 2019, the City's contribution was 43.77% of covered payroll.

Concentrations. At December 31, 2019, the Pension Fund does not have any investments over 5 percent of net position available for benefits (other than investments issued or explicitly guaranteed by the U.S. government and investments in mutual funds, external investment pools, and other pooled investments).

Notes to the Financial Statements December 31, 2019

Police Pension Plan – Continued

Actuarial Assumptions

The total pension liability was determined by an actuarial valuation performed, as of December 31, 2019, using the following actuarial methods and assumptions:

Entry Age

Actuarial Cost Method

Actuariai Cost Method	Normal
Asset Valuation Method	Market
Actuarial Assumptions Interest Rate	6.50%
Salary Increases	3.50% - 8.25%
Cost of Living Adjustments	3.50%
Inflation	2.50%

Mortality rates were based on Pub-2010 adjusted for Plan Status, Demographics, and Illinois Public Pension Data.

Discount Rate

A Single Discount Rate of 5.60% was used to measure the total pension liability, while the prior year used 6.20%. The projection of cash flow used to determine this Single Discount Rate assumed that the plan members' contributions will be made at the current contribution rate, and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. The Single Discount Rate reflects:

- 1. The long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits); and
- 2. The tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating (which is published by the Federal Reserve) as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of the most recent valuation, the expected rate of return on plan investments is 6.50%, the municipal bond rate is 2.74%, and the resulting Single Discount Rate is 5.60%.

OTHER POST-EMPLOYMENT BENEFITS

General Information about the OPEB Plan

Plan Description. The City's defined benefit OPEB plan, Retiree Benefits Plan (RBP), provides OPEB for eligible permanent full-time general and public safety employees of the City. RBP is a single-employer defined benefit OPEB plan administered by the City. Article 11 of the State Compiled Statutes grants the authority to establish and amend the benefit terms and financing requirements to the City Council. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Benefits Provided. RBP provides healthcare insurance coverage and benefits for eligible retirees and their dependents. The premium cost terms provide for payment of 100 percent of health insurance premiums for non-Medicare-eligible retirees and 100 percent of health insurance premiums for Medicare-eligible retirees paid by retirees.

Plan Membership. As of December 31, 2019, the measurement date, the following employees were covered by the benefit terms:

Inactive Plan Members Currently Receiving Benefits	12
Inactive Plan Members Entitled to but not yet Receiving Benefits	-
Active Plan Members	73
Total	85

Total OPEB Liability

The City's total OPEB liability was measured as of December 31, 2019, and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and Other Inputs. The total OPEB liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Notes to the Financial Statements December 31, 2019

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2019, the City recognized OPEB expense of \$358,475. Per GASB Statement No. 75, under the Alternative Measurement Method, changes in Total OPEB Liability are immediately recognized as expense, resulting in no deferred outflows of resources or deferred inflows of resources related to OPEB.

SUBSEQUENT EVENT

Subsequent to the date of the financial statements and prior to the audit opinion date, the World Health Organization declared the COVID-19 virus a public health emergency. As of the date of this report, the extent of the impact of COVID-19 on the City's operations and financial position cannot be determined.

Notes:

This schedule is intended to show information for ten years. Information for additional years will be displayed as it becomes available.

Changes of Benefit Terms. There was no change in the retirees' share of health insurance premiums.

Changes of Assumptions. In 2019, amounts reflect adjustments to assumptions for inflation rates, mortality rates, mortality improvement rates, retirement rates, termination rates, disability rates, and coverage election splits to better reflect actual plan experience. The discount rate was also changed from 4.10% in 2018 to 2.74% in 2019.

OTHER SUPPLEMENTARY INFORMATION

Other supplementary information includes financial statements and schedules not required by the GASB, nor a part of the basic financial statements, but are presented for purposes of additional analysis.

Such statements and schedules include:

- Budgetary Comparison Schedules Major Governmental Funds
- Combining Statements Nonmajor Governmental Funds
- Budgetary Comparison Schedules Nonmajor Governmental Funds
- Budgetary Comparison Schedules Enterprise Funds

INDIVIDUAL FUND DESCRIPTIONS

GENERAL FUND

The General Fund, a major fund, accounts for all financial resources except those required to be accounted for in another fund.

SPECIAL REVENUE FUNDS

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than fiduciary funds or capital projects funds) that are legally restricted to expenditure for specified purposes.

Public Benefit Fund

The Public Benefit Fund, a major fund, accounts for the accumulation of funds from Kerr McGee to fund the public portion of certain improvements.

TIF Special Tax Allocation Fund #1

The TIF Special Tax Allocation #1 Fund, a major fund, accounts for the accumulation of funds from incremental revenue generated within the TIF #1 area.

TIF Special Tax Allocation Fund #2

The TIF Special Tax Allocation #2 Fund, a nonmajor fund, accounts for the accumulation of funds from incremental revenue generated within the TIF #2 area.

TIF Special Tax Allocation Fund #3

The TIF Special Tax Allocation #3 Fund, a nonmajor fund, accounts for the accumulation of funds from incremental revenue generated within the TIF #3 area.

CAPITAL PROJECTS FUND

Capital Projects Funds are created to account for all resources used for the acquisition of capital facilities by a governmental unit except those financed by Proprietary Funds.

Capital Improvement Fund

The Capital Improvement Fund, a major fund, accounts for property taxes, utility taxes and home rule sales taxes that are set aside for funding major capital improvements throughout the City.

Capital Equipment Replacement Fund

The Capital Equipment Replacement Fund, a nonmajor fund accounts for funds set aside be the City Council during the budget process and costs allocated to user departments for future capital fleet purchases.

INDIVIDUAL FUND DESCRIPTIONS

ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent is that costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where it has been decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purpose.

Waterworks Fund

The Waterworks Fund, a major fund, is used to account for the provision of potable water and water treatment services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

Sewerage Fund

The Sewerage Fund, a major fund, is used to account for the provision of sewer repair, treatment, and improvement services to the residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations and maintenance, financing and related debt service, billing and collection.

Commuter Parking Fund

The Commuter Parking Fund, a nonmajor fund, was established to account for commuter parking facilities operated be the City that are financed by user fees.

PENSION TRUST FUNDS

Police Pension Fund

The Police Pension Fund is used to account for the accumulation of resources to be used for retirement annuity payments to employees on the police force at appropriate amounts and times in the future. Resources are contributed by employees at rates fixed by law and by the City at amounts determined by an annual actuarial study.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENTAL AUDITING STANDARDS

January 22, 2021

The Honorable City Mayor Members of the City Council City of West Chicago, Illinois

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of West Chicago, Illinois, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated January 22, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. According, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

City of West Chicago, Illinois January 22, 2021 Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STATISTICAL SECTION (Unaudited)

This part of the comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

Financial Trends

These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity

These schedules contain information to help the reader assess the City's most significant local revenue sources.

Debt Capacity

These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information

These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information

These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.

Community College District #509	10	58,661,226	9.919	%	16,714,327
Total Overlapping Debt	1,02	22,670,296			295,970,567
Total Direct and Overlapping Debt	\$ 1,02	22,670,296		\$	295,970,567

Data Source: DuPage County Clerks

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. Every resident is not responsible for paying the debt of each overlapping government.

(1) Determined by the ratio of assessed value of property in the City subject to taxation by the Governmental Unit to the total assessed value of property of the Governmental Unit.

Schedule of Legal Debt Margin December 31, 2019 (Unaudited)

The City is a home rule municipality.

Article VII, Section 6(k) of the 1970 Illinois constitution governs computation of legal debt margin.

The General Assembly may limit by law the amount and require referendum approval of debt to be incurred by some home rule municipalities, payable from ad valorem property tax receipts, only in excess of the following percentages of the assessed value of its taxable property...(2) if its population is more than 25,000 and less than 500,000 an aggregate of one percent: indebtedness which is outstanding on the effective date (July 1, 1971) of this constitution or which is thereafter approved by referendum...shall not be included in the foregoing percentage amounts.

To date the General Assembly has set no limits for home rule municipalities.

Pledged-Revenue Coverage - Last Ten Fiscal Years December 31, 2019 (Unaudited)

Fiscal Year Ended	(1) Revenues	(2) Expenses	(3) Net Revenue Available for Debt Service		4) Service Interest	. (5) Coverage

12/31/2017	11,029,165	9,558,809	1,470,356	-	-	-
12/31/2018	4,871,550	10,834,817	(5,963,267)	-	-	-
12/31/2019	9,048,365	10,130,988	(1,082,623)	-	-	-

⁽¹⁾ As defined in applicable bond indentures and governing laws.

Data Source: City Records

Note: Details regarding the City's outstanding debt can be found in the notes to the financial statements.

⁽²⁾ Totaled expenses exclusive of depreciation and bond interest.

⁽³⁾ Gross revenue minus expenses.

⁽⁴⁾ Revenue bonds through April 30, 2003, alternate revenue bonds subsequent to that date.

⁽⁵⁾ Net revenue available for debt service divided by total debt requirements.
