WEST CHICAGO

WHERE HISTORY & PROGRESS MEET

2023 Proposed Budget

Michael L. Guttman

CITY ADMINISTRATOR

DECEMBER 2022

WHERE HISTORY & PROGRESS MEET

November 11, 2022

Dear Mayor Pineda and Aldermen:

I hereby present to you the 2023 Fiscal Year Budget for the City of West Chicago, in accordance with Section 2-146 of the West Chicago City Code. The Annual Budget serves as a comprehensive financial plan and strategic guide for our organization. It includes a forecast of anticipated revenues for the coming fiscal year, as well as adopted expenditures that will guide the services provided to our customers, the 25,614 residents and 800+ businesses that call West Chicago their home.

The 2023 Annual Budget totals \$52,344,700, which is an increase of 6.31% as compared to the 2022 Budget, as amended; specifically, the General Fund reflects an increase of 5.48% as compared to the 2022 Budget, as amended.

Background

The City has a proud history of providing exceptional services to a diverse group of stakeholders. Over the past decade, the diversity of the City has grown and with it, the challenges of meeting the needs and demands of our customers have grown as well. The Departments and staff are continuously challenged to address the growth within the City and develop new and innovative ways of delivering the services that our customers expect. Through flexibility, adaptability, the use of technology, innovative staffing methods, and furthering intergovernmental and public/private partnerships, the organization continues to rise to the challenge to become one of the most efficient municipal corporations in the Chicagoland area.

Budget Strategy

This budget marks the nineteenth year of adhering to the City Council's Budget Policy and implementing a strategy that addresses the structural and cyclical budgetary challenges that were and continue to face the City of West Chicago. This strategy includes five major components:

Reduction in Operating Expenditures

To address the structural problem of rising operating costs coupled with stagnant revenues, the City annually undergoes a target budgeting process to manage the organization's expenditure and revenue patterns. Target Budgeting was initiated to instill budget discipline, establish budgetary priorities, control costs and stabilize finances. Target Budgeting is a modification of zero based budgeting in that it accepts the premise that the City provides certain basic services and attempts to "target funds" for the delivery of those services. Beyond these basic levels, services are discretionary and can be evaluated, prioritized and matched against available revenues. Patterns of services can therefore be modified to meet changing needs without disrupting basic services. Target Budgeting assigns a target goal to each fund based upon its expenditure history and projected revenues as identified in September each year. This year's target for the General Fund was one percent of the initial revenue forecast, which translated into a reduction of expenditures

totaling approximately \$200,000. The target goal for the enterprise funds was a two percent reduction. The proposed 2023 Budget meets the target goals.

Meet Reserve Requirements

The City has again met its reserve requirement of 35% for the operating funds as detailed in Resolution No. 02-R-0073.

Identification and Implementation of New Revenues

In 2019, the Finance Committee, and ultimately the City Council, approved a series of tax and fee changes to address the \$2.8 million gap in the General Fund, created mostly by the State's siphoning money traditionally given to local governments and the revenues generated by the Police Department personnel being down about \$300,000 annually. While the latter has improved, the State still is not returning the funds we have relied upon to balance the General Fund Budget. Staff is forecasting a near balanced budget in the General Fund in the out years, which is significantly less than the two million dollar gap that was projected last year for those same years. While significant increases in sales and income taxes are expected to help reduce that gap, the decrease in population via the 2020 Census offsets some of that positive news. The 2023 draft Budget does contain a 4.9% property tax levy increase to offset the significant increase in police pension and salary costs.

Increased Economic Development Focus

The City's Economic Development Program is designed to increase and diversify the City's sales tax and real estate tax bases, thereby allowing the City to become more self-sufficient, generating revenues from within the City and reducing dependency on outside revenue sources. The importance of our economic development efforts can continue to be realized when looking at our sales tax receipts. Increasing this revenue source has been a primary focus of the organization over the past several years. Mayor Pineda, the Aldermen and staff have devoted a great deal of energy into attracting new sales tax generating businesses, while at the same time, maintaining our existing businesses and helping with their expansion. New business growth is evident for 2022, with Midwest Industrial Funds building a second building in the DuPage Business Center, and the Renaissance Square Project finally getting started and a number of industrial expansions within the City.

Maintain and Improve City Services

The City has a proud history of providing exceptional services. During the implementation of this five-part budgeting strategy, it is imperative that the residents and businesses not experience a reduction in service levels unless absolutely necessary. In fact, through challenging our employees at every level of the organization, the City has been able to improve upon services during this tough economic climate. With few exceptions, the City has been able to provide excellent service with fewer employees and leaner budgets.

We are successful in achieving all of the parameters in the proposed 2023 Budget. The proposed Budget includes a planned very minor spend down of reserves next year, consistent with the Finance Committee's direction over the last 13 years, to make it a balanced budget.

Significant Highlights – All Funds

Personnel Changes – The City now employs 115 full-time employees and one part-time employee, with a few seasonal positions in the Public Works Department. The proposed Budget includes the new Assistant City Administrator position, in addition to a Management Intern (the latter not included in the total above). The Information Technology, GIS and Human Resources functions have shifted to the City Administrator's Office.

Insurance Costs – The City's general liability/workers' compensation insurance costs is estimated to increase by ten percent, which is the second consecutive yearly increase; to attempt to get better pricing and due to a significant difference in philosophy, the City is looking at changing insurance providers. There is also a projected increase to the premiums for those employees who get their medical insurance via the Operating Engineers Health and Welfare Plan per the new Collective Bargaining Agreement. For the plan year July 2022 through June 2023, the total premium again decreased by about four percent for those employees who participate in the City's plans through IPBC. Premiums for both the HMO and PPO plans are expected to increase come July 1, 2023; a six percent increase is reflected in the Proposed Budget.

Customer Impact – There are no service reductions proposed in the 2023 Budget.

The following table shows the difference in budgeted amounts between 2022 and 2023 for each of the Funds:

| | 2022 | 2023 | Percent |
|------------------------------------|--------------|--------------|----------|
| Fund | Budget | Budget | Change |
| General Fund | \$21,274,700 | \$22,440,100 | 5.48% |
| Capital Equipment Replacement Fund | \$822,500 | \$1,686,600 | 105.06% |
| Sewer Fund | \$8,998,300 | \$8,208,700 | -8.77% |
| Water Fund | \$10,451,600 | \$9,562,900 | -8.50% |
| Capital Projects Fund | \$6,887,900 | \$9,267,800 | 34.55% |
| Downtown TIF Fund | \$0 | \$0 | 0.00% |
| Public Benefit Fund | \$0 | \$0 | 0.00% |
| Oliver Square TIF Fund | \$25,500 | \$0 | -100.00% |
| Motor Fuel Tax Fund | \$433,500 | \$916,500 | 111.42% |
| Roosevelt/Fabyan TIF Fund | \$92,500 | \$25,000 | -72.97% |
| Commuter Parking Fund | \$298,900 | \$287,100 | -3.95% |
| All Funds | \$49,285,400 | \$52,344,700 | 6.31% |

General Fund

The General Fund is the all-purpose governmental fund that includes the operations of the municipality not accounted for in a separate fund. Most of the expenditures for City services are budgeted and accounted for in this Fund, except for water and sewer expenses. There are four key revenue sources, which account for 71.10% of the total General Fund revenues:

| Sales and Use Taxes | 28.71% |
|---------------------|--------|
| Property Tax | 19.02% |
| Income Tax | 17.09% |
| Electric Use Tax | 6.28% |

The revenues listed above represent the General Fund's primary growth revenues, which traditionally pay for annual cost increases.

On the expenditure side, in addition to the increased costs of hardware and software maintenance contracts, service contracts, and dispatch services, among others, the following are some additional changes and highlights within the General Fund:

- City Council There are no major changes in this Department's budget, but for the additional funding (\$14,000) for the DuPage Senior Citizens Council per the direction of the Finance Committee.
- City Administrator's Office The remaining cost of the West Washington Street Remediation Project (\$600,000) is budgeted here as well as the costs associated with the new Assistant City Administrator and Management Intern. Also included are funds for the upgrade to Sesquicentennial Park (\$50,000), updating the ADA Transition Plan (\$100,000), and migration to Microsoft 365 (\$59,000 across all Funds).
- Finance Department There are no major changes in this Department's budget, but for the reorganization highlighted earlier in this narrative.
- Police Department DUCOMM contributions are forecast to increase pretty substantially next year. A second School Resource Officer for District 33 is proposed as well. A substantial amount of funds for required training are also included in this Budget.
- Public Works Department There are no significant changes in this Department's budget but for carrying forward a tree inventory project should grant funds be received to fund it.
- Community Development Department There are no major operational changes in this Department's General Fund Budget.

Capital Equipment Replacement Fund

This Internal Service Fund draws its revenues from the General, Water and Sewer Funds and thre was very little equipment ordered in 2022 due to huge price increases and supply chain issues resulting in longer than normal lead times for delivery. So the budgeted figure are much higher for 2023 because it is more than one year's worth of purchases. The following more expensive pieces of rolling stock are scheduled for replacement in 2023: five police vehicles (\$295,000); John Deere 410P Backhoe/Loader Combo (\$143,200); and four trucks for Streets Division personnel (\$806,800).

Sewer Fund

In 2023, significant money is again allocated for the WC/WWA (\$2,874,300) and \$1,675,600 to engineer and construct improvements to Lift Station #5. A larger than anticipated rate increase is included in the 2023 Budget due to inflationary pressures and inventory issues (\$7.00/1,000 gallons to \$10.00/1,000 gallons).

Water Fund

In 2023, there are no major changes to the operational components of the Water Fund. The primary capital project(s) will be one or both of the watermain replacement associated with two street improvement projects (\$1,071,400), the 250,000 Gallon Elevated Tank Project (\$850,000) and the remaining portion of the SCADA System Upgrade (\$525,500). A larger than anticipated rate increase is included in the 2023 Budget due to inflationary pressures and inventory issues (\$5.000/1,000 gallons to \$9.00/1,000 gallons).

Capital Projects Fund

With the one-cent home rule sales tax in place to supplement the natural gas use tax monies earmarked for this fund, the 2023 Capital Project Fund Budget includes \$3,071,200 for street resurfacing and \$1,197,600 for the Thomas Engineering Group. The Klein Road Culvert Replacement Project (\$415,600) 200 Main Street Basement and First Floor Renovations (\$1,800,000) and Above Ground Fuel Tank and Street Division Parking Lot Reconstruction Projects (\$1,517,500). The Infrastructure Committee gave consensus to move forward with the 2023 Capital Projects Fund, CERF, and the Motor Fuel Tax Funds at its November meeting.

Downtown TIF2 Fund

There are no projects budgeted for this Fund.

Public Benefit Fund

There are no expenses forecast for this Fund; all revenues associated with video gaming will be posted here until the Finance Committee discusses how best to allocate these monies.

Oliver Square TIF Fund

There are no expenses forecast for this Fund.

Motor Fuel Tax Fund

This new Fund was created in 2021 and all MFT revenues will be posted here as well as eligible expenses.

Roosevelt-Fabyan TIF Fund

The expenses forecast for this Fund are related to the legal and other professional services needed to evaluate the incentive requests and prepare the necessary documents for the intermodal project currently under review.

Commuter Parking Fund

Funds have been allocated to replace the landscaping, repair a retaining wall and complete commuter station repairs (\$205,000).

Trillium Farms Subdivision

The City Council approved a Pre-Annexation Agreement (20-R-0045) for the Trillium Farms Subdivision on August 3, 2020, whereby households were to pay double the water and sewer rates until annexation. Many of these homeowners are using substantial amounts of water to tend to newly installed sod and landscaping, leading to increased bills beyond what the City would have expected when it traded this provision for the waiving of certain water and sewer impact fees and before the 2022 and anticipated 2023 rate increases. Therefore, the City Council hereby directs staff to charge double water and sewer rates for twelve months, and then beginning with the next bill following twelve months of occupancy, those households will pay rates similar to incorporated customers and those having a Pre-Annexation Agreement in place prior to occupying their houses.

Closing Remarks

The 2023 Annual Budget and 2023-2027 Capital Improvement Program will serve as a strategic guide for our organization in the coming year. The Annual Budget reflects the service levels expected by our customers, provides dedicated revenues to support our long-term infrastructure and equipment needs, and lives within our financial means. The budget prioritizes core services and administrative functions and reflects one of the leanest and most efficient municipal corporations within the Chicagoland area. West Chicago is diligently striving towards providing the highest quality services at one of the lowest costs. To continue in this tradition, all Departments will be challenged to continually evaluate their work teams and performance as well as benchmark their productivity with comparable communities and outside contractors, where applicable. Our employees continue to be the key to the City's operational and financial success.

The Annual Budget is the outcome of a great deal of hard work, dedication and effort of many people. All of the Department Directors and their staff are to be commended for their continued stewardship of the public dollar and assistance in the development of this document.

The support of Mayor Pineda and the Aldermen during this past year as the City continued with our budget strategy was remarkable. You remained supportive of staff, yet continually challenged us to live up to the old adage of "doing more with less". I believe this was achieved throughout the organization. Finally, I would like to thank the senior management team for its tremendous assistance with the budgeting process from preparation through implementation.

Sincerely,

Michael L. Guttman City Administrator

BUDGET PHILOSOPHY AND POLICY

Serving the public trust requires that the annual budget provide the best possible balance of allocation to meet the varied needs of all citizens. The budget is a principal management tool for the City administration and, in allocating the City's resources, it both reflects and defines the annual work plan. In this context, the budget provides a framework for us to accomplish our mission, which is:

"To assure a safe, cohesive and dynamic community that is responsive to the needs of both citizens and businesses as it strives for continuous improvement."

The budget should also reflect important organization values such as integrity, teamwork, service excellence, personal growth, and innovation.

In addition to balancing allocations to meet community needs and incorporating our mission and values, a successful annual budget preparation process requires excellent communications, citizen outreach, and a commitment to excellence. To this end, the process must be a cooperative effort of the entire City organization.

West Chicago prides itself on being an increasingly progressive community, willing to challenge the status quo and moving toward the "cutting edge". City staff has accepted this challenge by developing the budget within the context of a search for creative solutions for the delivery of City services. The budget will emphasize policy and procedure reviews to improve the productivity and effectiveness of service delivery to citizens and employees. Teamwork and efficiency enhancements will limit the amount of bureaucratic "red tape" required, both between functional areas within the City, and between City staff and our customers. The overriding goals must be to support the high standards set by the community and to provide long-term value at reasonable cost.

The budget will be based upon timely, consistent and clearly articulated policies. It will be realistic and will include adequate resources to meet assigned work programs. Once adopted, within the parameters of policy guidelines, Department Directors will be given full spending authority for their budget(s).

The budget policies of the City are rooted in a history of conservative budgeting practices. They're based on a commitment to provide quality services while maximizing the return for each dollar spent. Revenue sources are diversified as much as possible to avoid the impacts of fluctuations in a particular revenue source. The following is the Budget Policy the City Council has used as a continuing foundation for fiscal discipline:

 Revenues are conservatively projected using historical trends, reasonably expected changes in the coming year, and an analysis of anticipated economic conditions in the region, the state and the nation.

- The General Fund shall have a fund balance equal to at least 25% of revenues; the City should strive to increase this amount to 35%.
- The budget is flexible within each Department. Over expenditures in one line item should be compensated within the Departmental Budget. Each Department may not overspend its total Departmental Budget without prior approval. Department Directors may not exceed the staffing levels approved in the Budget. The City Administrator may authorize transfers within a fund.
- Major capital expenditures not related to either the water or sewer utilities for the next five years will be identified in the Capital Projects Fund Budget. This Budget will be updated on an annual basis. Smaller capital purchases may be included in each Department's operating budget.
- User fees, such as water and sewer charges, will be reviewed annually. This is done to ensure that fees cover costs, if intended to do so, meet debt service requirements, and are affordable.
- Implementation of the Budget will be monitored continuously. Purchase orders will be issued only when adequate funding is available. Based upon experience with higher prices via the bidding process and after receiving direction from the City Council, information technology equipment purchases and maintenance contracts do not have to be bid, so long as multiple written quotes are obtained to show that the price is reasonable.
- All home rule sales tax receipts and taxes from the consumption of natural gas shall be deposited in the Capital Projects Fund.

CITY COUNCIL

Performance Report on FYE 2022 Major Program Objectives

COVID-19 continued to have a significant impact on the West Chicago community during the first half of 2022. Regardless, City Council meetings returned to being in-person and most of the provisions of the Local Disaster Declaration were eliminated, leaving only the City Administrator additional flexibility with regards to the administration of the Personnel Rules and staffing.

The State of Illinois approved Gaming Licenses for the Bunker Bar and Grill, St. Andrews Golf Course, the American Legion, La Chiquita and Hawthorne's Backyard. Other establishments awaiting State approval include Pal Joey's, West Chicago Social Club, Augustinos, Egg Yolk Cafe and Twin Eagles.

The Reque Road Litigation finally ended, however not in favor of the City, ending over five years of bouncing around the judicial system.

Due to a significant difference of philosophy, staff began searching for a new risk management provider/insurance company for 2023.

An extensive reorganization of the City Administrator's Office began with the hiring of GovHR to conduct a recruitment for a new Assistant City Administrator position and a Finance Director to replace the former Administrative Services Director position. The IT, HR and GIS functions will report to the new Assistant City Administrator position.

Greg Smith left Klein, Thorpe and Jenkins and James Ferolo will replace him and handle matters associated with the WC/WWA and economic development initiatives.

The City Council also eliminated the elected City Clerk position, and transferred that position's duties to the City Administrator or his designee.

CITY COUNCIL

Description of Major Activities

The City Council is comprised of the elected Mayor and fourteen Aldermen, two from each Ward. The Council makes policy decisions necessary to maintain and enhance the health, safety and welfare of citizens and visitors to West Chicago. These decisions include, but are not limited to the following: matters of annexation; tax impact; budgets; letting of contracts; citizens' and others' concerns; acceptance of subdivision improvements; establishment of and variations in housing, subdivision, building, drainage, zoning and traffic codes; and establishment of license fees and other charges.

CITY ADMINISTRATOR'S OFFICE

Performance Report on FYE 2022 Major Program Objectives

The State still hadn't provided the grant proceeds to remediate the remaining contamination on the West Washington Street Project site. Video gaming administration began with no issues. The changes to the Liquor Code were made in accordance with the City Council's approval.

The City's long-time Human Resources Coordinator retired and her replacement started in May 2022. A long-needed update to the Personnel Manual commenced using a lawyer from Laner Muchin. CPR training was held for all City personnel. Research began on an online employment application portal, which will be budgeted in 2023. Work commenced on finding a new risk management provider.

The Cisco firewall was replaced with a Fortigate firewall. The Office 365 migration will begin the first calendar quarter of 2023. The network build-out, access points installation and WiFi upgrade for the remaining City facilities were completed. A new Password Policy was implemented.

Staff optimized the use of ArcGIS Online and created user-friendly web application and maps for Food Fest, Bloomingfest, the new Downtown TIF District and the HWC 5K. New story map templates were adopted that are more usable across all platforms. The water system atlas had had continuous edits in addition to the addition of private water hydrants; new streetlight data was also updated.

The City welcomed its new Marketing and Communications Coordinator in January 2022. Staff initiated a digital-first communications strategy which has included making significant changes to the design of the City's website; updates to increase the City's search engine optimization (SEO) rankings; and reutilization of City social media platforms. Division staff successfully assisted with the Comprehensive Plan Update. After satisfying most objectives presented in the Comprehensive Plan, staff has developed a Marketing and Communications Master Plan based on initial assessments that will span several years, with the initial portion launching in 2023. Lastly, the City continued its Program to honor West Chicago veterans, through the installation of 27 additional veteran banners and the creation of a new Veterans Day landing page.

CITY ADMINISTRATOR'S OFFICE Human Resources

Description of Major Activities

All human resources activities are administered and coordinated in compliance with applicable Civil Service ordinance and rules, State and Federal requirements, and Equal Employment Opportunity guidelines. Actions regarding employees of the City are reviewed and approved by the City Administrator's Office/Human Resources Division to ensure compliance with requirements and the provision of equitable treatment. The Division provides ongoing assistance to the operating Departments and employees in all areas of employment, including, but not limited to, recruitment, position classification, compensation, promotion, performance evaluation, training, benefit administration, discipline, diversity-equity-inclusion initiatives, safety and risk management, employee concerns and labor relations.

- (1) Complete solution demos for applicant tracking software, select best solution for City, complete associated training, and implement cloud-based applicant system with a live date by June 2023.
- (2) Review and update all job descriptions by September 2023.
- (3) Propose and implement a voluntary, participation based, employee health and wellness program on a pilot basis for 2023. Review participation data and make recommendations for continuation in 2024.

CITY ADMINISTRATOR'S OFFICE Information Technology

Description of Major Activities

The main purpose of the Information Technology (IT) Division is to provide services that satisfy the City's information needs effectively. As part of the service, it has the authority and responsibility for review, control and improvement in such technology areas as office automation, communications, microcomputers, telephone, video and monitoring devices and network administration. The IT element has the responsibility for a Long-Range Plan that commits to resources and a stable direction for the future. Finally, IT also keeps abreast of state-of-the-art developments in information technology.

- (1) Migrate to the Office 365 email system from the Outlook Exchange system and convert all City users' Office 2016 Suite to Office 365 Suite by September 2023.
- (2) Work with Finance and Community Development Department staff on the migration to the cloud-based Central Square Platforms by September 2023.
- (3) Research and purchase a password manager by April 2023.
- (4) Work with Current Technologies or another vendor to install cameras that cover the public spaces in and the parking lot at City Hall by June 2023.

CITY ADMINISTRATOR'S OFFICE Geographic Information System

Description of Major Activities

The main purpose of the Geographic Information System (GIS) Division is to provide geographic data and technology that will facilitate daily department tasks. In addition to the creation and management of geographic datasets, user training is conducted by the GIS Coordinator to assist City staff with the system. Documentation of existing data, hardware, and software is maintained by the GIS Coordinator and posted to the City website where applicable. The management and implementation of all long-term projects and research and development of future projects is also the responsibility of the GIS Coordinator.

- (1) With assistance from IT upgrade existing GIS server software (ArcServer) to latest version and at this time evaluate the need to update existing sql database and/or operating system and create implementation plan by August 2023.
- (2) Update all desktop user software to latest version (ArcMap 10.8.2) by March 2023. Start monthly GIS users meetings/newsletters to enable better communication across Departments on GIS needs and tasks. By December 2023 have all desktop users use ArcPro instead of ArcMap.
- (3) Assist Public Works to develop offline disconnected mark up and editing procedure for utility and other datasets. Run beta version of workflow by June 2023.

CITY ADMINISTRATOR'S OFFICE Marketing and Communications

Description of Major Activities

All efforts of this Program are directed towards maintaining the professional brand of the City; notifying residents with timely information regarding City news, events, and programs through traditional and digital media; and promoting the City through the implementation and execution of strategic marketing and communications plans utilizing trending technologies and strategies. Staff oversees City graphic design and written public materials; administers the City's website and social media accounts; serves as media relations coordinator; engages in community outreach; and initiates and manages special projects. Staff also serves as the staff liaison to City's Cultural Arts Commission.

- (1) Implement the Marketing and Communications Division's Strategic Plan: Foundation, and execute goals and initiatives outlined in Plan through December 2023.
- (2) Execute new creative placemaking initiative in City's downtown area for summer 2023 by June 2023.
- (3) Substantially complete City-wide Communications Plan by January 2023. Continue to observe and evaluate City's external and interdepartmental communications processes to augment the Plan through the additions and/or revisions of procedures quarterly.

CITY ADMINISTRATOR'S OFFICE Administration

Description of Major Activities

The City Administrator and staff direct the administration and execution of policies and goals formulated by the City Council and propose alternative solutions to community problems for City Council consideration. These responsibilities include advising the Council on present and future financial, personnel and program needs, implementing immediate and long-range City priorities, establishing administrative procedures which will assist the City in serving its citizens, preparation of the annual budget, and supervision of City department heads. The office also maintains all records of the City and coordinates the completion of the Freedom of Information Act (FOIA) requests.

- (1) Remediate the remaining contamination on the West Washington Street Site by November 2023.
- (2) Retain a consultant to update the City's ADA Transition Plan by April 2023.
- (3) Hire an Assistant City Administrator and Finance Director by February 2023 and a Management Fellow by May 2023.
- (4) Begin shifting of the City's Administrator's duties to the Assistant City Administrator and Finance Director by March 2023.

FINANCE DEPARTMENT

Performance Report on FYE 2022 Major Program Objectives

The Administrative Services Department underwent a significant reorganization in FY 2022, which included transitioning the Human Resources, Information Technology and Geographic Information System Divisions to the Administration Department. Ending the year as the Finance Department, and with high employee morale, notable advancements were accomplished during the fourth quarter of 2022, including:

The Finance Department updated the Collateral Program within one of the City's largest cash asset holders. In compliance with the City's Collateral Policy, the conversion from a Letter of Credit to a pooled account with Fifth Third Partner, Bank of New York Mellon, eases the burden on staff to monitor the collateral holdings, reduces the potential for manual error on both the City's and the Bank's part and overall strengthens the pledge to secure deposit balances. The City's Collateral Policies will be under review in 2023 to ensure adherence to the most up-to-date standards.

A much needed City-wide upgrade of the existing telephone system, years in the making, will be completed by the end of the year. Transitioning to an updated VOIP phone system enables a more cohesive communication ability between all City buildings, Departments, and employees. Most importantly, the previously-delayed conversion will result in significant cost savings to the City, culminating in an overall reduction of the City's phone expenses by 90%. A remaining conversion of antiquated POTS lines, which were scheduled to be decommissioned last year, will be completed in advance of the extended decommission deadline, in 2023.

Marking an important milestone a decade in the making, all utility billing customers have resumed a regular bi-monthly billing schedule. In addition, a software upgrade allowed for additional detection features in place to identify the continued equipment failures earlier than ever to ease the impact on all utility customers and staff.

Finally, implementation of the MFT and Packaged Liquor Taxes came to fruition in the last quarter of 2022. As well as the long-awaited City-issued credit cards were received, and in addition, staff completed long overdue CPR training and resumed Executive Safety meetings for the benefit of all City employees.

FINANCE DEPARTMENT Accounting

Description of Major Activities

Activities performed within the Accounting Division include directing, recording and reporting all financial transactions and operations of the City. Technical support is provided to all departments as well as participation in the formulation and execution of the City's financial policies. The Accounting Division includes payroll processing, utility billing, accounting, collections, financial services, accounts payable and coordination of the annual audit of the City's financial records and internal controls. Internal services include the issuance of invoices on behalf of other City departments for items such as health insurance premiums for retirees and COBRA, legal fees, lot cuttings, damage to City property, police security services, fuel purchases, and deeds to cemetery plots.

- (1) Implement check-scanning capability for receipts processed in-house for payments other than utility billing by March 2023.
- (2) Implement Passport Mobile Payment system by June 2023.
- (3) Implement lockbox solution for City utility bill payments by September 2023.

| Ongoing Activity Measures | 2021 Actual | 2022 Estimated | 2023 Proposed | 2024 Projected |

FINANCE DEPARTMENT Administration

Description of Major Activities

The Administration Division is responsible for the City's central finance and accounting functions. Duties include providing technical support and assistance to other departments and divisions to facilitate the completion of tasks, as well as participation in the formulation and execution of the City's financial policies. Responsibilities include the administration of a cash management and investment program, issuance and monitoring of debt, preparation of the annual tax levies, annual financial reporting as required by law and the maintenance to and all upgrades of the City's financial software system.

- (1) Initiate audits for Utility Tax (gas and electric), Telecommunications Tax, Cable Franchise Fees, Amusement and Motor Fuel Taxes by June 2023.
- (2) Oversee the implementation of the City's financial software package upgrade by September 2023.
- (3) Complete remaining conversion of POTS lines by December 2023

POLICE DEPARTMENT

Performance Report on FYE 2022 Major Program Objectives

In 2022, the Department undertook several initiatives to build on the supervisory staff's leadership capabilities and operational knowledge. Two supervisors completed Northwestern University's School of Police Staff and Command. Monthly supervisor meetings and a daily informational pass-on were implemented to ensure that supervisors were up to date with current Department issues. Sergeants and Command staff members were placed in charge of committees overseeing Departmental needs and policy revisions, and a project list was created to ensure accountability. All supervisors were trained on the budget process and critical incident response and a new employee evaluation tool developed by the supervisors was implemented.

Several new employees were hired over the year as replacements and additional staff, including an Evidence Custodian/Evidence Technician, five new Police Officers, and three lateral Police Officer hires. A second Commander responsible for Operations and the Investigations Division was added, and several promotions took place, including three Sergeants, two commanders, and a Deputy Chief.

Several purchases were made to further modernize the Department's patrol operations, including; replacement rifles with holographic sites and magnifiers, a Recon Scout robot, updated Tasers, Pepperball guns, ballistic shields, and breaching tools for all schools and Department vehicles. Additionally, three drones were purchased, and ten operators were trained and licensed for emergency drone deployments.

K9 Mondo and his handler completed their training and were added to the investigations Division to supplement patrol. This canine is utilized for fugitive apprehensions, tracking, drug detection, article searches, and officer protection.

Furthering the officers' professionalism and meeting the Safe-T Act requirements, officers were trained in the use of force, active shooter response, advanced first aid, legal updates, and a myriad of other training courses. A new officer wellness program was also started, allowing officers to meet with a Licensed Clinical Social Worker voluntarily.

New computer programs were implemented to review use-of-force and vehicle pursuits, along with a program to track vehicle inspections, asset inventory, and equipment check-out and check-in.

POLICE DEPARTMENT Operations

Description of Major Activities

Operations is made up of the Support Services and Patrol Divisions. The Support Services Division is responsible for record keeping, and providing Social Services as well as community outreach. In addition, the Support Services Division is also responsible for criminal investigations, proactive criminal investigations, undercover operations, evidence warehousing, school resource/liaison, and crime analysis functions. The Patrol Division is responsible for responding to calls for service, conducting proactive/preventative patrols, traffic education, enforcement and traffic crash investigations, and crime prevention.

- (1) Establish a Hybrid K9 consisting of a second dog used for searches, drug detection, and public events, similar to a therapy dog, by June 2023
- (2) Establish a Community Response Team dedicated to responding to complaints, traffic enforcement, attending special events, and assisting the investigations division by April 2023.
- (3) Assign a second District 33 School Resource Officer with additional responsibilities, including teaching anti-drug, bullying, and gang classes at the middle and elementary school levels by August 2023.
- (4) Conduct a large-scale active shooter training scenario, including neighboring Police Departments, by October 2023.

POLICE DEPARTMENT Emergency Services and Disaster Agency (ESDA)

Description of Major Activities

In accordance with the Illinois Emergency Management Act of January 1992, the West Chicago Emergency Services and Disaster Agency (ESDA) exists to prevent, minimize, repair, and alleviate injury or damage resulting from disasters caused by enemy attack, sabotage, or other hostile action, or from natural or man-made disasters. Its primary function continues to be one of support/relief for the West Chicago Police Department. Typically, ESDA provides assistance at major traffic accidents, protects evidence at crime scenes, and protects the public and property in the event of weather-related damage.

ESDA volunteers are trained to spot potentially hazardous weather which may affect the City or western DuPage County. It is part of a multi-county network of weather spotters, providing first-hand information to the DuPage County Office of Emergency Management. This information is used for countywide severe weather alerts, and is passed on to the National Weather Service. Storm spotting also enables ESDA to provide warnings of potentially dangerous weather conditions to the residents of West Chicago. All members of ESDA are required to maintain certification as Severe Weather Spotters.

Since 1991, ESDA has maintained an Outdoor Warning Siren System to warn residents of approaching tornados, major emergencies, or the possible threat of an attack on the United States. The current siren system contains eight sirens. With the new telemetry system in place, all sirens are "growl tested" weekly. Sirens are fully tested by DuComm on the first Tuesday of each month. The full test consists of a three-minute steady tone. The growl test activates each siren for approximately one second, and is used to verify that all key components in the siren system are operational.

- (1) Relocate the ESDA/CERT operations and equipment by December 2023.
- (2) Create a common City-Wide radio channel available during emergencies for all City Departments to communicate by December 2023.

Performance Report on FYE 2022 Major Program Objectives

The City's long-range Capital Improvement Program (CIP) and five-year Street Improvement Program were revised and presented to the Infrastructure Committee on November 3, 2021. There was consensus by the Committee to concur with staff's recommendations. As such, the CIP will be included in the 2023 Proposed Budget.

In 2022, City staff collaborated with the engineering consultants to complete construction of the annual resurfacing project including Grove Ave, Stockberry Lane and the Ingalton Hills Subdivision. The Sidewalk and Curb and Gutter Replacement Program were also completed. The Programs delayed due to labor and material shortages in 2021, such as the Annual Pavement Striping Program and Crack Sealing Programs were completed. A new maintenance program of Sidewalk Cutting was introduced and successfully completed. Staff also completed utility permit reviews, assisted with private development reviews and performed rights-of-way inspections (public utilities, sidewalks, streetlights, roadway, etc.) for the Trillium Farm Subdivision. The team is also working on various design projects upcoming in 2023 and also collaborated to apply for various grants such as the Highway Safety Improvement Program, Surface Transportation Program, County Stormwater ARPA grant as well as Rebuild Downtown Program.

Facility Management Division staff continued inspecting, servicing, and maintaining all municipal buildings, all City street lights, and all City-owned properties. Staff continued to replace streetlight luminaries with LED bulbs throughout the City. Contractual janitorial services were procured for eight City-owned facilities via an extension which was awarded by the City Council in October 2021. The work slated for 135 W Grand Lake facility has been postponed to FY2023 due to the inflationary bidding environment. Staff also took on special projects at the City Hall to make the building more aesthetically pleasing for the general public.

Forestry Program objectives continued to focus on the management of the Emerald Ash Borer (EAB) with soil insecticidal treatments. Contractual brush pick-up was completed during 2022 by Kramer Tree Specialists, Inc. Removal of dead, dying, or diseased trees were mostly completed by City staff, with contractually assistance when warranted. The City's annual contractual Tree Planting Program as well as the Tree Trimming Program were completed. The staff collaborated with a consultant to apply for an Urban Forestry Management grant which, if awarded, will be used to complete a comprehensive tree inventory for the City in 2023.

Maintenance Garage and Road and Bridge Program objectives were also substantially completed in 2022. In addition, the Street Division staff tackled a handful of impactful projects in house such as Well No. 3 drainage improvements, paving a section of Prairie Path along W Elmwood Ave, replacing a drainage culvert under Joliet St as well as pavement patching along Harvester Rd and Nor-Oaks Ct.

Cemeteries objectives associated with creating a digital map and electronic index of interments, entombments, or inurnments for the two City-owned cemeteries are moving forward with the assistance from the GIS Coordinator and is anticipated to be complete in 2023.

PUBLIC WORKS DEPARTMENT Administration

Description of Major Activities

General public works department overhead expenses are charged to this program, in addition to the solid waste subsidy approved by the City Council in 2006. In 2009, the Kerr-McGee oversight expenses were added to this program.

- (1) Research available alternative funding sources for roadway as well as capital improvement grants and submit appropriate applications for funding by November 2023.
- (2) In order to streamline the operations, establish geographically based maintenance activity zones by September 2023.
- (3) Review and re-evaluate snow and ice control methods/plan by October 2023.

PUBLIC WORKS DEPARTMENT MUNICIPAL PROPERTIES

Description of Major Activities

The maintenance of all City facilities is performed under the direction of the Public Works Department. The employees' main responsibilities are the daily upkeep and repair of City Hall, Museum, Police Station, Fleet Maintenance Garage, Water Treatment Plant, Utility Facilities, and the Streets Facility as well as all City owned Street lighting, poles, fixtures and controls. Buildings and grounds maintenance includes limited painting, light electrical and plumbing repairs, replacement of worn-out parts and other general construction, repair and maintenance work. Major maintenance and repair work is performed by independent contractors, as is the janitorial cleaning of the municipal buildings.

- (1) Procure contractual services for a fire protection system upgrade at 135 W. Grand Lake Blvd by September 2023.
- (2) Procure contractual services for north garage roof repairs and insulation at 135 W. Grand Lake Blvd by September 2023.
- (3) Procure contractual services for a new vehicle lift, concrete floor and triple basin improvements at 412 Blakely Street by September 2023.

PUBLIC WORKS DEPARTMENT FORESTRY

Description of Major Activities

The three services included in this program are: brush collection, emergency tree removals/trimming from storm damage, and hornet nest removals. Each of these programs is handled by an independent contractor and administered by various staff in the Streets Division. The system of removing brush with a mechanized loader and chipping the brush at the contractor's site has resulted in faster brush removal. Completion time is typically less than one week, with no chipping debris left on the streets. The contractual Brush Collection Program is administered over a seven-month period (May thru November), with brush collection commencing the first full week of each month.

- (1) Pending grant funds, complete a Tree Inventory Program by December 2023.
- (2) Procure contractual services and complete the Tree Trimming Program by December 2023.
- (3) Procure contractual services and complete the Tree Planting program by June 2023.
- (4) Complete the 2023 Monthly Brush Collection Program by December 2023.

PUBLIC WORKS DEPARTMENT CEMETERIES

Description of Major Activities

The Public Works Department administers and oversees the activities of the two City-owned cemeteries (Glen Oak and Oakwood) that includes the sale of grave sites, interments, ground maintenance activities, records and reports through an independent contractor performing the duties of Cemetery Sexton.

- (1) Procure contractual services and complete the project to develop a digital maps of the two City-owned cemeteries delineating all lots or plots, blocks, sections, avenues, walks, alleys, and paths by December 2023.
- (2) Continue to monitor the deteriorating Oak trees at the Glen Oaks Cemetery and apply fertilizer treatment by October 2023.
- (3) Seal Coat the drive aisles in the Glen Oaks Cemetery by November 2023.

PUBLIC WORKS DEPARTMENT ROAD & BRIDGE

Description of Major Activities

Street Division activities not listed elsewhere as their own Program are included in the Road and Bridge Program. Examples of these activities include: sign work, mowing, parkway cleanup, tree trimming/removals, sidewalk repairs, parkway restorations and landscaping, alley work, shoulder gravel, special events, and most service requests.

- (1) Evaluate and replace the deteriorated storm sewer under Conde Street ahead of the resurfacing project in 2024 by October 2023.
- (2) Continue to evaluate storm structures and replace as necessary; continue sewer cleaning and catch basin cleaning, tracking progress, compliance and effectiveness through December 2023.
- (3) Evaluate, program and perform pavement patching throughout the City with in-house staff on a continuous basis throughout the year.

PUBLIC WORKS DEPARTMENT MAINTENANCE GARAGE

Description of Major Activities

The mission of the municipal garage is to institute and continuously improve its preventative maintenance program which minimizes the occurrence of costly emergency vehicle, truck and equipment breakdowns, and prevents prolonged fleet downtime, thereby maintaining the timely delivery of municipal services to City residents. User departments are considered consumers of fleet maintenance services and charged a user fee based on their historical usage pattern to fund capital equipment purchases, depreciation expenses and general overhead (see Capital Equipment Replacement Fund).

- (1) Complete all safety lane inspections by November 2023.
- (2) Review the Capital Equipment Replacement Schedule for FY2023, write specifications and order vehicles/equipment by November 2023.
- (3) Identify and properly dispose of all surplus vehicles by October 2023.
- (4) During off seasons (i.e., winter for mowing and forestry equipment, summer for snow plowing equipment), inspect all equipment, including small engine equipment, and complete needed repairs prior to start of 2023 seasonal needs (i.e., prior to May 2023 for mowing and forestry equipment, and prior to November 2023 for snow plowing equipment).

COMMUNITY DEVELOPMENT DEPARTMENT

Performance Report on FYE 2022 Major Program Objectives

- The City's new Comprehensive Plan was adopted, West Chicago Forward/Adelante, which later in 2022 won the Statewide Award for best new plan known as the Daniel Burham Award.
- A contract was awarded to the Upland Design Group LLC to start work on a park plan for the proposed park located along Weyrauch Street.
- Staff completed and submitted a new Ward Map based on established criteria and the outcome of the recent U.S. Census.
- Two key positions were filled: Economic Development Coordinator and Chief Building Official.
- Work began late in the year on reviewing the ICC 2021 Codes and moving the City from the 2015 Codes to the 2021 versions.
- RFPs were issued for TallGrass/Weed Services and for Code Enforcement/Inspections and Plan Review Services.
- BloomingFest, Food Fest and Frosty Fest, scheduled for December, were or will be held. Frosty 5K was cancelled due to safety concerns and the cost of providing adequate support.
- The Museum staff grew its online database by 2,500 items.

COMMUNITY DEVELOPMENT DEPARTMENT Planning, Engineering & Economic Development

Description of Major Activities

This Program is responsible for development within the City, and includes business attraction and retention, short and long-range planning, historic preservation, and engineering. As part of this program, staff also recommends revisions to the comprehensive plan, zoning and subdivision regulations, and the City Code to help improve the quality of development within the City and stay competitive with other communities by improving standards and clarifying the process. Staff guides developers through the review process by conducting development review meetings when appropriate, explaining code requirements, reviewing plan submittals and proactively contacting developers to discuss issues that may arise.

- (1) Incrementally move zoning amendments, based on need and Comprehensive Plan, through approval process as possible throughout the year.
- (2) Complete plan by March 2023 for the park along Weyrauch Street.
- (3) Bring Sign Ordinance up to date by November 2023.
- (4) Establish Economic Development Commission and start holding meetings by June 2023.
- (5) Provide staff support regarding Waste Transfer review work through March 2023.

COMMUNITY DEVELOPMENT DEPARTMENT Building & Code Enforcement

Description of Major Activities

The Building and Code Enforcement Program includes reviewing all building permit applications; conducting building, change of occupancy, overcrowding and rental inspections; investigating code violation complaints and proactively pursuing property maintenance violations by conducting routine inspections throughout the community. The code enforcement function includes issuing correction notices, inspecting for compliance, issuing "P" tickets for minor offenses, issuing Notice to Appear citations into the City's Administrative Adjudication process for more severe cases and tracking the status of all violations, citations, liens and fines. Staff also tracks temporary occupancy permits, letters of intent, letters of credit and stormwater deposits to ensure that construction is completed. Staff also proposes local amendments to the adopted national codes to improve the safety, image and appearance of the community.

- (1) Move from 2015 ICC Codes to the 2021 versions by March 2023.
- (2) If a new inspections firm is selected, orient their team to the City, activities and expectations beginning in January and running all year through regular and frequent meetings and ridealongs.
- (3) Evaluate Permit Fee calculation system and adjust items found to be out of line with expenses and neighbors by December 2023.

COMMUNITY DEVELOPMENT DEPARTMENT Special Events and City Museum

Description of Major Activities

The Museum functions as an educational facility as well as a cultural resource center for the community by promoting the City and its rich history through a variety of outreach programs, changing exhibits, tours, publications and special events. These opportunities are designed for a wide range of audiences. The Museum also collects, stores and conserves two and three-dimensional artifacts representing the collective history of this community and its residents. It maintains extensive local history research files and reference library for use by the community. Special Events is located in the CD Department and has primary responsibility for several city-sponsored festivals and some coordination duties for other events.

FY 2023 Program Objectives

- (1) Expand in-school programming and field trips to Museum and historic downtown during the course of the year concluding December 2023.
- (2) Expand online collection database to 5,000 objects by December 2023.
- (3) Reevaluate Frosty 5K for improved safety and possibly alternatives dates and themes by March 2023.

CAPITAL EQUIPMENT REPLACEMENT FUND

Performance Report on FYE 2022 Major Program Objectives

An updated ten-year Vehicle and Equipment Purchase Plan was developed during the year. All vehicles were identified and evaluated as to current condition and useful life expectancy. During the budgeting process, staff identified vehicles, which were no longer serviceable. Due to supply shortage as well as limited availability of vehicles and equipment throughout the auto industry, staff was unable to secure any purchases throughout FY2022.

Only some of the needed, budgeted vehicles and equipment were replaced either through the bidding process or participation in the State of Illinois Joint Purchasing Program, the Suburban Purchasing Cooperative (SPC) Joint Purchasing Program, the Sourcewell (formerly National Joint Powers Alliance (NJPA)) Joint Purchasing Program, or other local joint purchasing opportunities. Such replacements include police patrol vehicles and couple of administrative vehicles; however, the delivery timeframe is not expected until sometime in FY2023. Some of the budgeted vehicle and equipment was either postponed or removed from the replacement schedule due to limited need and/or use. Surplus vehicles were sold through public auctions or trade in.

The ten-year plan will receive annual scrutiny so that the City can more closely schedule major vehicle replacements in relation to available resources.

CAPITAL EQUIPMENT REPLACEMENT FUND

Description of Major Activities

These elements provide for the scheduled replacement of existing vehicles and equipment for all City departments. Funds for the replacement come from annual depreciation contributions charged to the department to which the vehicle or equipment is assigned.

- (1) Update the ten-year Vehicle and Equipment Replacement Plan by September 2023
- (2) Dispose of surplus vehicles and equipment through sale, trade or auction by December 2023
- (3) Purchase vehicles and/or equipment in accordance with City policies on the Vehicle and Equipment Replacement Plan by December 2023

SEWER FUND

Performance Report on FYE 2022 Major Program Objectives

The West Chicago/Winfield Wastewater Authority Regional Wastewater Treatment Plant (WWTP) treated a total of 1.717 billion gallons of wastewater (an average of 4.705 MGD) in 2021 with nearly 1.905 billion gallons of wastewater (an average of 5.222 MGD) estimated for 2022. Zero excursions of the City's National Pollutant Discharge Elimination System (NPDES) permit were reported in 2021 with zero permit excursions estimated for 2022. As a result of the Pre-Treatment Program, the City issued two industrial user violation notices in 2021 with ten violation notices estimated for 2022.

The long-term Capital Improvement Plan for the WWTP was updated in November 2022 and will be utilized to replace and upgrade critical operational equipment at the WWTP over the next ten years. In 2022, the replacement of the remaining two, out of the four, secondary clarifiers was completed. The rebuilding of the influent flow gates project was deferred to 2023 due to significantly high bids, which were over the budgeted amount for 2022.

The storm sewer and overland drainage conveyance systems associated with Special Service Area #2, which are tributary to the retention basin on Hawthorne Lane, Stormwater Lift Station #8, and Kress Creek, were maintained during the Fiscal Year 2022. Replacement of the outfall pipe for Lift Station #8 was completed. However, native plants and plugs will be installed in the First Quarter of 2023, which will complete the Project.

All sanitary lift station pumps were inspected for maintenance in 2022. These inspections included checking pumps for wear, changing lubricants, and testing electric motors for operational efficiency. In addition, all rail-lifting systems for these pumps were inspected and repaired as needed. Lift stations are monitored daily for operational efficiency in the continued effort to reduce operational costs.

The Division staff has continued with the Citywide Inflow and Infiltration Reduction Program by procuring contractual services for the 2022 Sanitary Sewer Evaluation Survey (SSES) in the center and southeast portion of the City. Once this survey is completed, the focus will be directed to repairs until all outstanding items have been addressed from the past and current surveys. A design contract was awarded in August 2022 to complete sewer repairs in 2023.

Contractual services for the replacement of Sanitary Lift Station #5 (behind Burger King) and its associated force main have been awarded. The project did not begin in 2022 due to ongoing material shortages. The project is now anticipated to begin in the First Quarter of 2023.

SPECIAL SERVICE AREA #2

Description of Major Activities

Personnel from the Utility Division are responsible for the operation, maintenance, and repair of the pumping facility in the Special Service Area (SSA) #2. The pumps receive preventative maintenance and repairs as needed throughout the year. Lift Station #8 was originally constructed in 1984 and the pumps were overhauled in 1998. In 2021, new controls for the lift station were installed and no service interruptions occurred in 2022.

FYE 2023 Program Objectives

- (1) Clean and inspect the storm sewer and overland drainage conveyance system to the pumping facility weekly during the months of May through November and monthly from December through April.
- (2) Perform weekly preventative maintenance operations of the stormwater lift station, including monthly cleaning of stormwater intake and pump station outlet during Fiscal Year 2023.
- (3) Complete native plantings and plugs under SSA #2 Outfall Repair Project in by April 2023.
- (4) Monitor Stormwater Lift Station #8's outfall and Kress Creek for beaver dams and other impedances to operations throughout 2023.

SEWER FUND Treatment and Sanitary Collection

Description of Major Activities

The Sanitary Collection program covers all expenditures associated with the routine operation and maintenance of the entire sanitary sewer collection system, including force mains, and the City's fifteen sewer lift stations. Program personnel provides comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe reliable sewage handling and conveyance system for the businesses and residents of West Chicago.

Additionally, West Chicago/Winfield Wastewater Authority Regional Wastewater Treatment Plant (WWTP) receives raw wastewater from both West Chicago and Village of Winfield. The facility's contractual operations includes treatment of the raw wastewater and releasing it into the West Branch of the DuPage River.

FYE 2023 Program Objectives

- (1) Procure contractual services for the sewer main repairs and rehabilitation identified in the Sanitary Sewer Evaluation System survey by October 2023.
- (2) Complete the construction phase of Lift Station #5 and Force Main Replacement Project by December 2023.
- (3) Implement a Sanitary Sewer Rehabilitation Program, which shall include pipe lining and manhole sealing, at the locations identified from the Collection Systems Maintenance Program (CMOM) to improve operational efficiencies by July 2023.

WATER FUND

Performance Report on FYE 2022 Major Program Objectives

The Utilities and Water Treatment Plant Divisions operated and maintained pumping facilities which produced over 1.095 billion gallons of water during 2021 with 1.083 billion gallons also estimated for 2022. The yearly water use has remained flat even with new growth and development, which is a direct result of the continued water system leak surveys. The 2022 system leak survey has been completed, identifying 64 leaks which were repaired by Division staff. The Divisions' staff also successfully completed all IEPA and USEPA required sampling and monitoring requirements in 2022. The Divisions' staff reported no violations of State or federal drinking water standards. The distribution system water model was completed in 2022, which will provide a long-term plan to maintain and operate City's water distribution system.

As part of the City's ongoing maintenance program in the distribution system, the well pump and motor assemblies at Wells #5, #6, and #7 were inspected. A complete rebuild and rehabilitation of the existing well equipment were completed and the wells were returned back to service. Well #11 remains to be inspected in 2023. All other wells are operating at peak efficiency.

The internal and external surfaces of Water Reservoirs #4 and #8 were sandblasted and paint-coated in August 2022. These coating systems have an estimated life expectancy of 20 to 30 years with proper maintenance. In addition, the steel roof was replaced at Reservoir #4 located at 320 East Forest Avenue.

Water Treatment Plant Division conducted several construction projects in 2022. The planned 2022 WTP Supervisory Control and Data Acquisition (SCADA) Project was awarded, and the Project is anticipated to be completed in 2023. As part of the City's ongoing maintenance effort, the proposed project to paint the exterior of the steel water tanks in the Water Treatment Plant was expanded to include the interior of the vertical pipe gallery. However, the Project was deferred to 2023 as further analysis of the existing paint coatings was conducted. Contractual service contracts were awarded to remove a portion of lime sludge and update the treatment plants security system. Furthermore, High Service Pump #1 at the WTP was replaced due to mechanical failures. The staff also rebuilt High Service Pumps #2 and #3 to increase their efficiency while reducing energy costs. As the WTP and its associated equipment nears 20 years of operational use, additional components of the Plant will require replacement due to naturally occurring wear and tear due to age.

No major operational changes were made to the WTP during 2022. However, the Department continues to review various operational strategies in an effort to increase operational efficiency while reducing overall costs and meeting customer demands.

WATER PRODUCTION AND DISTRIBUTION

Description of Major Activities

This program covers all expenditures associated with the routine operation and maintenance of the City's nine wells, two elevated storage tanks, three ground storage tanks, water main, fire hydrants, valves, water meters, and service connections. Program personnel provides comprehensive maintenance and operational oversight to these facilities and associated infrastructure to assure a safe, plentiful and uninterrupted source of water for the businesses and residents of West Chicago.

FYE 2023 Program Objectives

- (1) Procure construction services to pull the pump and motor assembly for inspection at Well Station #11 by March 31, 2023 and complete necessary repairs by July 2023.
- (2) Pending approval of the grant funds from the Department of Commerce and Economic Opportunity, procure contractual services and complete painting of the Fremont Tower by September 2023.
- (3) Complete a water system leak survey and associated repairs by September 2023.
- (4) Continue to analyze the water distribution system for operational efficiencies throughout 2023.

WATER TREATMENT PLANT OPERATIONS

Description of Major Activities

This program covers all expenditures associated with the overall operation and maintenance of the Water Treatment Plant.

FYE 2023 Program Objectives

- (1) Complete the construction phase of the WTP SCADA and VFD Replacement Project by December 2023.
- (2) Upgrade and modernize the security system at the WTP by September 2023.
- (3) Continuous evaluation of operational strategies, including automation, to improve treatment process and reduce operational costs throughout 2023.

TREATMENT PLANT DEBT SERVICE

Description of Major Activities

The City issued 21.2 million dollars in alternate revenue bonds to pay for the Water Treatment Plant; this debt was paid off in 2011. The City also secured a \$10 million-plus loan from the IEPA. The bonds and note are being paid off through water usage charges.

CAPITAL PROJECTS FUND

Performance Report on FYE 2022 Major Program Objectives

In Fiscal Year 2022, various transportation improvements were completed, including pavement rehabilitation in Cornerstone Lakes Subdivision, Ingalton Hills Area, and Grove Avenue. In addition, various preventative maintenance programs such as the Sidewalk and Curb and Gutter Replacement, Sidewalk Saw Cutting, Crack Sealing, and Street Striping were also successfully completed. Furthermore, design engineering and coordination for various transportation projects, including federal and State-funded, continued throughout the Fiscal Year 2022. The Fair Meadows Subdivision Improvement Project was deferred to 2023 due to the unforeseen amount of coordination required with the CDBG grant. The Public Works Department staff continues to apply modern transportation standards and construction techniques to enhance City's transportation infrastructure.

Streets Division staff performed various in-house maintenance operations, including partial depth patching and storm sewer improvements including a special drainage project along the Illinois Prairie Path. The Division also managed the contractual Tree Planting Program, in which 133 new trees were planted. In addition, the contractual Forestry Maintenance Program which included removal of 114 damaged/deceased trees as well as pruning of approximately 2,400 trees City wide. Additionally, a contractual Rights-of way Maintenance Project was also completed which includes mowing, fertilizer and broadleaf application at approximately 131 locations throughout the City.

Furthermore, structural rehabilitation, masonry rehabilitation, and roof replacement was completed as part of 200 Main Street Rehabilitation Project in the Third quarter of 2022. The design process for the internal buildout of the commercial stories continued in Fiscal Year 2022.

The proposed building improvements at 135 W Grand Lake Blvd, were deferred ton 2023 due to the inflationary bidding environment. The Early Warning Siren Project once again was deferred.

CAPITAL PROJECTS FUND

Description of Major Activities

The Capital Improvement Program covers a period of five years and consists of new construction as well as maintenance and repair to existing infrastructure. The specific projects and the financing program are described in a supplement to this program budget.

FYE 2023 Program Objectives

- (1) Complete the Community Development Block Grant funded Fair Meadows Subdivision Rehabilitation Project by October 2023.
- (2) Complete the Community Development Block Grant funded Sophia St Area Water Main and Streets Rehabilitation Project by Fair Meadows Subdivision Project by October 2023.
- (3) Complete the 2023 Roadway Rehabilitation Project by November 2023.
- (4) Complete construction of the Surface Transportation Program funded project along Technology Boulevard by October 2023.
- (5) Complete all annual preventative maintenance projects such as Curb and Gutter and Sidewalk R&R Program, Crack Filling Program, Pavement Marking Program, Sidewalk Cutting Program, Pavement Rejuvenation Program, etc. by November 2023.

| Ongoing Activity Measures | 2021 Actual | 2022 Estimated | 2023 Proposed | 2024 Projected |

DOWNTOWN TAX INCREMENT FINANCE DISTRICT 2

Description of Major Activities

TIF District funds are utilized to make improvements within the designated district that will revitalize the area and ultimately result in increased property values and a self-sustaining district. Specific activities conducted to accomplish revitalization include providing and promoting façade grants, creating sub-area plans for specific areas within the district and property assembly. Expenditures for promoting the downtown are also included in the TIF program.

FYE 2023 Program Objectives

(1) Monitor revenues to ascertain if any budget amendments will be needed throughout 2023.

PUBLIC BENEFIT FUND

Performance Report on FYE 2022 Major Program Objectives

| There were no planned projects in 2022. |
|---|
| There were no planned projects in 2022. FY2023 Community Project Funding – Our park project on the former Kerr McGee site was included in the baseline House Appropriations Bill and passed out of the full Appropriations Committee in October. The full House of Representatives must pass the appropriations package and then negotiate a final bill with the Senate. Once negotiated, both Chambers have to pass the negotiated bill and send it to the President's desk. The funding is not guaranteed until the President signs the final bill and could be removed at any step during this process. |
| |
| |
| |

PUBLIC BENEFIT FUND

Description of Major Activities

This Fund holds the money obtained in the settlement with the Kerr-McGee Chemical Corporation (now Tronox). In 1998, the West Chicago City Council adopted a policy that provided for only using the accrued interest from this fund, in addition covering the costs for oversight of the Kerr-McGee clean up. To date, funding has only been allocated to five projects from this Fund: Sesquicentennial Park; monument and wayfinding signage; loan to the TIF Fund for property acquisition; property acquisition and associated expenses for the government campus and along High Street; and the music and arts venue at Reed-Keppler Park.

FYE 2023 PROGRAM OBJECTIVES

None – Should the Community Funding Project funds come to West Chicago, the Budget would be amended to include the local match of \$500,000 from this Fund.

MOTOR FUEL TAX FUND

Performance Report on FYE 2022 Major Program Objectives

| Motor Fuel Tax (MFT) funds were not utilized in Fiscal Year 2022 for roadway improvements; however, City staff anticipates funding its local share portion of previously completed projects to be billed in the amount of \$258,300 in the FY2022. Department staff have evaluated its multi-year Roadway Improvement Program in 2022 to budget future MFT funds for roadway improvements, which will also include Local Match for federal and State-funded projects. |
|---|
| |
| |
| |
| |

MOTOR FUEL TAX FUND OPERATIONS

Description of Major Activities

Various street improvement projects are funded by the Motor Fuel Tax funds. The City often applies for other sources of grant funds through federal and state agencies to supplement roadway improvements. These grant sources often require a local match, which is funded through the Motor Fuel Tax funds. Other general roadway-related maintenance items such as electricity and refuse disposal are also included in this program.

FYE 2023 Program Objectives

- (1) Utilize Surface Transportation Program (STP) Grant and Local Match to complete Construction and Phase 3 Construction Engineering for Technology Boulevard Resurfacing Project by November 2023.
- (2) Pending approval of grant funds through the Department Commerce and Economic Opportunity, construct a Traffic Signal at the intersection of IL-38 (Roosevelt Road) and Technology Blvd by December 2023
- (3) Pending approval of grant funds through the Department Commerce and Economic Opportunity Procure professional services for construction engineering for the Traffic Signal project at the intersection of IL-38 and Technology Blvd by March 2023.

ROOSEVELT-FABYAN TAX INCREMENT FINANCE DISTRICT FUND

Description of Major Activities

TIF District funds are utilized to make improvements within the designated district that will revitalize the area and ultimately result in increased property values and a self-sustaining district. Specific activities conducted to accomplish revitalization include providing grants to improve the infrastructure of the district. Expenditures for promoting the district are also included in the TIF program, which includes marketing.

FYE 2023 Program Objectives

- (1) A development is expected to get underway in late 2023 or early 2024, with an increase in property tax increment following by a year.
- (2) Notes are expected to be issued to kick-start development of a warehouse-distribution facility and the roadway to access it. Timing depends on the developer securing a tenant.

COMMUTER PARKING FUND

Description of Major Activities

This program funds the maintenance of both commuter parking lots and the train station. Activities include snow removal, mowing and landscaping, trash removal, janitorial service and maintenance for the building, parking lots, and payment machines.

FYE 2023 Program Objectives

- (1) Procure and contractual complete exterior wood trim, siding, flashings, and windows on the upper Cupola as well as paint the interior, exterior and roof of the depot building by October 2023.
- (2) Perform pavement patching at the entrance to the station parking lot with in house staff by October 2023.
- (3) Perform landscape modular block retaining wall evaluation and perform necessary repairs along Main St and Wilson Ave by October 2023.
