

CITY OF WEST CHICAGO

DRIVEWAY PERMIT WORKSHEET

Please check all applicable boxes for EACH section below.

1. Proposed Work to Include (check all that apply):

- Repair and replacement of existing driveway only
- Widening of existing driveway
- Widening of existing driveway apron in public right-of-way
- New driveway and driveway apron

2. Work in Public Right-of-Way*

- No work to be performed within public right-of-way
- Proposed work in public right-of-way to include driveway apron only
- Proposed work in public right-of-way to include driveway apron and public sidewalk**

3. Driveway Surface on Private Property:

- Asphalt (Minimum 2.5 inches over 6 inches of gravel)
- Concrete (Minimum 4 inches over 4 inches of gravel)
- Brick pavers (Designed and approved for vehicle parking over 10 inches of gravel)

4. Driveway Apron Surface in Public Right-of-Way:

- Asphalt (Minimum 2.5 inches over 6 inches of gravel)
- Concrete (Minimum 6 inches over 6 inches of gravel)
- No work to be performed within public right-of-way

*Work within the public right-of-way requires the deposit of \$2,625.00 unless a licensed contractor registered with the City of West Chicago is used to perform the work.

**Public sidewalks in right-of-way require 6 inches of concrete over 2 inches of gravel.
